Mayor Ellenstein: Is there any person who desires to be heard in opposition to this application?

Mr. Rankin: This is a renewal, Mr. Mayor, but there were objectors to it.

Mayor Ellenstein: Aren't they present?

Mr. Rankin: They are evidently not here.

Mayor Ellenstein: What were the objections?

Mr. Rankin: The objections came from two owners of property in the neighborhood. Mr. Pietrucha representing the Polish National Building and Loan, owner of 14-16 which is further up the block, and Mrs. Lenz, owner of 28 across the street. She said she was losing tenants on account of the parking station. It has been there, however, for a period of four years. However, the fence is going to be erected.

Mayor Ellenstein: This is the first time a fence has been erected?

Mr. Rankin: Yes, they never had a fence there before.

Commissioner Duffy: What it is, a one year renewal?

Mr. Rankin: A one year renewal. They have had it there for four years. There has never been any opposition.

Mayor Ellenstein: Is there any person who desires to be heard in opposition to this application? Were there any objections to this?

Mr. Rankin: We have had none at our meeting, but since that time the owner of property on Park Street has objected by telephoning me. However, she didn't come down. There has been a parking station since about 1928 through the middle of this place. Now, the new company is taking it over and running it up here (indicating). They are taking down this building (indicating on map.)

Commissioner Duffy: I move concurrence in the action of the Board of Adjustment.

Mayor Ellenstein: Is this a renewal?

Mr. Rankin: Yes, sir. There has been tanks there for three or four years.

Commissioner Minisi: I move we concur in the action of the Zoning Board.

Commissioner Franklin: I second the motion.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

WHEREAS, On an appeal to the Board of Adjustment from the ruling of the Zoning Enforcement Officer, the said Board, after having considered the same, recommended in writing to the Board of Commissioners of the City of Newark that the following structure or use be allowed:

M.; such use to be limited to the period ending one year from date; and with the further condition, that the applicant will pay any additional insurance rates caused by his repair shop on the property at 124 Peshine Avenue, and that all automobile repairing be conducted in the southerly half of the garage;

Mayor Ellenstein: Is there any person who desires to be heard in opposition to this application?

Mr. Maxwell Plotkin, representing Mr. Charles Robinson, owner of 224 Peshine Avenue;

Mayor Ellenstein: You represent Mr.——

Mr. Plotkin: Robinson.

Mayor Ellenstein: At 228, is it?

Mr. Plotkin: 224 Peshine Avenue.

Mayor Ellenstein: That is the abutting property?

Mr. Plotkin: Yes, sir, the adjoining property.

Mayor Ellenstein: You are at 228?

Mr. Plotkin: I am at 224.

Mayor Ellenstein: And you are representing the same party?

Mr. Oliver Randolph: Yes.

Mr. Harry Pine: Both lawyers are representing the same party.

Mayor Ellenstein: But there was an objection, as I recall it, at 228.

Mrs. Robinson: My chief objection, to be real frank about it, is the insurance rate which I cannot afford to pay.

Mayor Ellenstein: The repairs will be made on the other side of the garage, the further side away from Mrs. Robinson's property?

If this were approved by the City Commission with the understanding that he has to pay you for any difference or increase of insurance rates, and with the further understanding that all repairs be made on the further side of his property away from your home, that would relieve that situation?

Mrs. Robinson: That would relieve it, and I am perfectly satisfied.

Mayor Ellenstein: With the further condition that Mr. Samuels compensate, during the period of his permit, for any difference in the insurance rate to Mrs. Robinson, and that all repairs at all times be made on the further side of his lot—is that northerly or southerly?

Mr. Plotkin: Southerly.

Mayor Ellenstein: Southerly, at

the further side of his property away from Mrs. Robinson's property.

Commissioner Franklin: I so move you.

Commissioner Duffy: I second the motion.

Mayor Ellenstein: It is on those conditions, Mr. Rankin, that this permit is granted.

All in favor of concurring in the recommendation of the Board of Adjustment with these further conditions, will signify by saying aye, contrary no; the clerk will call the roll.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

Mayor Ellenstein: It is my understanding that there are present in the balcony and throughout this audience, students of the Sussex Avenue Public School. On behalf of the City Commission I greet you young folks and say to you that we appreciate your attendance here, and we hope that your appearance here this morning will be a forerunner of other schools in the City to come to the City Commission at its meetings and show an interest in them and acquaint themselves with the manner in which the City business is conducted. And we thank you for your presence here this morning.

The roll being called, the motion was declared adopted by the following votes:

Mayor Ellenstein: Now, there is a report that has been submitted by the investigating committee to the City Commission, and I will ask the City Clerk to read that report.

January 14, 1936.

WHEREAS, reports of irregularities in the Department of Revenue and Finance were brought to the attention of the Board of Commissioners of the City of Newark,

AND WHEREAS, on the thirteenth day of December, 1935, by and under the authority of Section 61, Chapter 150 of the Laws of 1900, the Board of Commissioners of the City of Newark did appoint a committee consisting of—

Hon. Meyer C. Ellenstein, Mayor,
Commissioner Michael P. Duffy,
Commissioner Pearce R. Franklin,
Commissioner Anthony F. Minisi,

members of the Board of Commissioners of the City of Newark, which law provides among other things, the subpoenaing of any and all officials and persons within the jurisdiction of the State of New Jersey, and the examination under oath by the committee of any and all officials and persons, etc., etc.

In pursuance of the authority vest-

ed in the said committee by the foregoing resolution, numerous witnesses testified under oath. Some of the cases completed up to the present time follow:

I. 1. One Nathan Goldsmith testified under oath before this Committee, as follows:

That he is the president of the J. and R. Corporation, owners of real estate on Raymond Boulevard and Cherry Street in the City of Newark.

The Committee finds that Director Parnell caused to be introduced on September 12th, 1933, a resolution, No. 614, and in which Paragraph 6 of the original resolution recites as follows:

"WHEREAS, The City of Newark, as a further inducement did, on or about November 1st, 1932, agree to reimburse the said J & R Corporation for 1932 taxes paid on account of the property aforesaid;"

It will be noted from this paragraph of the resolution that Director Parnell refers to a purported contract entered into by the City in November, 1932, on the basis whereby this refund of \$3,000.00 was agreed upon.

This committee has made a thorough search and has been unable to find any such agreement.

2. Mr. Goldsmith further testified that he negotiated for cash refund of taxes with one Al Hoffman, a friend of Director Parnell, and who had been active in Parnell's campaign for election to the City Commission.

3. Mr. Goldsmith also testified that said Al Hoffman informed Goldsmith that he had negotiated with Director Parnell for the cash refund of \$3,000.00, of which Hoffman was to re-

ceive fifty per cent (50%) and that Hoffman informed him that he had made an agreement with Director Parnell to give him \$700.00 or \$750.00 of the fifty per cent (50%). In pursuance of these negotiations and after the resolution number 614 was adopted Mr. Goldsmith went to City Hall and received two (2) checks in the sum of \$1,500.00 each on September 25th, 1933; that one check was endorsed by the J. and R. Corporation and returned to the City in part payment of taxes then owing to the City. The total amount of said taxes on September 25th, 1933, when these two (2) \$1,500.00 checks were issued then owing was \$3,548.16, and that the second check in the sum of \$1,500.00 was deposited to the credit of the J. & R. Corporation.

4. Mr. Goldsmith further testified that on September 29th, 1933, four (4) days after the two (2) checks of \$1,500.00 each were issued, he received a check from Rosetta B. Goldsmith who was an officer of the J. & R. Corporation and from her personal account, in the sum of \$1,200.00; that he cashed the said check in the Manufacturers Trust Company, 711 Lexington Avenue Branch, New York City, and then proceeded to Newark and met the said Al Hoffman in the rotunda of the City Hall, and that Goldsmith gave to the said Hoffman \$1,200.00 in cash, and that Hoffman separated the money and had a \$500.00 bill, a hundred and fifties in his hand. Goldsmith continued to testify that he took particular notice of the hand in which Hoffman had the money and observed that Hoffman did not change the position of the money in his hand and followed Hoffman to Director Parnell's private office and stood within ten (10) feet of the desk where Hoffman shook hands with Director Parnell, using the hand that contained the money.

5. Mr. Al Hoffman admitted under

oath before this investigation Committee that on or about September 29th, 1933, Mr. Goldsmith gave him \$700.00 in the rotunda of the City Hall and that he proceeded into the private office of Director Parnell with Goldsmith in back of him and that he, Hoffman, said to Parnell, "Director, I have a present for you from Mr. Goldsmith," and Hoffman further admitted, corroborated by Goldsmith, that he, Director Parnell and Goldsmith went to lunch in the Douglas Hotel immediately after.

6. Evidence was adduced before this Committee, that although Director Parnell had issued an order directing that the salaries of all policemen, firemen, school teachers and other city employees be held up until any due taxes were paid, he permitted the J. and R. Corporation to pay only \$1,500.00 on a total indebtedness to the City of \$3,548.16 when the entire \$3,000.00 should have been applied if Director Parnell had been consistent in his policy.

CONCLUSIONS:

Based upon the foregoing sworn testimony of Goldsmith and Hoffman, given before this Commission in full detail, and by the documentary evidence in the possession of the Committee, such as Resolution number 614, the two (2) \$1,500.00 checks issued to the J. and R. Corporation by the City, the withdrawal check of \$1,200.00 which Goldsmith cashed, together with other facts and circumstances it is the opinion of this Committee;—that Director Parnell did not conduct himself to the best interest of the taxpayers of the City of Newark and that his conduct in this matter was, to say the least, highly irregular.

II. 1 Testimony was adduced before

this Investigating Committee by Acting Comptroller William Torppey who had been employed by the City of Newark for the past thirty-nine (39) years and has been for thirty-two (32) years in the Comptroller's Office, to the effect that shortly after Director Parnell was inducted into office that he, Director Parnell, set up a separate Tax Lien Assignment Branch of the Comptroller's Division of the Department of Revenue and Finance and placed Michael A. Castellano in charge, and that James Laciopi, another employee of the Department of Revenue and Finance, who had formerly been a counter clerk, had been assigned to the duties of functioning with or under Mr. Castellano in the assignment of tax lien certificates. That up to the time of Director Parnell's incumbency the number of assignments were negligible as compared to the number during the Parnell Administration when thousands of such assignments were made.

2. Testimony has been presented before this investigating Committee that these assignments were distributed to a very few chosen finance companies and the concessions made to them consisted in a waiving of the interest from the time of the tax sale to the date of the assignment of the tax title lien certificate. That this same allowance or credit was not given to the thousands of tax payers who were being threatened with the loss of their homes and properties; that in each case the individual tax payer who redeemed his property had to pay interest and costs right up to the day of redemption; that subsequent liens and taxes as required by Director Parnell's resolutions were not collected and not enforced from these few chosen finance companies in accordance with the resolution; and that this procedure was not in accordance with the law.

3. Mr. Torppey further testified before this Committee under oath that he had on several occasions during Director Parnell's incumbency called the tax sale assignments to the attention of Director Parnell as being irregular, detrimental to the individual taxpayers, and that the City was losing huge sums of money. He also testified that he called these facts to the attention of Director Parnell shortly after the first resolution for tax sale assignments had been presented to the City Commission.

4. The Committee has in its possession a copy of a letter dated March 12th, 1935, signed by City Clerk Richenstein, the original of which was addressed to Director Parnell, and which had attached to it a report from Jacob Fox, who was then and now is Legislative Representative of the City of Newark, pertaining to Senate 152 which was then pending before the State Legislature. This report of the Bill clearly indicated that any assignment of tax lien certificate with a waiver of interest, subsequent liens or other municipal charges was contrary to the then existing law. Notwithstanding that fact the Committee finds that since March 12th, 1935, a substantial number of tax lien certificates have been assigned to the few finance companies with a waiver of interest and without payment of subsequent liens.

5. Testimony was given before this Investigating Committee, under oath, by Miss Frances Finley that she was employed in the Department of Revenue and Finance for thirteen (13) years; that she had been engaged for some time as secretary to Mr. Castellano and Mr. Laciopi during Director Parnell's administration; that representatives of the few finance companies were permitted to come in behind the counters in the Comptroller's Division. "Indeed," she stated, "three or four would come down there,

you would have to trip over them to get up the aisle," whereas during the Howe and Breidenbach administrations none other than City employees were permitted this privilege. She further testified that when Castellano or Laciopi, or both, were put in charge that the handling of the assignment certificates were "like a closed corporation, no one had anything to say," and that these few finance companies did have "the privilege of taking home our, the City's private records." She also testified that the forms from which she sent out the notices of foreclosure, they (meaning the finance companies) took them home with them and brought them back the next day with all the "cream" picked out, all the desirable parcels of land. She further testified that individual taxpayers had to pay "full penalties and full charges" if they wanted to redeem a tax title lien certificate. She further testified in connection with the penalties charged and collected from the thousands of individual taxpayers, "I thought it was cruel. It is mighty disheartening to see people crying and carrying on and see the last thing they had taken from them." She further testified that Mr. Castellano received his orders direct from Parnell's office; when she took up the question of irregularity and illegality with him; that Castellano replied to her that the orders were coming from Director Parnell's office and that Castellano told her to mind her own business. She also testified that the individual taxpayer, in addition to redeeming his tax lien certificate, had to pay all interest and subsequent penalties right down to the day of redemption and all subsequent liens that had accrued between the date of sale and the date of redemption prior to Director Parnell's incumbency, but during Director Parnell's administration and since Castellano and Laciopi were in full charge of tax sale assignments the same stipulations were not demanded

from the finance companies despite the fact that all resolutions presented to the City Commission by Director Parnell read that "All subsequent taxes must be paid in consideration of the assignment being made."

6. This Investigating Committee engaged the firm of H. Braverman & Co., certified public accountants, to assist in this investigation. They have reported to this Committee to the effect that Director Parnell had two (2) rules in connection with the redemption of tax title lien certificates. They were as follows:

1. THE SMALL INDIVIDUAL PROPERTY OWNER AND TAX-PAYER, BUILDING AND LOANS, BANKING INSTITUTIONS AND MORTGAGEES GENERALLY HAD TO PAY RIGHT UP TO THE LAST MINUTE OF REDEMPTION, BOTH IN PENALTIES AND ALL SUBSEQUENT LIENS; AND

2. THAT THE FEW FAVORED FINANCE COMPANIES WERE RELIEVED OF PAYMENT OF THESE FEES AND ALSO WERE NOT FORCED AND DID NOT PAY THE SUBSEQUENT LIENS UP TO THE DATE OF THE ASSIGNMENT.

The net result of this discriminatory practice has not only cost the City over \$100,000.00 in income arising out of loss of interest alone up to the date of this report, but this money was taken from the thousands of individual taxpayers by the finance companies. There individual taxpayers were not permitted to redeem their homes from tax sales by a waiving of the interest as well as waiving the subsequent liens while the few finance companies were given those concessions.

The auditors report that if Director

Parnell had collected the subsequent taxes between the date of the tax sale to the City and the date of the assignment of the certificate from these few finance companies as he should have done in accordance with his resolutions that the City would have collected \$600,000.00 additional from these favored finance companies up to the present tabulation, and that the final tabulation will reach \$1,000,000.00 or more.

CONCLUSIONS:

It is therefore the opinion of this Committee, based upon the testimony summarized above, relating to the tax lien assignments, together with the detailed testimony of a number of other city employees, together with the report of the auditors, that practices of discrimination have existed during the period of Director Parnell's administration; that these practices resulted in great loss to the City and to thousands of taxpayers in the City of Newark; It is also the opinion of the Committee through the evidence, both oral and documentary, which has been brought to its attention that Director Parnell from time to time had notice of these conditions. It has also been proven to the Committee's satisfaction that the City was not in need of money at the time that the great bulk of these assignments were made to the few favored finance companies. Indeed, during the period of June 1st, 1934, and the present time, the smallest amount that the City had on any one day in operating cash balance was \$1,700,000.00, while the average daily cash balance was approximately \$3,000,000.00 during that period. The daily cash balance has been as high as \$8,000,000.00 in that period. This, the Committee finds, entirely refutes the statement Director Parnell made to the Press on Friday, January 3rd of this year, that the City needed the money.

III. 1. John F. Bannon made an affidavit in which he swore that he had been retained by the Federal Telegraph Company to endeavor to obtain a reduction in its assessment, the amount of the assessment being \$250,000; that while the appeal for the reduction was pending he met Alfred L. Kirby, president of the Newark Tax Board, and that Kirby stated to Bannon, "I see you have an appeal for a large reduction for the Federal Telegraph Company." And that "You ought to contribute to a campaign fund." Bannon asked how much; that he, Kirby, then informed him that the amount would be fifty per cent of his, Bannon's fee. Mr. Bannon's agreement with the Federal Telegraph Company was that he was to receive half of the amount saved. Subsequently, through Kirby's recommendation to the County Tax Board, Bannon obtained a reduction of the assessment of the Federal Telegraph Company from \$250,000 to \$125,000. After Banno received his check for his fee from the Federal Telegraph Company, which amounted to \$2,281.25, he telephoned Alfred L. Kirby and was told by him to meet him at the cigar stand in the lobby of the Douglas Hotel. He met him there and they proceeded to the second floor of the Douglas Hotel, along the elevator corridor and Bannon handed to Alfred L. Kirby the sum of 1,140.00 in cash which was an equal division of his, Bannon's, fee.

2. The testimony taken before this Committee shows that thereafter, two employees of the Department of Revenue and Finance, Robert Ebert and Lawrence Kennedy, both of whom had received employment at the hands of Director Parnell and both of whom admitted being obligated to Director Parnell for it, caused Bannon to be taken to the office of an attorney-at-law, Joseph J. Quinn, in the Fatzler Building on Hill Street, Newark on a Sunday afternoon, December 15th,

1935, and prevailed upon him to make an affidavit retracting the affidavit made by Bannon previously.

3. Subsequently, the said John J. Bannon appeared before this Investigating Committee voluntarily and of his own volition and without a subpoena, and testified under oath, that the said Robert Ebert and Lawrence Kennedy induced him to make this retraction affidavit by promising him they would engage Pitney, Hardin & Skinner as counsel for him, and would arrange for Bannon and his wife to make a trip to Florida until this investigation blew over. This was made in the presence of Mrs. Bannon.

In his testimony before the Committee Bannon positively swore that the first, or original, affidavit made by him was absolutely true.

4. Lawrence Kennedy, an employee of the Department of Revenue and Finance, admitted that he engaged the services of an attorney, Joseph J. Quinn, on Sunday morning, December 15th, 1935, and arranged for him, Quinn, to be in his office in the Fatzler Building on Hill Street, at 2:00 o'clock Sunday afternoon, December 15th; that on that day and at that time Robert Ebert, Mr. and Mrs. Bannon and himself, entered the office of Joseph J. Quinn; that after the affidavit had been typewritten in Mr. Quinn's office, he and Bannon went to a notary public in the Lucerne Hotel on Broad Street, Newark, where the affidavit, in triplicate, was sworn to by a notary public named Fuller, and that said affidavit was dated December 14th, although it was actually taken on December 15th, a Sunday; that thereupon Kennedy took all of the affidavits, and on Monday, December 16th, 1935, the next morning after the Bannon retraction affidavit, he delivered these affidavits to Director Parnell.

5. Joseph J. Quinn, the attorney who prepared the affidavit of Bannon, December 15th, 1935, on his oath testified before this Committee, that Kennedy called him at his home Sunday morning, December 15th, 1935, and personally retained him; that Kennedy told him that he wanted the affidavit for "tomorrow morning, Monday." Quinn arranged to meet Kennedy at his office in the Fatzler Building on Sunday afternoon; that he prepared the affidavit for Bannon and gave them to Kennedy to be taken to a notary public to be sworn to.

Mr. Quinn further testified that on Monday morning, December 16th, 1935, one William A. Consodine, an attorney-at-law, who the Committee believes has represented Director Parnell in the past as personal counsel, called him on the telephone and followed that with a personal call to his office at 11:00 A. M. that morning; Consodine stated to Quinn that he would draft a Bill to be filed in the Court of Chancery to restrain Mayor Ellenstein and Deputy Chief Brex from using the first affidavit made by John F. Bannon, in which affidavit the said Bannon had sworn that he had paid to Alfred L. Kirby, President of the Newark Tax Board, at the Hotel Douglas the sum of \$1,140.00 in cash; that he, Quinn, informed Mr. Consodine that he did not care to get mixed up in the matter; that he had just handled this one matter and that was all he was going to handle.

6. Mr. James E. Wallin, Comptroller of the Federal Telegraph Company, testified under oath that Mr. Alfred L. Kirby called at his place and made not more than a fifteen minute audit of the books.

7. Mr. Thomas McCool testified under oath that he accompanied Mr. Kirby on this visit and that he, McCool, was not there to make an appraisal, merely an inspection. McCool testi-

fied that he spent five (5) minutes making such inspection; that Kirby spent (15) minutes looking over the books of the company, a total of twenty (20) minutes, and that as he testified, not more thirty (30) minutes altogether, which resulted in a reduction of \$125,000.00 from an assessment previously fixed by the Newark Tax Board at \$250,000.00.

8. James J. Fitzsimmons, Secretary to the Board of Assessment and Revision of Taxes, testified under oath that by direction of Alfred L. Kirby, President of the Board, he wrote to the Essex County Board of Taxation that it was the Newark Board's opinion that after making an inspection of the plant of the Federal Telegraph Company that it was their opinion that the appeal was a just one and that the assessment should be reduced to \$125,000.00, although Commissioners O'Brien, Marzulli and Fierstein, members of the Board of Assessment and Revision of Taxes of Newark, which constitutes a majority of the Board, had testified before this Committee that the matter had not been brought before the Board.

9. Mr. Nathan Carris, a fourth member of the Newark Tax Board, and the appointee of Director Parnell, testified under oath that he had no recollection of the Federal Telegraph Company personal property tax assessment reduction from \$250,000.00 to \$125,000.00 coming to his or the Board's attention.

10. Commissioners Theodore Fierstein, Olindo Marzulli and Edward J. O'Brien, members of the Newark Tax Board, testified under oath before this Committee that they had not been consulted about the appeal of the Federal Telegraph Company and the subsequent reduction.

CONCLUSIONS:

From the foregoing testimony relative to the Federal Telegraph Company matter, it is the opinion of the Committee that Bannon in his first affidavit told the truth, that he did pay to Alfred L. Kirby the sum of \$1,140.00 in cash on the second floor of the Douglas Hotel, and that the said Bannon had been promised the services of counsel and a trip to Florida for him and his wife, until, to use his language, "This investigation blew over."

This Committee considers it very significant that Lawrence Kennedy and Robert Ebert, subordinates of Director Parnell, should have taken the interest in the matter that they did, and it seems too, significant to this Committee that Lawrence Kennedy should have taken the affidavit of the retraction of Bannon, which involved Kirby alone, to Director Parnell unless Director Parnell anticipated it and the fact that Director Parnell received the affidavit according to Lawrence Kennedy's testimony on Monday morning, December 16th, 1936, and held the same for two (2) days, namely, until Wednesday, December 18th, 1935, before giving it publicity by releasing it to the Press without having, during the interval of two (2) days taken any action by interviewing John F. Bannon to determine whether or not he had paid \$1,140.00 in cash to Alfred L. Kirby, is, to say the least, most irregular and unusual conduct.

It seems also very significant to this Committee that a reduction of that magnitude was made after a casual inspection of the personal property and books of a very large corporation and without the knowledge and consent of at least a majority of the Newark Board of Assessment and Revision of Taxes.

The Committee is of the opinion, considering this and other detailed evidence presented in the Federal Telegraph Company matter, that the conduct of Director Parnell and some of his subordinates was not to the interest of the taxpayers and citizens of the City of Newark.

IV. 1. Testimony was adduced before this Investigating Committee in connection with the Personalty assessment of the Novelty Bar & Grill.

2. The tax file in the Newark Tax Board office, which is under control of Director Parnell, shows that Mr. Mullaney, an accountant on the payroll of the City for the purpose of making audits of companies to fix the amount of personalty assessments, filed a report under date of June 17th, 1935, which showed the amount the City could assess the Novelty Bar & Grill for personalty was \$136,857.55. On June 19, 1935, after receiving the report of Mr. Mullaney, the Newark Tax Board sent a letter to the Novelty Bar & Grill, a copy of which reads as follows:

"In connection with the matter of the personal tax assessment against you for the year 1935, which we have based on a value of \$75,000, we desire to inform you that our Board, following a check-up of your records and after giving the matter its careful consideration, decided that it could not justify itself in recommending that any change be made for the reason that in our opinion this value should not be considered in any wise excessive.

Very truly yours,
Board of Assessment and
Revision of Taxes,
President."

Notwithstanding Accountant Mulaney's report and the letter of the Tax Board, Mr. Spaulding Frazer, who was Director Parnell's campaign manager and former law partner, and who has represented him as his personal counsel on a number of occasions, wrote in his own handwriting and on his personal letterhead to Mr. Kirby on September 3rd, 1935, as follows:

"Dear Al:

Stopping for an hour between short vacation trips. I find the Novelty Bar & Grill return has not been filed. Here it is. I think the return fully justifies the reduction of the tax to last year's figures, and I am sure you will agree. I'll be back on the 9th, and if there is anything further needed, let me know.

Yours truly,
Spaulding Frazer."

3. Upon receipt of this letter Mr. Fitzsimmons, on orders of Mr. Kirby, made a notation on the card on file in Tax Office as follows:

"Red. to \$15,000 A. L. K. J. J. F." and the Novelty Bar & Grill now stands assessed at \$15,000.00.

4. A search of the records and the minutes discloses no entry to show that this was done with the acquiescence of the majority of the members of the Board.

CONCLUSIONS:

It is concluded by this Committee that this transaction is extremely irregular, and that the affairs of the Tax Department were dominated solely by Mr. Kirby who completely ignored the rules and procedure and reports of the employees normally engaged in fixing the amounts that should be assessed.

1. The Committee in presenting this report to the Newark City Commission is of the opinion that the gravity of the charges made against Director Parnell and some of his subordinates cannot be too strongly emphasized.

2. That it has, on two (2) occasions, requested Director Parnell to appear before the Committee and refute or defend charges made against him and some of his subordinates. He failed to appear without even the courtesy of a reply.

3. That this should be considered only in the light of a preliminary report.

4. That there are many matters of great importance to be presented.

5. That the accountants are busily engaged and have not yet filed their report.

6. That the investigation has many items in process, which are not completed as yet.

7. That it has considerable information which requires thorough investigation.

8. That it will at the completion of its investigation, or at such time as it deems advisable, present the evidence to the Prosecutor of the Pleas of Essex County.

9. That it recognizes the fact that the Department of Revenue and Finance is one of vital importance to the welfare of the taxpayers of the City of Newark.

10. That it is aware of the legal limitations placed upon the City Commission by Statute and that the City Commission has no authoritative power to remove or impeach Director Parnell as a City Commissioner, but

merely to transfer him from one Department to another.

11. It is therefore the conclusion of this Committee that Reginald Parnell has conducted his office with utter disregard to the interest of the rank and file of the taxpayers and the people of Newark, and in our opinion the City would best be served by his transfer from the Department of Revenue and Finance in order to avoid the occurrence of further serious consequences.

The Board then entered upon said hearing.

Mayor Ellenstein: Is there any person who desires to be heard on this ordinance?

Mr. Dominick Orgo: Mr. Mayor, from what I read we have over \$3,000,000 in our treasury. If that is the case why not pay out of that money instead of borrowing? I think it is time we should stop borrowing if it is possible.

Mayor Ellenstein: We are issuing bonds, you understand, that is for relief of last year, 1935. The fact is, from what I understand, we haven't \$3,000,000 in the treasury, and a large portion of that money has to be used to take care of the \$40,000,000 in remissions that the County Bond has cut down. The assessments during 1935 were raised over \$100,000,000 and now the County Board has cut down approximately \$40,000,000 already, and the State Board may cut down some more. That has to be taken care of in order to compensate for the amount of money which we lose in ratables.

Mr. Orgo: As I understand, in 1935 the collections was one of the best collections we have had in forty years. That has been the consensus of opin-

ion. If that is the case, if at this time we collect the most we cannot pay any obligations, when will be be able to start to pay obligations?

Mayor Ellenstein: For instance, if a taxpayer has been assessed at \$20,000 and appeals to the County Board and has paid on the basis of \$20,000, and his assessment has been cut down \$5,000, the City has to refund him that amount for the \$5,000, do you see?

Is there any other person who desires to be heard on this ordinance? If not, I will entertain a motion that the hearing be closed and the ordinance be taken up on second reading.

(No response).

Commissioner Franklin: I move that the hearing be closed.

Commissioner Duffy: I second the motion.

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

Mr. Harold Farkas: Gentlemen, I would like to make application for the reconsideration of a permit for a chicken market, on behalf of Mr. Magro 343 Third Avenue, Newark. As

I explained before, this is a matter which was passed by the Board of Adjustment and was before the Commission on July 24th, 1935. A number of people who voiced their objection at that time have reconsidered, and I believe if the matter is put down before the Commission at some convenient date we will show a change in the circumstances in that regard and ask the Commission to reconsider the application. I would like to suggest that the matter be reconsidered by the Commission two weeks from today.

Commissioner Franklin: I move you that this matter be re-opened for reconsideration and that the usual notices be forwarded to the proper property owners.

Mayor Ellenstein: You understand, before putting the motion, that you are to give at least five days notice to the property owners within two hundred feet, and have an affidavit of service with you on the date set down.

Board of Commissioners

New Jersey.

Gentlemen:

The undersigned is the registered holder of the outstanding Dock Bonds of the City of Newark, dated December 15, 1914, bearing interest at the rate of four and one-half per centum ($4\frac{1}{2}\%$) per annum, payable semi-annually on June 15th and December 15th, payable December 15, 1959, and consisting of twelve bonds of the denomination of \$1,000 each, numbered 231 to 236, inclusive, 250 to 252, inclusive, and 411 to 413, inclusive, reciting that they are issued pursuant to a resolution adopted by the Common Council of the City of Newark on December 4, 1914.

The bonds were originally issued in coupon form but have been converted into registered bonds by the removal and cancellation of the coupons attached thereto.

We hereby request that these bonds be reconverted at the expense of the undersigned into coupon bonds of the same form and denomination as those originally issued.

In the event that our request is granted, we shall arrange to have the bonds duly transferred and registered to bearer prior to the issuance of new coupon bonds.

Very truly yours,
Edward B. Smith.

Ordered filed.

WHEREAS, prior to the issuance of each of the outstanding bonds of The City of Newark, hereinafter described, a resolution was duly adopted by the governing body of said City, providing that said bond should be issued in coupon form but should be registerable as to both principal and interest, and each of said bonds has, since its issuance, been converted into a registered bond by the removal and cancellation of the coupons attached thereto and the execution by the City Comptroller of a conversion certificate printed on the back of such bond, and the holder of said bonds has presented a written request that said bonds be reconverted, at its expense, into new coupon bonds of the same form and tenor as those originally issued, and the Board of Commissioners desires to grant such request; NOW, THEREFORE,

The following communication was received and read:

February 4, 1936.

To the Honorable the Commissioners of the City of Newark and the Honorable Anthony F. Minisi, Director of Revenue and Finance of the City of Newark.

Gentlemen:

The Director of Revenue and Finance has fixed February 6th, 1936, at nine o'clock in the forenoon, at his Private Office in the City Hall as the time and place to proceed upon charges against me which are stated in the charges to be based upon sworn testimony.

The charges are the result of what has been termed an "investigation" conducted by you into the affairs of the Department of Revenue and Finance. That "investigation" has been pursued behind closed doors you electing to release to the Press so much and only so much of the testimony as you saw fit. In the course of that "investigation" you sought to compel banks in which Mrs Kirby and myself carried accounts to produce tran-

scripts of the accounts. The banks declined to produce the records without our consent which we declined to give for the reasons stated in letters from my counsel to Mr. Boettner, City Counsel, of December 17 and December 19, 1935. By those letters both Mrs. Kirby and myself offered to have these records produced at a public hearing and to appear and be fully interrogated with respect to any matters into which you saw fit to go. You refused to take advantage of that offer and directed the City Counsel to take proceedings to compel the production of the records at a private hearing without according Mrs. Kirby and myself the opportunity of testifying. That attempt you abandoned. Under the direction of the Commissioners the Director of Revenue and Finance is now directed to try me on charges made by you and stated to be based on sworn testimony. Through my counsel I have demanded access to that testimony so that I might know what to meet and properly prepare my defense. Through your counsel you have denied my request.

The first charge which is made against me apparently is based upon the testimony of Mr. Bannon, who told one story to you and then repudiated that story in a sworn affidavit and then repudiated his repudiation in further testimony before you, as the Public Press informs me, all behind closed doors. I am not even accorded the right to see the testimony of this changing witness. In the charges originally served upon me the date of my supposed agreement with Mr. Bannon was fixed as "on or about July 12, 1934." You or your representatives apparently discovered that on that date and on or about that date I was on board the Fort St. George returning from New Foundland and that it was physically impossible that any agreement such as was alleged to have been made between Bannon and myself on or about that day could

have been made. I believe that you or your representatives discovered this "error" as the result of a telephone conversation which had been overheard by someone who reported to you. Thereupon, an amended charge was served upon me changing the date of the alleged agreement to on or about the 15th day of August, 1934. On February 3rd, 1936, late in the afternoon, my counsel was requested to consent to a change in the date of a suggestion alleged to have been made by me to Ballantine from May 1935 to August 20, 1935. The necessity for this change is apparent. The situation was such as that it is obvious that the alleged request could not have been made by me on or about the date alleged in the original charges, before any Ballantine appeals had been filed.

I cannot understand, assuming that the charges are based upon sworn testimony as therein stated, how the original charges could have alleged erroneous dates. I am denied access to the testimony which I require to determine how this "error" occurred.

My trial has been fixed to take place in the Private Office of the Director of Revenue and Finance. It is obvious that there can be only the "semblance" of a public hearing under such circumstances.

Without waiting for any adjudication you have seen fit to remove Mr. Parnell from the Directorship of Revenue and Finance to another Department and place as head of the Department of Revenue and Finance Mr. Minisi, who, from the beginning has been one of the Commissioners acting essentially as prosecutor.

If I should be found not guilty as a result of my trial on the charges preferred against me the position which you would be in would not be enviable. I am asked under these

circumstances to submit to such a trial and before one who has, in effect, acted as prosecutor, who makes the charges and is now to try them. I am advised by counsel that, in the event of my conviction, the only recourse which I would have would be by certiorari from the Supreme Court and that in the event the Supreme Court should set aside a conviction, you would have the right to appeal to the Court of Errors and Appeals and that I could not expect a final determination for a year. My term of office expires in May, 1937. I am also advised by my counsel that, if it be true, as the Press has stated, that there are some sixty witnesses to be produced for the prosecution, the record will be enormous and that the cost of proceedings to review a determination at a minimum would be from \$2,500 to \$5,000. That cost is prohibitive to me.

Under the circumstances I will not submit to a trial which in my judgment would only be a "farce." I am not guilty of any one of the charges made against me and the offer which was made by my counsel in the letters of December 17th and December 19th is repeated, and I say that I am willing and anxious to appear at any public investigation at which I can be represented and to permit the Banks to produce all my accounts and those of Mrs. Kirby, if we be permitted to testify with respect thereto and I repeat the suggestion made by my counsel in his letter of December 19th, 1935 to Mr. Boettner that a fairer method of investigation would have been through the medium of an unprejudiced Supreme Court Commissioner appointed by a justice of the Supreme Court.

For the reason hereinabove stated, and for not other reason, I hereby resign my office or position of President and a member of the Board of Assessment and Revision of Taxes of The City of Newark, this resignation

to take effect immediately upon the delivery hereof to Mr. Minisi, Director of that Department.

Respectfully,
Alfred L. Kirby.

Ordered filed.

Commissioner Minisi offered the following resolution:

WHEREAS, Alfred L. Kirby, member of the Board of Assessment and Revision of Taxes of the City of Newark did this day, to wit, February 5th, 1936, tender his resignation in writing to Director A. F. Minisi, Director of the Department of Revenue and Finance of the City of Newark, effective immediately.

NOW, THEREFORE, BE IT RESOLVED By the Board of Commissioners of the City of Newark, that the said resignation of the said Alfred L. Kirby, from his office as member of the Board of Assessment and Revision of Taxes of the City of Newark, be and the same is hereby accepted to take effect immediately upon the signing of this resolution, and its adoption.

Pearce R. Franklin

The roll being called, the resolution was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Mayor Ellenstein.

Commissioner Minisi: Mr. Mayor, I would like to make a statement, because part of the letter of resignation practically questions my integrity as the judging authority had this trial been held. Mr. Kirby has stated that this trial would have been a farce. Now, I want to announce to the citi-

zens and the people who are gathered in this hall today that rumors had come to me over a period of several days that Mr. Kirby and his friends were making statements to the effect that this trial was going to be cut and dried, and that Mr. Kirby was going to be found guilty in advance. Now, having received those rumors, yesterday I communicated with the Law Department and I asked them if they could find some law under which I could call in either the four editors of the four large papers, the Sunday Call, Newark Evening News, Star-Eagle and the Ledger, or any four or five prominent business or professional men who would be acceptable to Mr. Kirby and his attorney, and have them sit with me either as co-judges or as a jury, and that I would be absolutely bound by whatever verdict they would advise me to render.

And the Law Department advised me yesterday that that was an impossibility, and if that course were to be adopted, regardless of the most convincing testimony which could be submitted against Mr. Kirby, there would be substantial ground for an appeal on legal technicalities. Now, I want the record to show this. The trial was not to be made a farce. And I want to announce now that at no time did either Mr. Kirby or his attorney make a demand on me to have the trial held in any other place than the place designated. And I selected my office, which is a very large roomy place which will accommodate at least two hundred people, and I selected that place because Director Parnell himself tried another member of this very same board and held the hearing in that office. And at that time he thought it was fit to hold the hearing there. And I simply followed the precedent created by Director Parnell, whom we all know is Mr. Kirby's champion.

Commissioner Franklin offered the following resolution:

WHEREAS, On an appeal to the Board of Adjustment from the ruling of the Zoning Enforcement Officer the said Board, after having considered the same, recommended in writing to the Board of Commissioners of the City of Newark that the following structure or use be allowed:

Application of Jack Magro (Mary Magro, owner) for the conversion of a private garage to a poultry market; premises 343 Third Avenue;

AND the matter having been considered by this Board;

IT IS RESOLVED, By the Board of Commissioners of the City of Newark, that said recommendations of the Board of Adjustment be and the same are hereby approved.

Mr. Frank W. Long, 43 Lincoln Park, representing the Pioneer Building and Loan Association, appeared and opposed the application and presented a petition containing twenty-three signatures protesting against the change.

Mr. Farkas, representing the applicant: Mr. Ernest Wille, 5 Montrose Street, Orange, representing the Liberty Square Building and Loan Ass'n; Mr. DiMonosi; and Mr. Frank J. Holder, 148 Pomona Avenue, President, U. S. B. E. Building and Loan Association, and a petition containing the names of 15 property owners was presented favoring the application.

Mayor Ellenstein: I will entertain a motion that the application be denied.

Commissioner Duffy: I so move you.

Commissioner Minisi: I second the motion.

The roll being called, the motion

was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Mayor Ellenstein.

Mayor Ellenstein: The next meeting of the Board of Commissioners,

because of the Holiday on next Wednesday, will be on Thursday, February 13th, a week from tomorrow, and the conference will be at eleven o'clock on that day in the Mayor's Office.

Mayor Ellenstein offered the following resolution:

BE IT RESOLVED By the Board of Commissioners of The City of Newark, that it formally express its disapproval of Senate Bill No. 65, now pending before the present session of the New Jersey Legislature, on the broad ground that the administration, regulation and control of taxicabs would be better served by existing municipal agencies rather than by transferring such administration, regulation and control to a State agency, such as the Public Utilities Commission.

MINUTES OF MEETINGS OF THE Board of Commissioners

March, 1936

Newark, N. J., March 4, 1936.

A regular meeting of the Board of Commissioners of the City of Newark, N. J., was held on the above date, in the Commissioners' Chamber, City Hall, Newark, at 12 o'clock noon.

Present: Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

The minutes of meeting of February 26th were read and approved.

The City Clerk presented An Ordinance respecting the salaries or compensation of officers and employees of and persons holding an office or position under the government of The City of Newark, New Jersey, and stated that today was the time fixed for hearing on the same.

The Board then entered upon said hearing.

Mayor Ellenstein: Is there any person who desires to be heard on this

ordinance? This ordinance continues the pay cuts to June 30, 1936.

Mr. Meyer Zemel: Mr. Mayor and Commissioners, I am vitally interested in the restoration of the pay cuts to the city employees. If all the City employes adhered to the regulations as laid down by Director Duffy in the departments that he has charge of, where they are compelled rigidly to live within the corporate limits of the City of Newark, I would fully agree with this Commission to restore the pay cuts.

Mayor Ellenstein: Now, wait a minute, Mr. Zemel. This ordinance is to continue the salary cuts until June 30, 1936. Now, are you in favor of continuing the salary cuts to June 30, 1936, or are you opposed?

Mr. Zemel: Oh, is there another ordinance, a companion ordinance to this?

Mayor Ellenstein: Yes, there is another ordinance. Is there any other

person who desires to be heard on this ordinance?

Mr. R. A. K. Steigert: Mr. Mayor and Commissioners, on behalf of the Newark Taxpayers Association, I wish to state most emphatically that even though the pay cuts proposed to be rescinded amount to only a relatively small proportion of the total budget which is proposed for this year, nevertheless, considering the picture as a whole, we feel very strongly that the City's financial structure does not permit of even such a small increase in the tax rate.

Mayor Ellenstein: You probably did not hear me tell Mr. Zemel that this ordinance now before the Commission is an ordinance continuing the salary cuts until June 30, 1936. This ordinance continues the salary cuts until June 30, 1936. Then there is another ordinance. When that is presented it will give you the opportunity to talk on that. But you see, the ordinance now before the Commission continues salary cuts, and I assume from what you began to say you are in favor of continuing salary cuts, your group.

Mr. Steigert: Positively, by all means.

Mayor Ellenstein: So if you want to talk on continuing salary cuts to June 30, 1936, all right.

Mr. Steigert: As long as the ordinance reads to that effect, we certainly are in favor of being continued, and I hope you will continue them even after June 30, provided that the City's financial structure has not materially changed for the better by then.

Mayor Ellenstein: Is there any other person who desires to be heard on this ordinance?

Mr. Edward E. Barker, 61 Seymour

Avenue: Am I in order, Mr. Mayor, if I speak in opposition to this ordinance on behalf of the people whom I consider to be the most poorly paid employes of the City of Newark?

Mayor Ellenstein: No, you are not. However, this relates to the first six months of this year, Mr. Barker. This ordinance simply continues the salary cuts from January 1 of this year to June 30, 1936.

Mr. Barker: By opposing this ordinance I can get across my contention, that these women ought to receive a pay commensurate with the amount of work they do.

Mayor Ellenstein: Then that would have to relate back to January 1 of this year. And I would assume you are in favor of not only restoring the salary cuts from July 1, but also in favor of restoring the salary cuts from January 1 of this year.

Mr. Barker: If your Honor please, I do not want to prejudice the chances of these women to receive an increased salary after July 1.

Mayor Ellenstein: I think, then, if that is true, then I think you ought to reserve what you intend to say until such time as the other ordinance comes up for hearing.

Mr. Barker: That will be up for hearing today?

Mayor Ellenstein: It is up for hearing today. Whether it will be heard today or not is something for the Commission to decide. Is there any other person who desires to be heard?

WHEREAS, on March 3rd, 1936, the North Jersey District Water Supply Commission adopted a resolution to the following effect:

"WHEREAS, the work of constructing the Wanaque Water-Supply system is practically completed; and

"WHEREAS, though matters of acquisition of water and other property rights and diversion rights are still in negotiation and will require further expenditures of moneys, yet estimates indicate that, upon final settlement of capital accounts, a substantial sum may remain to be refunded to the participating municipalities; and

"WHEREAS, in the present condition of extraordinary demands upon municipal funds, it has been suggested

it would be of advantage to the City of Newark if, in advance of final settlement of capital accounts, a refund of \$181,184.69, representing 60% of the balance remaining in the capital account of the City of Newark, to such participating municipality was effected; and

"WHEREAS, this Commission realizes the advantage of compliance with such suggestion and is willing and ready to effect such refund, provided that it was formally requested so to do by the City of Newark and assured by the formal municipal action of the said City of Newark of prompt repayment to the extent of such \$181,184.69, representing said 60%, if the said repayment should become necessary;

"NOW, THEREFORE, BE IT RESOLVED, that upon the receipt of a certified copy of a resolution passed by the City of Newark, requesting this Commission to return the sum of \$181,184.69, representing the aforesaid 60%, to the City of Newark, and agreeing to repay to this Commission, at its request, any part or all of the said sum of money, for capital purposes, repayment to the said City of Newark, in the amount of \$181,184.69, is hereby authorized."

AND WHEREAS, in the judgment of the Board of Commissioners, it will be to the advantage of the City of Newark to request the making of the proposed refund and to accept the same on the conditions set forth in such resolution.

THEREFORE, BE IT RESOLVED, that the Board of Commissioners of The City of Newark do and hereby does, request the North Jersey District Water Supply Commission to return and pay to the City of Newark the sum of One Hundred and Eighty-One Thousand, One Hundred and Eighty-Four Dollars and Sixty-Nine

Cents (\$181,184.69), representing the aforesaid sixty percent (60%) of the balance remaining in the capital account of the City of Newark, as such participating municipality; and

BE IT FURTHER RESOLVED, that The City of Newark do and hereby does promise and undertake to repay to the said North Jersey District Water Supply Commission, at its request, any part or all of said sum of Eighty-One Thousand, One Hundred and Eighty-Four Dollars and Sixty-Nine Cents (\$181,184.69) for capital purposes under the contracts between said Commission and The City of Newark.

The roll being called, the resolution was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

Commissioner Parnell presented a bill of John A. Matthews for services in Public Service and Telephone cases.

Commissioner Parnell: Mr. Mayor, the Honorable John A. Matthews has asked me to present his bill. He was retained by the City of Newark in connection with the tax appeals by the Public Service and Telephone Company and the insurance companies, and he succeeded in sustaining ratables in excess of fifty millions of dollars, bringing in revenue to the City of Newark something like a million and a half dollars. And he has presented his bill, and I would like to hand it to the clerk and move that payment be authorized.

Mayor Ellenstein: I will entertain

a motion that it be referred to conference. The amount of the bill is a substantial amount, and I think it ought to be referred to conference.

Commissioner Minisi: I want to say a word on it. I have gone into this matter very thoroughly. I have had occasion to call upon Mr. Matthews because of the appeals of the insurance companies which are now pending before the State Tax Board, and while I feel that you gentlemen should go into the matter at the conference, I want to announce now that I am ready to vote for it, because I have gone into the matter very thoroughly. I have a complete report here by Mr. Matthews, which shows—

Mayor Ellenstein: My recollection is there was no authorization of Mr. Matthews to defend the appeals of the insurance companies.

Commissioner Minisi: Well, that is a matter which should be discussed at a conference. I am perfectly willing to have it.

Mayor Ellenstein: This bill embraces all the services that Mr. Matthews gave, both in the Public Service and the telephone company matters as well as the insurance company matters.

Commissioner Minisi: That is right

Mayor Ellenstein: Now, there is no authority by which Mr. Matthews represented the City in these insurance company cases, and under the law the only way he could possibly obtain a fee is through authorization by resolution.

Commissioner Minisi: Or by ratification.

Mayor Ellenstein: Well, that is tantamount to an authorization by resolution.

Commissioner Minisi: I am willing to have it come up at conference when the matter will be discussed in full.

Commissioner Franklin: I move it be referred to conference.

Commissioner Duffy: I second the motion.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Mayor Ellenstein.

Nays: Commissioner Parnell.

M. C. ELLENSTEIN
MICHAEL P. DUFFY
REGINALD PARNELL
PEARCE R. FRANKLIN

The Board of Commissioners of
The City of Newark, N. J.

H. S. REICHENSTEIN
City Clerk.

Newark, N. J., March 18, 1936.

A regular meeting of the Board of Commissioners of the City of Newark N. J., was held on the above date, in the Commissioners' Chamber, City Hall, Newark, on the above date, at twelve o'clock noon.

Present: Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

The minutes of meeting of March 11th were read and approved.

Mayor Ellenstein: We will now proceed with the public hearing on the budget, after which the Commission will retire to the Mayor's Office and continue the conference.

Now, all those who want to speak on the Budget will kindly register with the City Clerk so we can determine approximately how many there are present who desire to be heard. Obviously, it will be necessary to limit the speakers in accordance with the number that desire to be heard.

I want to announce that there are 71 persons who have registered and desire to speak on the Budget. Obviously, if the City Commission is going to hear the seventy-one who desire to speak on the Budget, it will be necessary to limit each one and apportion the time accordingly. So that it appears to me that limiting a person who desires to speak to ten minutes would be sufficiently ample for him to present his views to the City Commission. So it will be necessary

to enforce that rule. That in itself will take eight or nine hours, at least. So the speakers will kindly adhere to that rule and limit their remarks to ten minute duration.

The City Clerk: Mr. Mayor, at the outset: I have received in the mails in the period of the past ten days, a number of communications. There are 2,206 of them, 2,205 of them all refer to the pay restorations in the Budget and are for them. One, who wished their communication read, is opposed to it. That communication is from the Passaic Building & Loan Association, and the signator to it is L. G. Holzworth, Secretary to that organization.

(The Clerk then read a communication from the Passaic Building & Loan Association.)

The City Clerk: Now, of the 2,205 remaining communications, 223 are from industries and businesses. Of those, there are some 125 of them that ask that their communications be read. And I would like at this time to say they are on file and read the names of the people who signed them, if that meets with the approval of the Board of Commissioners. Because to read all of those communications would take a long time.

Mayor Ellenstein: You say you have two thousand names to be read?

The City Clerk: 223 industries in the City, and 125 of them ask that their communications be read: I would just like to read the names of

the people who sent them and let the letters go into the record.

(The City Clerk read the list of names.)

The City Clerk: There are companies that ask their names be read. There are besides those some hundred other business institutions that did not require their names be read.

There are 1,551 taxpayers' letters on file here in the office, and many telegrams.

There is a communication from the Chancellor Avenue Parent-Teachers Association over the signature of its secretary and its president, with resolution which reads as follows:

(The City Clerk then read the resolution.)

And a communication over the signature of the president of the Maple Avenue School Parent-Teachers Association.

(The City Clerk read this communication.)

That is all the the communications, Mr. Mayor. We have now a list of people who want to speak.

Mayor Ellenstein: If there is no objection, these communications will be made a matter of record in conjunction with the hearing.

The City Clerk: There is just one against. Do you want me to rotate these, Mr. Mayor?

Mayor Ellenstein: In the order in which they were submitted to you.

Mr. Arthur F. Egner requested that the Newark Museum Association be given \$125,000 in this year's budget.

Mr. Max Werner spoke in favor of

reducing the amount of interest paid on City bonds.

Mr. Meyer Zemel stated he was in favor of restoration of the pay cuts but only on condition that all employees of the city be compelled to reside within the corporate limits of the City of Newark.

Mr. Edward E. Barker, 61 Seymour Avenue, spoke in favor of restoring the cleaning women in the Department of Parks and Public Property to full time and full pay.

Mayor Ellenstein: Just a moment. Now, as far as I am personally concerned, I am entirely in sympathy with any human being that earns the meagre wage you describe. But I want to call your attention to the fact that I have 125 laborers in my department who were, up to recently, earning \$12.40 a week, because they worked two and one-half days on a stagger system. And they are presently earning \$15.20 a week, and they are the heads of families.

Now, in my private business, if I could not pay a man, a human being, more than \$15 a week, I would do the work myself. But a man in public office is not free to do what he would like to do, and he is restrained from the sentiments that move him to do the proper thing toward every individual.

I want to impress you with this fact: the City Commission turned Director Parnell's recommendation down, not because they did not want these women to have more money, and not because they did not want them to have a fair living wage, but because the increases in the budget in other departments were only between five and eight per cent., whereas Director Parnell asked an increase of twenty per cent in his budget.

Now, on the one hand we have people who want more money. I have it daily, many times a day. I can show you people in my department who have been employed by the City for fifteen or sixteen years, earning \$1,500 or \$1,600 a year, without having received a raise.

Now, it is unfair for the City or anybody else to take up a man's life without having an increase in wages. We have conditions in each one of our departments—I know I have them in mine, and I know Director Franklin, from the experience I have had in his department, has people who receive a very low wage.

But on the one hand you have your taxpayers who want a reduction in taxes, and on the other hand you have the City employees who want more money, a living wage, and we are in sympathy with each one. But those are the problems the City Commissioners have. This is not only a problem in the Department of Parks and Public Property.

And these 125 laborers I speak about in the Street Cleaning Department were up to the number of 250 not more than five years ago. The streets are not as clean as we would like to have them. And there are now engaged 100 men extra for approximately two weeks to flush the streets, as a result of the severe snow storm. We would like to have more men on and have cleaner streets, and we would like to give them more money. But where are we going to get it from? We cannot burden the taxpayers.

Mr. Barker: Mr. Mayor, I would like to suggest that the taxpayers here, while they want economy, as I said before, do not want economy at the price of these sweatshop conditions, and I think they will bear me out on that fact.

And I say further, there have been expenditures made in this City within the past few months which would have, had it been turned over to these women to give them a decent share of the high expenses, and spent the money, for all we know, for a manner which may be or may have political reasons.

Mayor Ellenstein: Now, just a moment. Now, you do not need to come here and by innuendo make references. If you want to make any pointed references, do so, and have courage enough to do it.

Mr. Barker: I have courage enough, Mr. Mayor.

Mayor Ellenstein: So as to give me an opportunity to reply.

Commissioner Minisi: Mr. Mayor, inasmuch as I operated that department, I think I ought to say a few words. In the first place, the plan which was put into operation, if you don't know I am going to tell you now, was not a plan developed by me. The plan was prepared and recommended by the Citizens Advisory Finance Committee, which all the citizens of this city feel is a high-minded patriotic group of American citizens, who are working for the city with no compensation. Now, have you figured how much would be involved to put these women on full time?

Mr. Barker: I have. I have given the figures to the Mayor.

Commissioner Minisi: How much?

Mayor Ellenstein: You said \$7,864.

Commissioner Minisi: Now, let me show you something. There has been put in the Department of Parks and Public Property this year an additional \$56,000. And restoration of pay cuts will consume only \$19,000

of that amount. There remains approximately \$37,000, which is more than enough to put all these women back on full time if the desire is sincere.

Mr. Barker: The desire on whose part? Mr. Minisi, I understand that these appropriations have been made or made in a particular manner for particular phases of the department, and that the appropriation which is made for the personnel in that Department of Commissioner Parnell is such as to preclude any possibility of giving to them a restoration of the full time basis. That is, it provides they can be put back, given pay cuts back, but not be put back on a full time basis.

Mayor Ellenstein: Director Minisi says they can be put back on a full time basis. The total increase to the Department is \$56,296.

Commissioner Minisi: And the restoration will consume about \$19,000.

Mayor Ellenstein: About \$19,000. Deduct that from \$56,000 and you have \$37,000.

Mr. Barker: Not according to the arrangement of the budget as City Auditor Brady—

Mayor Ellenstein: Here is the budget. The budget is more authentic than the source you received it from. The appropriation for Parks and Public Property last year was \$562,962, and this year it is \$619,258, an increase of \$56,296. Salary restoration would amount to \$19,000 for that Department. Deducting that from the \$56,000 leaves a balance of \$37,000.

Mr. Barker: That provision, you say, is made for \$19,000?

Mayor Ellenstein: Yes, \$37,000. Now, the figures you gave me amount

to, in round figures, twenty-three thousand, is that right?

Mr. Barker: That is right.

Mayor Ellenstein: You gave me \$7,-864 from April 1 to July 1, and then from July 1 to the end of the year \$17,737. That in round figures is \$23,000. So there is ample in the \$37,000, and \$14,000 more. So it is not the will of this Commission that these women should not be placed on full time. In fact, this Commission wants them placed on full time, but because one of the Commissioners makes a demand of the Commission for an increase in his budget of twenty per cent. whereas the other commissioners are getting along with increases of five to eight per cent., that does not say we should of necessity grant that request of twenty per cent., does it?

Mr. Barker: The conditions which you cite as existing in other departments, may have been conditions in the past tense—

Mayor Ellenstein: You are here in the interest of these women?

Commissioner Minisi: I want to tell him that in my present department I have girl stenographers working for \$600 a year today. That is \$12 a week.

A Voice: They haven't got families to run, Commissioner.

Commissioner Minisi: We must all realize that we have many, many people working in the City of Newark, young boys and young girls, who are probably one of six or seven children, working for ten or twelve dollars a week, and they are the sole support of the family. You have got families where the fathers are out of work, brothers and sisters are out of work, and you have got one member of the

family working. And I know in this group I have mentioned there are three or four—there are six all told—three or four represent the only wage earner in the family.

Mr. Barker: Commissioner, may I ask a question?

Commissioner Minisi: So that the girl is supporting a family just as much as any father or mother.

Mr. Barker: Why, Mr. Commissioner, did you attempt to justify this low wage, and then attempt to accuse another Commissioner of being responsible for it? You are seeking to justify a wage for which you say you are not—you have a certain amount of responsibility. In my estimation this Commission could make proper appropriation for these women and not in any way incur the antagonism of the taxpayers.

Mayor Ellenstein: Mr. Barker, you are here in the interest of these women to see that they receive full time employment, is that right?

Mr. Barker: That is right.

Mayor Ellenstein: You said that full time employment would be \$23,000, and there is \$37,000 in Director Parnell's budget. Certainly 23 goes into 37, doesn't it?

Mr. Barker: That is quite right.

Mayor Ellenstein: So your quarrel is not with this Commission, but with Director Parnell.

Commissioner Parnell: Now, Mr. Mayor, this happens to be in my department, and I might be permitted to say a word or two about it. I have been very interested in your discussion of it, and my predecessor's discussion of it—

(Cries of "Louder.")

Commissioner Parnell: Since this is a matter that comes within the Department of Parks and Public Property, and I happen to be the Director of it now, I would like to be permitted to say a word or two about it. In the first place, when this deduction was made upon the recommendation of the Citizens Advisory Finance Committee and those poor souls were cut twenty per cent., I never took the word of the Citizens Advisory Finance Committee then because it came from the Citizens Advisory Finance Committee. These gentlemen are very illustrious gentlemen, and I always observed that they were receiving high salaries, and I always reserved the right to exercise my own intelligence and tell them whether I liked their advice or whether I did not like their advice. And if they came to me and told me to cut down a lot of poor souls to \$11 a week, I would say, "Charity begins at home. Suppose you cut your own salary first."

I point to Mr. Banker. I say, Mr. Banker, you are getting \$35,000 a year, you are getting \$75,000 a year, you are getting \$25,000 a year. Who are you to come and tell me to put a lot of American citizens on \$11.64 a week?" And then I would tell them where they could go.

A Voice: How about the twenty-two hundred tax assessors?

Commissioner Parnell: If the budget of the Department of Parks and Public Property shows an increase of twenty per cent.—and the budget was not prepared by me, it was prepared by the Budget Director because I had been busy at other things, and I asked him to prepare it for me,—it is because a twenty per cent. increase is needed to put people on a decent living wage where they can maintain their own self respect.

Now, as far as there being \$37,000 in my budget at the present time without putting these folk back at \$22 a week, it is because as of July 1 the whole department is to go back on full pay, and that applies to every department, every department under every director, and that is merely to take care of the full salary restoration as of July 1. That is a matter to be determined here today.

But that is entirely outside this question. This is merely of giving these folks in this city \$22 or \$23.28 a week, and allow the laborers in the Shade Tree Division to get \$14 a week—no, not to give them \$14 a week, it is to put them at \$22 a week, and also to put the assistants at about \$22 a week.

Now, that will mean an increase in my budget of \$51,889.85.

And I am going to make the motion now, with your permission, that I be allowed to carry in my budget this year an added \$51,889.85 so that these people can at least get \$22 to \$23 a week.

A Voice: Who is going to pay for it?

Commissioner Minisi: Mr. Mayor, the words which Director Parnell just uttered are not consistent with a letter which he wrote to all the newspapers just a few weeks ago, when he praised this Citizens Advisory Finance Committee to the skies, when he called them all the fine names that he could think of, and then he wound up by saying he was the only Commissioner in Newark who thought enough of these gentlemen to call them in and co-operate with them; and accused every other department of shutting the doors in the faces of those fine, eminent citizens who were interested in the City of Newark.

Mayor Ellenstein: Will the officers

please remove anybody that they detect booing.

We will have order here, ladies and gentlemen. And if we cannot conduct ourselves that way, this is no place for anyone who thinks so little of the dignity of the City of Newark as to create chaos here.

Commissioner Minisi: Now, I want to finish my statement. When Director Parnell—

A Voice: Where is the \$3,000,000? What did you do with the \$3,000,000?

Mayor Ellenstein: You will have an opportunity to speak.

Commissioner Minisi: I just want to conclude my statement, Mr. Mayor. When Director Parnell is with the Citizens Advisory Finance Committee or when he is talking to them, he is for the Citizens Advisory Finance Committee and against the people. And when he is in the presence of the people he criticizes the Citizens Advisory Finance Committee. Now, let us know what he thinks of this Committee once and for all.

Commissioner Parnell: Just a minute. Let me tell you once and for all times that I never let the Citizens Advisory Finance Committee take over my job, and I never surrendered my brains to them. I thought in many matters they were well advised, and I thought they gave me good advice and good judgement on many matters. But had I been sitting in your chair, sir, I would not think they gave me good advice when they made me put a lot of poor devils on \$11.26 a week.

Mayor Ellenstein: Just a moment, Please.

Commissioner Duffy: Mr. Barker, you referred to the Sheriff of Essex County complaining about the san-

itary conditions in police headquarters?

Mr. Barker: That is right.

Commissioner Duffy: You know that the Chief of Police and the Director of Public Safety are only charged with the sanitary conditions of the cell block.

Mr. Barker: Do you understand me that what I said I was criticising your department?

Commissioner Duffy: But you referred to headquarters.

Mr. Barker: That is right.

Commissioner Duffy: That is under the supervision of the Director of Parks and Public Property, so far as cleaners are concerned.

And let me say this to you, Mr. Barker, and citizens of Newark, that shortly after the induction of this Commission I had presented to me at a meeting,—not in conference, mind you,—a resolution reducing the cleaners of Newark practically in half, and I refused to sign that resolution. And that resolution had the signature of Director Parnell upon it. I am perfectly willing to pay these people what they had received prior to the induction of this Commission. I will go along with the cleaners and others for full restoration of pay cuts.

Mayor Ellenstein: Yes, and now that my recollections are refreshed, I think it is only fair that I tell these people here that it is true that Director Parnell's name was on the resolution cutting down the time and salaries of these cleaners, and I also refused to sign that resolution at that time.

Now, it is about time that the people of Newark learned the truth, and

it is about time that the people of Newark made a fair analysis of every person and not be carried away by a fine, glib tongue.

There isn't any question about this, that there is \$37,000 in the budget, and you, by your own figures, show it would only amount to \$23,000 to give these poor women full time. Now, 23 can be taken out of 37.

Now, Director Parnell may talk for hours and by his happy faculty of distorting things may attempt to convince those, particularly those personal friends of his, that he has seen fit to bring down here today; but, however, you, as an intelligent man, and any other person who is a fair minded individual, realizes that 23 can be taken out of 37.

Commissioner Parnell: Mr. Barker, before you speak, just so we will have the record straight and just so the Mayor will know, and so that everybody here knows, that anything that Director Parnell signs he stands behind.

And if Director Parnell makes mistakes he is man enough to admit he has made mistakes, and he will make many more mistakes; and when we do an injustice or if we are a party to a wrong, then if we are the right kind of men we will try to right that wrong at the earliest opportunity.

Now, I recall very well the resolution that was introduced here, and it was introduced by Director Minisi, who was head of that department, and I took it upon Director Minisi's say so. I did not know all the ins and outs of the Department of Parks and Public Property: I was busy with the finances of the City of Newark. But now that I am charged with the duties of that department, and now that I have had a chance to inquire and look into the situation, I am here this

morning, and if I made a mistake I am happy to be able to right it.

As far as there being \$37,000 in the budget, you know very well that \$37,000 is in the budget to take care of the full salary restoration from July 1. But that has nothing whatever to do with giving these women two extra weeks each month, letting them work four weeks instead of two in the month so they can get their \$22 a week.

Now, so that there won't be any misunderstanding, there is an increase of \$56,296 in the budget over that of last year, of which \$19,000 takes care of the full salary restoration, leaving a balance of \$37,000. Now, that is clear to you, isn't it, Mr. Barker?

Mr. Barker: As far as you go, yes.

Mayor Ellenstein: And you said by your own statement that it would require \$23,000 to put these women back on full time, is that right, beginning April 1?

Mayor Ellenstein: So that is a balance of \$37,000. All it requires is \$23,000 for the rest of the year. There are ample funds in the budget to take care of those women. Isn't that clear?

Mr. Barker: Practically as clear as what Director Parnell said.

Mayor Ellenstein: As clear as that; both statements are clear.

Mr. Barker: Yes, as far as you go. I have taken Director Parnell's statement as being a complete exposition of the situation.

Mayor Ellenstein: You do not refute the statement that there is \$56,000 more in the budget this year than there was last.

Mr Barker Correct.

Mayor Ellenstein You do not refute the statement that \$19,000 is all that would be required to restore the salaries of all those in the Department of Parks and Public Property.

Mr. Barker: As far as general pay cuts are concerned.

Mayor Ellenstein: All the pay cuts, general pay cuts.

Mr. Barker: Not the pay cuts of the stagger system but because of the general program.

Mayor Ellenstein: Yes. \$19,000. You take the \$19,000 from \$56,000, that is \$37,000, is it not?

Mr. Barker: That is right.

Mayor Ellenstein: Now, you said, according to your own statement, that from April 1 to the end of the year it would require \$23,000 to put these women back on full time, is that right?

Mr. Barker: That is right.

Mayor Ellenstein: Now, if you have a \$37,000 balance, certainly you can get the \$23,000 out of \$37,000, can't you? Is there any fallacy in any of those statements?

Mr. Barker: The only thing, that they are not complete.

Commissioner Minisi: So that the record will be complete, I do not want these women to feel I am opposed to their restoration. I am for it. That is what I voted for the inclusion of that \$56,000. Now, if there are any errors have been made, I am willing to go this far; if our acting budget director Mr. Brady can sit down with us and figure this amount accurately, and if any more money is necessary for that item and not for items that are unnecessary, I will vote for an

additional expenditure, I will vote for and additional appropriation.

But I am not going to vote to include money which is not going to be appropriated exclusively for this account.

I ran that department almost three years, and there is sufficient money there to run it efficiently and have it function properly. And the only item I am willing to vote for, if it is necessary, is the salary item to put these women back on full time. And you have got more money now in the budget than you need.

Mr. Barker: Then you gentlemen agree these women are entitled to relief?

Mayor Ellenstein: It is in there for that.

Commissioner Minisi: There is no dispute.

Mayor Ellenstein: It is in there for that.

Mr. Barker: That is a matter of accounting with which I cannot figure now. However, if I am able to get what I am here for, the return to these women of full time, then I am satisfied I have accomplished what I came for.

Mayor Ellenstein: If the amount is inadequate it will be supplied.

Mr. Barker: That is what I want you to say, Mr. Mayor. We have met.

Commissioner Minisi: You have it there now. Far more than enough.

Mr. Barker: Thank you.

Commissioner Parnell: Now, just so that the record will be clear, it is my understanding that the Budget Di-

rector, Mr. Brady, will be permitted to prepare a budget for the Department of Parks and Public Property, and that he will be authorized to put in it an adequate amount to take care of the proper operation of the Department of Parks and Public Property.

Mayor Ellenstein: Proper operation.

Commissioner Parnell: Well, without my interference. I do not wish to interfere with it in any way. He can have full rein, full charge. He has been here forty-three years and understands it fully. With the distinct understanding, however, that these folks shall be given a living wage, twenty-two to twenty-three dollars a week, is that clear?

Mayor Ellenstein: And Mr. Barker said that he appeared in behalf of these women who were on half time, and that all he was concerned with was these women being given full time. It is my understanding now that if there is not sufficient in the budget so that these women receive full time, that a sufficient amount will be supplied so that these women can have full time. Now, that is clear.

Commissioner Parnell: And that we are going to take Mr. Brady's say-so on it.

Mayor Ellenstein I might state that the City Commission had considered the advisability of not restoring the full salary cuts in the upper brackets, and after making a thorough analysis it was found that the difference involved was only \$25,600. In view of the fact that the great preponderance of City employees and those in the educational system are in the lower brackets, the Commissioners felt that full restoration should be made to all employees, and the budget is therefore designed in that manner. Commissioner Franklin: It is really a fifty per cent. reduction for the year.

Mayor Ellenstein: Of course, it is really a fifty per cent. reduction for the year, the restoration to go into effect on July 1.

Commissioner Franklin: I move we adjourn.

Commissioner Duffy I second the motion

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Mayor Ellenstein.

The roll being called, the resolution was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

Commissioner Franklin offered the following resolutions:

WHEREAS, on an appeal to the Board of Adjustment from the ruling of the Zoning Enforcement Officer the said Board, after having considered the same, recommended in writing to the Board of Commissioners of the City of Newark that the following structure or use be allowed:

Application of George T. Ciccone, owner, for the construction of six individual garages; premises 306-310 Fourth Street;

AND the matter having been considered by this Board;

IT IS RESOLVED, By the Board of Commissioners of the City of Newark, that said recommendations of the Board of Adjustment be and the same are hereby approved.

Mayor Ellenstein: Is there any person who desires to be heard in opposition to this application?

Mr. William Umscheid, 281 North Fifth Street: I appear before you to uphold the property of the City and not condemn it. We have a City Railway which we have been urging for the last twenty years, costing this City over \$15,500,000.

Mayor Ellenstein: That is a little high. It is about \$4,000,000 high.

Mr. Umscheid: About \$4,000,000 high? Not \$15,000,000?

Mayor Ellenstein: No.

Mr. Umscheid: I remember the time it was supposed to be \$5,500,000. It is raised up.

Mayor Ellenstein: That is right, but this Commission had no control over that. But you are a little high.

Mr. Umscheid: My sister-in-law owns a piece of property at 292. It has not been rented for the last two and one half years, and here is a gentleman going to put a garage facing the street line, six garages, to the detriment of the surrounding property. There is the beautiful section of the City of Newark right there overlooking that park, a beautiful station, where a gentleman can afford to build nice houses to protect his neighbors' property. He has an old shanty stuck there. Here is a lady has five garages. She had to put her

five garages back 80 feet from the street line.

Mayor Ellenstein: Where are the garages belonging to this lady?

Mrs. G. Banse, 216 Sixth Avenue: At 298-300 Park Street.

Mayor Ellenstein: What are they, private garages?

Mrs. Banse: Yes. There are five individual garages.

Mayor Ellenstein: Individual property owners or tenants in that vicinity garage their cars in these garages that you own?

Mrs. Banse: Yes.

Mayor Ellenstein: They are removed back how far?

Mrs. Banse: We had to move back 80 feet. It is 100 feet deep.

Mayor Ellenstein: How long have you had them there?

Mrs. Banse: About eight or nine years.

Mayor Ellenstein: And was that compulsory that you put those garages back that distance from the street at the time you built them?

Mrs. Banse: Yes. They were not even going to allow us to build any garages at all. We had a very hard time getting them, and they said it was against the building zone to have them, they were not going to let people put up garages there. We were almost a year trying to get them, but we had to follow the building zone.

(Discussion between Mayor Ellenstein and Mr. Rankin).

Mayor Ellenstein: Are your garages rented?

Mrs. Banse: They are at present, but I have had an awful time renting them and I am having an awful lot of trouble with people getting free parking, and I have to pay a permit to have my garages there. People are using my driveway and using my premises and they are driving over the next party to me. Mennen's own that property at 300 and 302, and there are five cars parked alongside of the house from the driveway, and these people are all using my property and driveway to turn around in.

Mayor Ellenstein: Well, they cannot use your property. If you will communicate with the police in your precinct.

Mrs. Banse: I have had them. I called them up, and they do it anyway. I have had so much trouble with them, they do not seem to obey the law.

Mayor Ellenstein: I am sure if you communicate with Director Duffy he will not countenance anybody using your property to park their cars.

Mrs. Banse: Well, they have been. I have called up the police, I have called up the Second Precinct they were using my property and using my driveway to park there. I have even been down to your office once before, Commissioner Duffy.

Commissioner Duffy: And they did not remedy conditions?

Mrs. Banse: They did for a little while, and they would do the same thing over again.

Commissioner Duffy: Well, I will take care of that for you.

Mayor Ellenstein: Having these private garages in that vicinity, wouldn't that remedy the situation? Perhaps those people in that locality

haven't a place to park their cars and they park them on lots of others. Don't you think that might remedy it if they were taken off those lots?

Mrs. Banse: I have had garages empty, two and three garages empty, for six and seven months, and it did not remedy it.

Mayor Ellenstein: Don't you think it would remedy it?

Mrs. Banse: Yes, if he builds them on the building zone. But he is going to spoil the view of all those other properties.

Mayor Ellenstein: You do not object to the garages, you object to the manner in which they are going to be constructed and the position?

Mrs. Baanse: Yes, that is all. I have no objection to the garages.

Mayor Ellenstein: Is the applicant here. Is Mr. Ciccone here? You would have no objection if they put them across the rear?

Mrs. Banse: No, if they built them on the line the way we have ours, I have no objection to them at all. We want to be fair with everybody, it is only that they should follow the zone as well as we do.

Mayor Ellenstein: That is right.

Mrs. Banse: I think we are as good citizens as they are.

Mayor Ellenstein: I think that is a very fair assertion for you to make. You do not think that anyone should get any more consideration than you have had?

Mrs. Banse: Why, certainly not. I think the other fellow ought to do the same as we had to do.

Mr. Umscheid: It is one of the most

dangerous places in the City at rush hours. This man wants to build garages on the house line, and a man turning in there, why, there will be a good many accidents there if that street is not made wider than what it is.

Mayor Ellenstein: Supposing the garages were set back just like this lady said, would you have any objection to them.

Mr. Umscheid: Not at all. My petition reads that way.

Mayor Ellenstein: I haven't read your petition. You have no objection to it?

Mr. Umscheid: No sir. Eighty foot from the house line back, I have no objections against that.

Mayor Ellenstein: Is Mr. Ciccone here?

(No response).

Mrs. Banse: May I speak just a minute. This man has rented the place to some ponies. It is disgusting; all the people that go down towards the park or down to the station house, must pass this place with all those ponies and it is terrible. They keep such a messy dirty place.

Mayor Ellenstein: Have you complained to the Bureau of Health?

Mrs. Banse: No, I have not.

Mayor Ellenstein: Couldn't you write a letter to Director Franklin? I am sure he will take care of it. It is very difficult to keep track of conditions all over the City, and if you will write a letter to Director Franklin I am sure he will take care of it.

Commissioner Duffy I move you,

Mr. Mayor, that the application be denied.

Commissioner Franklin: I second the motion.

The Board of Commissioners of

H S REICHENSTEIN
City Clerk

Newark, N. J., April 8, 1936.

A regular meeting of the Board of Commissioners of The City of Newark, N. J., was held on the above date, in the Commissioners' Chamber, City Hall, Newark, at 12 o'clock noon.

Present: Commissioner Duffy,
Franklin, Minisi.

Present: Commissioners Duffy,
Mayor Ellenstein.

Commissioner Minisi, presiding.

The minutes of meeting of April 1st were read and approved.

The City Clerk presented An Ordinance Relating to Taxes for the year 1936, and stated that today was the time fixed for hearing on the same.

The Board then entered upon said hearing.

Acting Mayor Minisi: Does any citizen wish to be heard on the Tax Ordinance?

Mr. Meyer Zemel appeared and objected to the passage of the ordinance in its present form, stating there was about \$800,000.00 of untaxed ratables in the City; \$500,000.00 of personal ratables that the Telephone Company and Public Service does not pay, but instead pay only the 5% gross tax which amounted to \$1,446,000, and that the holding companies escape with \$300,000,000 of tax ratables and urged that property owners be given some relief.

Acting Mayor Minisi stated the City was now in court in two cases which involve at least \$300,000,000

in ratables, that the City places certain interpretations upon the State Laws, but the people the City is endeavoring to tax place an entirely different interpretation on them and that it is now a matter for the courts to determine; and thought the proper course would be to have a powerful group of citizens organize and appear before their Legislative representatives and get relief through the Legislature.

Acting Mayor Minisi: Is there any other Citizen who wishes to be heard?

(No response).

No one else appearing, Commissioner Franklin moved that the hearing be closed.

The Board of Commissioners of

City Clerk.

Newark, N. J., April 15, 1936.

A Special Meeting of the Board of Commissioners of The City of Newark, New Jersey, commemorating the first meeting of the Mayor and Common Council on April 15, 1836, was held on the above date in the Commissioners' Chamber, City Hall, Newark, at 2 P. M.

Present Commissioners Minisi and Franklin; City Clerk Reichenstein. Present representing the Centennial Celebration Committee were: John R. Hardin, Jerome T. Congleton, Henry Young, Frederick Frelinghuysen, John L. O'Toole, Lee Chambliss and Fred Harries.

Commissioner Minisi, presiding.

Acting Mayor Minisi: The meeting will please come to order. We have present a number of distinguished citizens on this occasion marking the opening celebration in connection with our Centennial Celebration, commemorating the One Hundredth Anniversary of the granting of the City Charter on April 15th, 1836. Director Franklin and I are here as members of the City Commission, Mayor Ellenstein being detained at the bedside of Mrs. Ellenstein who was seriously injured in an airplane accident at Uniontown, Pa., and Commissioner Duffy is absent because of illness. At this time I would like to call on Mr. John R. Hardin, Chairman of the Centennial Celebration Committee.

Mr. John R. Hardin: Members of the Commission; some months ago your Honorable Body took notice of the anniversary marking the actual char-

tering of the City of Newark, and subsequently Mayor Ellenstein invited me to appoint and organize a Committee of One Hundred for the purpose of taking charge of the celebration. I complied with his request and the Committee was organized. The actual celebration of the granting of the charter will take place tonight at ceremonies at the Mosque. The Committee has given a great deal of attention to the form of the celebration extending over a period of two months. We did not come down here today with any idea of interfering with your extended activities. We thought since the original Council met and organized at 2 o'clock on April 15, 1836, we would come down and pay our respects to the Commission at this time, representing as you do the governing body under another name, starting off the City in 1836.

The celebration has not taken the form of the larger formalities beginning with the 250th Anniversary some years ago and without going into a large outlay of money on account of the depression for the purpose of the celebration, we contended ourselves with a smaller and equally impressive celebration. During the next two months we expect to portray the various ways the City has progressed in the past. This is not the time to go into details of what happened in 1836, or what happened in the meantime. We are pleased to make our appearance here today with the members of the Commission and felicitate you as present members of the Commission, expressing confidence in the future and continued good fortune that has attended the City in the past.

Acting Mayor Minisi: This is the

opening ceremony of our Centennial Celebration. The citizens who follow the events will find a program which will interest various groups all over the City and various organizations are preparing programs which should make a particular appeal to various sections of our City. We are proud of our City and satisfied with the great past this City has enjoyed and have confidence in its future. We are happy to have you here and are encouraged by the large number of citizens who have turned out to attend this ceremony. We expect to reproduce in the Council Chamber the program which was laid out in 1836 with the participants attired in colonial costumes. If this program has not been as elaborate as the last celebration commemorating the 250th Anniversary of the City, we know it is going to be a very dignified celebration. We are happy about the past and confident about the future. We are all satisfied with the personnel of the Committee. It certainly represents a large percentage of those people that has made Newark what it is today. We are proud of our community and proud of all you gentlemen, and I know the people of our City are going to give their fullest cooperation over the period of two months during which this celebration takes place, so that the work your committee has laid out will not be in vain. At this time I would like to call on Director Franklin to say a few words.

Commissioner Franklin: I extend a welcome to you and admire your very fine efforts in making this celebration a success in commemorating the One Hundredth Anniversary of the granting of the City's Charter. We are with your Committee in all of its undertakings during the entire celebration.

Acting Mayor Minisi: Before your Committee leaves, I think it is fitting and proper to call on former Mayor Congleton to make a few remarks.

Former Mayor Jerome T. Congleton: Mr. Mayor, there is nothing I can add to what Mr. Hardin has said. Those of us who have worked under him and with him to bring about this program are very happy the time has arrived for the commencement of the exercises and enjoyed working with him. I hope as many as can will turn out at the meeting at the Mosque tonight as I think you are going to be well repaid for your trouble in coming.

Acting Mayor Minisi: The Committee has asked me to announce that tomorrow evening at 8 P. M. in this Chamber, the Committee will reproduce the first meeting which was held by the Council in Newark. The meeting will be attended by our well-known citizens, and costumes as used in those days will be worn. I think they are going to reproduce the actual events as they occurred on that day and the characters who will represent our former officials.

Is there any citizen who wishes to say anything?

(No response).

Adjourned.

(No response).

Commissioner Duffy: I move we concur in the recommendation of the Board of Adjustment.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell.

WHEREAS, On an appeal to the Board of Adjustment from the ruling of the Zoning Enforcement Officer the

said Board, after having considered the same, recommended in writing to the Board of Commissioners of the City of Newark that the following structure or use be allowed:

Application of Lewis Roberts, Inc., owner, for the construction of a printing ink factory; premises 72-82 Union Street;

AND the matter having been considered by this Board;

IT IS RESOLVED, By the Board of Commissioners of the City of Newark, that said recommendations of the Board of Adjustment be and the same are hereby approved.

Acting Mayor Minisi: Is there any person who desires to be heard in opposition to this application?

Mr. Patrick Marchesani: I desire to have it postponed for at least a month, because we wish to submit our case in brief form, if that meets with your convenience.

Commissioner Duffy: Why do you make that request?

Acting Mayor Minisi: A representative of the other party is here. While you stated your reasons before the other Commissioners at the conference, in fairness to the attorney for the other side I think you should make your position known here now.

Mr. Marchesani: We are so confident of our side of the case that we want time to present our argument, our facts, in brief form. We feel that we will need at least one month. We are not represented here today by counsel. We will have to get our counsel to do this for us, and I think a month's time is not too much to ask for.

Acting Mayor Minisi: Have you any objection?

Ernest F. Masini, 20 Branford Place: I wouldn't have any objection, except that is unfair to ask for such a long postponement. They have had ample time to present their argument. We had a hearing before the other Board, and counsel, as I understand, was here a few minutes ago. I am surprised that he is not here now. Nevertheless, I don't want the Commissioners to feel that we are trying to deprive our opponent of an opportunity to present any argument in brief form. There would be arguments of course, and perhaps the brief could be outlined. I can't conceive why the adjournment is asked, but I suppose if he asked for two weeks that would give them ample time. We have our structure well in hand. We have our plans, and I feel that an adjournment is going to be an injustice to us, that is, an adjournment of too long a time, but I suppose that the Commissioners will have the final decision on that.

Acting Mayor Minisi: You have no objection to a two weeks adjournment?

Mr. Masini: No, I have no objection to a two weeks adjournment.

Commissioner Duffy: Will that be sufficient?

Mr. Marchesani: No, I don't think it will be sufficient. We will need a month. I was going to ask for six weeks, but I said a month because I feel that all that time will be taken up.

Commissioner Franklin: I think, Mr. Mayor, that it is an injustice to the applicant. Suppose that we grant a two weeks adjournment, at which time, if there is a substantial reason

for a further adjournment it will be granted.

Acting Mayor Minisi: With this proviso; Mr. Marchesani mentions a brief that is going to be prepared, and I assume that he is going to prepare a legal brief on matters governing a thing of this character, and in fairness to the attorney on the other side I think that you should prepare your brief as expeditiously as possible and serve him with a copy so that if, in his judgment, it is necessary to file a reply brief, he will have ample opportunity to prepare it.

Commissioner Franklin: I move that the matter be adjourned for a period of two weeks.

Commissioner Duffy: I second the motion.

BOARD OF ADJUSTMENT
City Hall
Newark, New Jersey

April 1, 1936.

The Board of Commissioners
of the City of Newark.

Honorable Sirs:

At a meeting of the Board of Adjustment held March 18, 1936, resolutions were adopted recommending to your Honorable Board, in accordance with Section 9, Chapter 274, P. L. 1928, that the following application be allowed:

686 Summer Ave., John Castoro, (H. B. Salmon Co., owner); renewal permit for retail ice depot;

It was subsequently discovered that through inadvertance the address of the premises involved was given in the application as 686 Summer Avenue instead of 688 Summer Avenue

which latter is the correct address as shown by the plans accompanying the said application, and the recommendation to your Board was withheld pending the adoption by the Board of Adjustment of a resolution correcting the error. Such a resolution was adopted by the Board of Adjustment at its meeting of April 1st.

The Board of Adjustment,
R. B. Rankin,
Secretary.

Ordered filed.

WHEREAS, On an appeal to the Board of Adjustment from the ruling of the Zoning Enforcement Officer the said Board, after having considered the same, recommended in writing to the Board of Commissioners of the City of Newark that the following structure or use be allowed:

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell.

Acting Mayor Minisi: If there is nothing else I will entertain a motion to adjourn.

Mr. Kurt Odenheim, 42 Dewey Street: On the question of unemployment, there are 55,000 people on the edge of starvation.

Acting Mayor Minisi: We realize what this problem is. You just heard us adopting an ordinance raising \$1,000,000.00 for the purpose of helping the unemployed and those on relief.

We are fully alive to the gravity of this problem, and at the Conference we also went on record to immediately communicate with the Governor, with the Legislature and with the League of Municipalities, which represent all the towns and all the cities in the State of New Jersey, and to insist that some immediate action be taken by the Legislature and by the Governor to solve this problem, and if necessary, the State Legislature must drop everything else. This is the most serious problem which confronts the people of this State today.

We also have a rule, a resolution,

which was adopted in the early days of this Commission that if any citizen wishes to discuss any matters pertinent to City business they must appear before the City Commission at the Conference. The rule has been enforced by Mayor Ellenstein; it was enforced by Director Parnell as Acting Mayor, and I am going to observe the same rule.

Mr. Odenheim: We have on additional proposition, and that is the one we have already made. If you have read the morning paper, there are unemployed in the State House in Trenton. We request the City of Newark to give us transportation to Trenton on Saturday for 200 people, to bring 200 people there, from Newark to the Legislature, so that we can show the Legislature we mean business.

Acting Mayor Minisi: We would like to do that, but every penny that the City spends must be done in conformity with the law. We know of no law that will permit us to disburse sums for that purpose.

Mr. Odenheim: We ask permission for a special tag day.

Acting Mayor Minisi: Suppose you come to the Mayor's Office and we will discuss it.

Commissioner Franklin: I move that the meeting be adjourned.

Commissioner Duffy: I second the motion.

Commissioner Franklin offered the following resolution:

WHEREAS, On an appeal to the Board of Adjustment from the ruling of the Zoning Enforcement Officer the said Board, after having considered the same, recommended in writing to the Board of Commissioners of the City of Newark that the following structure or use be allowed;

Application of George T. Ciccone, owner, for the construction of six individual garages; premises 306-310 Fourth Street; on condition that said garages are constructed along the rear line of the premises;

AND the matter having been considered by this Board;

IT IS RESOLVED, By the Board of Commissioners of the City of Newark, that said recommendations of the Board of Adjustment be and the same are hereby approved.

Mayor Ellenstein: Is there any person who desires to be heard in opposition to this application?

Mr. William Umscheid: We have no objection if these garages are built in the proper place.

Mayor Ellenstein: The application clearly states that they will be in the rear of the lot.

Mr. Umscheid: Why was it reopened?

Mayor Ellenstein: I don't recall just what application he made. It is a courtesy we extend to almost everybody. There was a misunderstanding; the applicant did not know that he had to appear on that day. He will explain it to you. Why weren't you here?

Mr. George T. Ciccone: It was a misunderstanding. I figured that since it passed the Zoning Board, I didn't have to appear before the Commissioners.

Mrs. G. Banse, 216 6th Street: I own the other garages there, 298-300. We had to build our garages to agree with the ordinance. We built them where we were supposed to build them, 80 feet back. This gentleman, I understand, wants to build them at the street line. It is detrimental to the property around there.

Mr. Ciccone: Mr. Umscheid has inferred to the property owners in that section that we intend to build these garages on the front building line. They are set back 40 feet from the front building line. We want that rear wall of the garage to act as a fence. It will benefit both properties. There are five empty lots adjoining.

Mr. Umscheid: Everything he puts there is no benefit to the place. Just look at the fence he has there; look at the shanty he has there. He built a shed that is not supposed to be there, for ponies.

Mrs. Banse: He didn't even get a permit for that.

Mayor Ellenstein: Where is that pony shed?

Mr. Ciccone: That is behind there. That is the twenty-five foot lot. It is between that large garage and the present building.

Mrs. Banse: The people have to pass there; it is terribly filthy dirty place. It is a disgrace to the neighborhood.

Commissioner Minisi: Are you ready to build your garages on the rear?

Mr. Ciccone: All I was trying to do was save as much land as possible and build at the rear of the present build-

ing. It will act as a wall between the empty lots there and our property, on account of the children running in there. Of course, if I can't get it there we will have to put it in the rear. I am trying to save as much as I can on the other fifty feet I have there.

Mayor Ellenstein: I assume you can have it passed if you want to put them against the rear of the property, otherwise you will have to come here again when the whole Board is here. If you want to dispose of it today, if you decide to put the garages against the rear of the lots, you can have it today.

Mr. Ciccone: I think it would be better for me to wait, because if I can get it, it means a whole lot to me.

Mayor Ellenstein: Why don't you try to talk to this lady in the meantime, perhaps you can show her it would be less damaging to her property than it would be for you to put the garages against the rear.

Mr. Ciccone: It would be, but I guess her views would be just a little bit different.

Commissioner Franklin: I move this matter be laid over for two weeks, until the whole Board is present.

Mayor Ellenstein: Did he represent the Good Humor people?

The City Clerk: I don't know?

Mayor Ellenstein: I understand from Mr. Wollmuth that he had withdrawn his objection, as a matter of fact, was going to state he was in favor of the ordinance.

Mr. V. P. Carroll, 671 Frelinghuysen Avenue, representing Good Humor: Would it be possible to wait until Mr. Kane gets here?

recommended the license fee reduced from \$100 to \$50.

Mayor Ellenstein: The report I had from Mr. Wollmuth of the Chamber of Commerce, he had conferred with Mr. Kane, and Mr. Kane thought that while the fee was high, still he would voice no objection to it. Am I right on that?

Mr. Carroll: Yes. I am in favor of the ordinance as it now stands.

Mayor Ellenstein: You are the client of Mr. Kane?

Mr. Carroll: That is right.

Section 5. No part of the cost of said improvements has been or is to be specially assessed against property specially benefited thereby.

Section 6. It is hereby determined and declared that the period of usefulness of the purpose for the financing of which said bonds and notes are to be issued is a period of ten years, computed from the date of said bonds.

Section 7. It is hereby determined and declared that the Supplemental Debt Statement required by said act has been duly made and filed in the office of the City Clerk of said City, and that such statement so filed shows that the bonds and notes authorized by this ordinance will be within all debt limitations prescribed by said act, and that the gross debt as defined in section seven hundred and two of said act is increased by this ordinance by Five Hundred Thousand Dollars (\$500,000).

WHEREAS, on an appeal to the Board of Adjustment from the ruling of the Zoning Enforcement Officer the said Board, after having considered the same, recommended in writing to the Board of Commissioners of the City of Newark that the following structure or use be allowed:

Application of George T. Ciccone, owner, for the construction of six individual garages; premises 306-310 Fourth Street;

City Clerk Reichenstein: Today is the time fixed for the hearing on this application.

Mayor Ellenstein: Director Franklin, Director Minisi and myself are familiar with the argument presented by both sides. Mrs. Banse suppose you very briefly explain to Director Duffy just what your objection is to the garages being in back of the houses on one lot, whereas you don't object if the garages are placed across the three lots.

Mrs. G. Banse and Mr. Wm. Umscheid reiterated their previous objections to the garages being constructed as planned and stated they would have no objections if they were erected across the rear of the lot as she was compelled to do.

Mayor Ellenstein: What is the disposition of the Board?

Commissioner Minisi: Mr. Mayor, looking at this map I see a gasoline station on one corner, an auto laundry next to it, another gas station next to the auto laundry, and a warehouse immediately adjacent to the property to be affected.

Now, Mr. Umscheid's principal objection is to the wall that is to be erected. There is a wall on the property next door, this great, big warehouse. The wall, in my opinion, is a great deal more unsightly than the wall that is going to be erected. This man has assured us that, if he is permitted to put the garages up, instead of leaving the bare blocks and showing ugly connections between the bare blocks, he is going to cover them up with stucco.

Mr. Ciccone Yes, just the same as the front.

Commissioner Minisi: I move that we concur in the recommendation of the Board of Adjustment.

Commissioner Duffy: I second the motion.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Mayor Ellenstein.

The City Clerk presented the application of Lewis Roberts, Inc., owner, for the construction of an addition to a printing ink factory; premises 72-82 Union Street; and stated that today was the time fixed for hearing on the same.

The Board then entered upon said hearing.

Mayor Ellenstein: Is there any person who desires to be heard on this application?

Mr. Philip Schotland, 9 Clinton Street: I represent particularly the owner immediately in the rear, Isaia Ciarlegio, 77-79 Prospect Street. This application is to enlarge an ink factory on the rear of the lot between two buildings that they now own.

Mayor Ellenstein: Between two buildings that they now own?

Mr. Schotland: Yes. You will notice that on the map. They bought this property on which there are two or three little houses fronting on Union Street, and according to the plan filed what they want to do is to build on the rear of their lot in back of these houses; the long two story building connecting with those two buildings. The Board of Adjustment

recommended the granting of the request by a vote of three to two. I represent the property owners all around there, particularly those on Prospect Street, that own residences, three family houses, eighteen family houses, two family houses.

Commissioner Duffy: What are the numbers, Counsellor?

Mr. Schotland: 77-79-81 Prospect Street, 85 Prospect Street, 91 Prospect Street, 97 Prospect Street, and so on. I have a petition signed by all the adjacent owners, everyone of them objecting to it. They all know and fear that the enlargement in this way of this ink factory will create a nuisance for dwelling purposes. If you will look at the map which has been prepared, showing the character of the property, you will see that beginning at the point immediately in the rear of this ink factory, you have residences on Prospect Street, and the entire section, going south, is a pretty solid residential section. There is a large factory north of it which runs through the block, but going south it is all residential.

Now, they all fear that the people who are now occupying the flats will leave and go elsewhere and that it will absolutely destroy the value of pretty good residential property. It is noised all over the neighborhood that if this goes through the tenants are going to move out.

I have a suggestion to make which probably will not meet with the approval of all of the property owners but still I want to make it in all fairness to the applicant and in the interest of the City, and I am making this suggestion because of the fact that this ink factory is already there, and I say this:

Union Street is all right, all factories there, that part of it. Instead

of giving them permission in violation of the Zoning Ordinance of the City, to erect this extension on the rear of the lot, where it is going to crowd the odors under the very noses of the people who are living there, let them build on the front of the lot, connecting those buildings, fronting on Union Street. Let them tear down these old shacks there. They are an eyesore. Let them build up on the front of the lot instead of on the rear.

Mayor Ellenstein: Do I understand that this plant emits obnoxious odors?

Mr. Schotland: Well, it goes without saying, that ink smells. Now, the more ink you put together the stronger the odor is going to be and, of course, it does become a nuisance as it is multiplied.

Mayor Ellenstein: What is the objection to Mr. Schotland's suggestion?

Mr. Ernest Masini: We cannot do that. I will cover that point. It is physically impossible in the first place.

Commissioner Duffy: It was constructed seventeen years ago, and we have not received any complaints from the Health Department. I just received that information from the Secretary of the Adjustment Board.

Commissioner Franklin: If odors are emitted from the factory on Union Street they will emit just as badly fifty feet away.

Mrs. Mamie DeLuca, 87 Prospect Street; Mr. Joseph Morana, Secretary, Pompeii B. & L. Ass'n, 83 Prospect Street; Miss Ida Charles, 77-79-81 Prospect Street; Rev. Charles S. Spivey of St. James Methodist Episcopal Church; Mrs. Enrico Cornelli, 75 Prospect Street; Mr. Braso Imposimato, 70 Prospect Street; Mr. William Bellow, 79 Prospect Street, appeared and objected to the proposed addition,

stating the odors emitted at present were very bad and complained of ink spots on wash that is hung out on lines.

Mr. Ernest Masini: Mr. Mayor and Commissioners: I need not say that every matter that comes before this body is taken very seriously, as my adversary has intimated.

In the first place, you have heard something about the property owners being there. You will notice that all the property owners are on Prospect Street in back. The back of their buildings is in line with the back of the factory. We have a majority of the owners within the two hundred foot area as required by law.

This factory has been there twenty-five years, and during that time not one complaint has been made by the Board of Health or the Bureau of Combustibles. I have the representatives of the Bureau of Combustibles, and the records will show that the Bureau of Health has never had any complaints.

When these people moved into this community they surely knew then that there was a factory of that nature there, but the most important thing that we must consider is that this whole neighborhood is of that character. Across the street I have pictures to show—there is a tannery. In fact, this particular property that the Roberts Company owns now was a tannery of some character, and Mrs. O'Neil who will speak on behalf of the proponent, will testify to the fact that her factory was by no means as good as the one which we have there now. It indicates that this company has done everything within its province to do the right thing by everybody there. This is the factory that was there before, and this is the type of factory that you have there now.

This is the back of the property now. There were blowers there before that used to give out a lot of odors, dust, and so forth, and this factory has eliminated all that, but, above all, I want you to particularly notice across the street and the surrounding neighborhood the different kinds of factories in that area.

Mayor Ellenstein: The homes of these people are on Prospect Street?

Mr. Masini: Yes. There will be, at least at its closest point, thirty-five feet from the rear of this factory to the rear of the property owned by these people on Prospect Street. At some other point there will be sixty to seventy-five feet. With respect to air and light, there will be plenty. In fact, this wall will hide any cans as described by Mr. Schotland.

Taking all these facts into consideration I cannot conceive of any reason why this factory, which has done everything in its province and power during the time that it has been in the community—and bear in mind that the majority of the property owners in the district have signed in their behalf, and they have as much right to talk as anybody else.

Mr. Schotland: The only property owners that we have here are the ones who are selling them the property.

Mr. Masini: I disagree with you. I will give you names. We have 93-95 Prospect Street, 67-73 Prospect Street, 59-69 and 63 Prospect Street.

Mayor Ellenstein: You said 67 to what?

Mr. Masini: To 73.

Mayor Ellenstein: That is the factory.

Mr. Masini: 57-59-61 dwellings; 93-

95 dwellings, on Prospect Street.

Mayor Ellenstein: They are further removed?

Mr. Masini: Towards the corner.

Mayor Ellenstein: Further removed from the rear?

Mr. Masini: Then the only properties in question that are in the rear would be 75 to 77, as I could see it. Then we will have to eliminate any others, using that line of reasoning, Mr. Mayor.

Mayor Ellenstein: They are the ones most vitally affected. They abut the property on the rear.

Mr. Masini: We have people living right alongside the factory, on Union Street, on both sides, adjacent to the property. They have signed in favor of the applicant. We have all the other property owners on Union Street, and if your Honors will bear with me you will notice the pictures of the back of the property of these people who are objecting, but I am not trying to tear their property down in value. I don't want to create that in your minds. If the wall is put there you will notice that it will make an improvement, and to say the least, it will decrease the fire hazard and it will increase ratables. These people have done everything that could be expected of any person who owns property in the City of Newark. They have a number of employees who live there in that community. That should be given consideration. Ninety per cent of the workmen have been there for a number of years. The ink intended by the ordinance covers a type of ink different than this, which is an ink for advertising colored inks?

I have taken the liberty of going down there and, perhaps, some of the members of the Zoning Board did.

Mayor Ellenstein: Have you noticed any odors when you went down there?

Mr. Masini: To be frank with you, there were odors like there were in any other factory. Naturally I am speaking on behalf of the factory and I would be prone to overlook them, but, from a fair point of view, it is not outside. The tannery across the street is unbearable.

Commissioner Franklin pointed out something. They have got to be consistent. If this building is in the front it would be the same odors. It is absolutely physically impossible.

Mayor Ellenstein: Why is it impossible?

Mr. Massini: They have no right of egress and ingress. They will have to tear down buildings. It is impossible.

Mayor Ellenstein: You are not going to tear down buildings?

Mr. Masini: We have no way whatsoever of really considering that proposition. You must take into consideration this: we have a certificate of merit from the Department of Labor, which is very, very careful in examining a factory, and they have given one to this factory. This factory has been there for twenty-five years. Every factory has a right to expand within reason, and all they are doing is just connecting two factories so they can go from one to another, and, perhaps, they have some program which will not crowd them in.

I think, in all fairness, this body should absolutely and unequivocally grant this permit. It will benefit everybody, rather than what the opponent might want you to believe, but I am in sympathy with the property

owners, but I suppose they overlook many other sides of the situation.

Commissioner Franklin: Mr. Mayor, this matter seems to revolve upon the question of odors. The odors would be present if the property was erected in the front or connected in the rear.

I move this matter be deferred two weeks until I have an opportunity to have the Health Department make a thorough inspection of the premises in that locality, to see if obnoxious odors emit from these buildings so as to make it impossible for us to grant this application. That seems to be the crux of this objection.

Commissioner Duffy: I second the motion.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Mayor Ellenstein.

Commissioner Franklin offered the following resolution:

Checks of unsuccessful bidders will be returned upon the award of the bonds.

The successful bidder will be furnished with the opinion of Messrs. Reed, Hoyt & Washburn, of New York City, that the bonds are valid and binding obligations of The City of Newark.

Commissioner Franklin offered the following resolution:

WHEREAS, on an appeal to the Board of Adjustment from the ruling of the Zoning Enforcement Officer the said Board, after having considered the same, recommended in writing to the Board of Commissioners of the City of Newark that the following structure or use be allowed:

Application of Del Gaizo Bros., for the construction and operation of a gasoline station; premises 727-735 Broadway; on condition that the station is constructed and operated in conformity with the rules of the Board of Adjustment; such use to be limited to the period ending eight years from date;

AND the matter having been considered by this Board;

IT IS RESOLVED, by the Board of Commissioners of the City of Newark, that said recommendations of the Board of Adjustment be and the same are hereby approved.

Acting Mayor Minisi: Does anyone wish to be heard in opposition to this application?

Mr. Samuel Saiber, 1060 Broad Street: I appear on behalf of a number of objectors. May I note upon the record that I renew my objection I made before the Board of Adjustment, at which time the application was granted by a three to two vote.

When the objectors made their objections five members of the board were present. Between that time and the interim when the decision was reserved and the final decision made, we found that there was a new member appointed to the Board of Adjustment who cast his vote, and by the casting of that vote my clients were prejudiced. I am, therefore, renewing my objection in that regard.

Gentlemen, this particular application for a gasoline station is on the corner of Grafton Avenue and Broadway, immediately opposite to the new Columbus Hospital. You will find, further, that it is right around the corner from the Elliot Street School, and that a number of children pass to and from this school, and they will be passing by this gasoline station.

As to the question of the need for a gasoline station at that point we have made a survey along that route and we find that within a distance of six tenths of a mile there are now fourteen other gasoline stations.

This is a residential neighborhood, around that section, and we find that there is absolutely no need for a gasoline station.

Acting Mayor Minisi: It is not a residential section according to this map.

Mr. Saiber: Right off Broadway, on Grafton Avenue and Elliott Street, are a number of residences.

Acting Mayor Minisi: My map shows that nearly every building on that street has a store.

Mr. Saiber: On Grafton Avenue and Elliot Street, there are residences, and there are already fourteen gasoline stations along there, and none of them are making a living.

Acting Mayor Minisi: Is that hospital objecting?

Mr. Saiber: We have not been in contact with them. We don't know but we presume they are, because we cannot picture any hospital—

Acting Mayor Minisi: Does anyone else wish to be heard in opposition?

Mr. Herman W. Brams, Esq., 1060 Broad Street.

I appear for the owners of the property on the opposite side of the street, the corner of Grafton Avenue and Broadway. Along that street there are factories and other business establishments. This is a vacant lot and there is no restriction as far as the construction along that section.

We do think that the gasoline station is unnecessary at that point. The owner of the property can very well use that land for some other purpose.

Mr. Carl Fischer, 700 Broadway.

I am agent for the Frank Kasier Corporation. I approached the doctors at the hospital and at first they felt as though they wanted to oppose it, and later on they told me that on account of their renting the property that they did not feel that it would be policy to protest against this gas station, and if the City Commission

wanted it that it was entirely up to the City, but the owners on the other corners naturally feel that the gas station is no benefit to the City, to their business and to the neighborhood.

Mrs. Margaret K. Fischer: That corner is far better situated for a big apartment building with stores underneath or an office building.

Mr. Charles C. Giffoniello, Raymond-Commerce Building:

I represent the owner of the property on the opposite corner. On the southside of this property is a factory which has been there for a number of years. On the Grafton Avenue side is another factory, and there are factories right along. On the opposite side of the street, where the hospital is, and the street below, there are a series of small houses, and on the east corner of Grafton Avenue, below Broadway is another factory, and then there is a railroad station with a stone yard, and here you have a picture of this place and just as it is. This particular location is not zoned for residences. It is zoned for business. What can we do with that particular property? It is a very valuable property.

With reference to the hospital, there have been no objectors. Whether it is a tenant, a resident, or a property owner, in that locality, he may come down here and object. As a matter of fact, I have spoken to two or three doctor friends of mine. They say they have no objection. They say there can be no harm. I think the application should be granted.

Acting Mayor Minisi: What is your pleasure, gentlemen?

Commissioner Duffy: I move that we concur in the recommendation of the Board of Adjustment.

Commissioner Franklin: I second the motion.

The roll being called, the motion was declared adopted by the following votes:

Acting Mayor Minisi: Are there any objectors?

Commissioner Duffy: I move that we concur in the recommendation of the Board of Adjustment.

Commissioner Franklin: I second the motion.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi.

Mr. Alexander Slavitt, representing Mr. David Cronheim, 39 Branford Place.

I respectfully ask for a suspension of the rules in the matter of the First Colonial Road Corporation, who have applied for a permit for the construction of a five-story apartment house at 479-485 Elizabeth Avenue.

Acting Mayor Minisi: There were objectors.

City Clerk Reichenstein: Mr. Slavitt says there were no objectors.

Acting Mayor Minisi: If there are any objectors they will have to be heard two weeks from today.

Mr. Slavitt: The objector told me that he is perfectly satisfied to go along.

Acting Mayor Minisi: I don't think we ought to create any precedent where there are objectors, and then have them say that they were deprived of a hearing. Objectors appearing at the hearing of the Zoning Board have a right to rely on the matter not coming up for two weeks.

Mr. Slavitt: We can get a letter. I think we can get a letter this afternoon, probably within the next hour.

Acting Mayor Minisi: Is this an apartment house?

Mr. Slavitt: Yes.

Acting Mayor Minisi. Where?

Mr. Slavitt: Elizabeth Avenue and Custer Avenue.

Acting Mayor Minisi: I will entertain a motion to suspend the rules, and the record will show that it is the understanding that you will obtain something in writing from those who objected. How many objectors were there?

Mr. Slavitt: The objector was an agent for the Longworth Building & Loan.

Acting Mayor Minisi: I think that the matter ought to take its regular course. You knew that there was an objector and you knew that you were going to come here.

Mr. Slavitt: The objector agreed to go along with us. He was just told by the building and loan association to go in and object.

Acting Mayor Minisi: I think that granting your request is going to establish a precedent.

Commissioner Franklin: You are asking us to deviate from rules. When you do that you should have the objectors here.

Mr. Slavitt: If I get a letter from the building and loan, the objector, will that be satisfactory?

Acting Mayor Minisi: You come in two weeks from today and make a similar request.

(Laid over to June 10, 1936.)

Commissioner Franklin offered the following resolutions:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

The City Clerk: Mr. Vincent Bel-fatto was under the impression he was to appear here to talk on the amendment of the ice cream ordinance, and he appeared here instead of at your office.

Mayor Ellenstein: On the amending of the ice cream ordinance?

Mr. Vincent Belfatto: As to the fee.

Mayor Ellenstein: That ordinance only came up for first reading today.

Commissioner Franklin: The ordinance as passed. He wants to discuss.

Mayor Ellenstein: He wants to amend the original ordinance as passed. I think it would be well to come into the Conference next Wednesday.

Commissioner Franklin: He is up against this difficulty, and it is going to be thrown in my lap. The people he represents, as of June 1, will be taken off the streets unless they comply with the paying of this fee, and because the time is so short between Monday and Wednesday we have given them that two day leeway so they can get the matter adusted.

Mayor Ellenstein: Why don't they pay the fee?

Commissioner Franklin: I won't be able to assist them anymore and his peddlers will be taken off the streets.

Mr. Belfatto: They cannot afford to pay that.

Mayor Ellenstein: What does the ordinance recite? Can't you accept a half year's fee under the terms of the ordinance?

Commissioner Franklin: He represents these little ice cream men. They cannot pay the \$100 fee.

Mr. Belfatto: It is only three months in the summer. They have a lot of rainy weather and they don't do the business.

Mayor Ellenstein: Originally this ordinance was brought up and passed because of the fact these people who pay taxes throughout the entire year felt they suffered in their business. That is the other side of it.

Commissioner Franklin: You have two more difficulties. I might say the Board of Health is opposed to any reduction because they feel these people, if they are to operate, ought to pay a fee; and the people who are the proponents of this ordinance have not been notified in order to give their side of the argument. I think the best that can be done is as the Mayor suggests.

Mayor Ellenstein: Let the Bureau of Health get a ruling from the Law Department whether or not part of the annual fee can be accepted. If they rule they cannot accept it in part, there is no other alternative but comply with the terms of the ordinance.

Commissioner Franklin offered the following resolution:

WHEREAS, on an appeal to the Board of Adjustment from the ruling of the Zoning Enforcement Officer the said Board, after having considered the same, recommended in writing to the Board of Commissioners of the City of Newark that the following structure or use be allowed:

Application of Lewis Roberts, Inc., owner, for the construction of an addition to a printing ink factory; premises 72-82 Union Street; on condition there be no increase in odors or noise;

Mayor Ellenstein: Is there anybody here appearing for the opposition?

Mr. Joseph J. Schotland: I represent the opposition.

Mr. Ernest F. Masini: It was referred to Commissioner Franklin for a Bureau of Health report, and that is about the only thing. Everything has been offered the last time, so that is all I have to say.

Mayor Ellenstein: Primarily, your objection was predicated upon the fact, as I understand, that ink spots and the like were being blown upon the adjoining property owners.

Mr. Schotland: That is my understanding with my Dad, who appeared.

Mayor Ellenstein: And that odors were emitted from the factory?

Mr. Schotland: And the Health Department was to make an inspection.

Mayor Ellenstein: Here is the report that comes into the Commission from an Inspector of the Health Department:

(The City Clerk read the report).

Mayor Ellenstein: Is there anything you want to say on that score? The report of the Health Department obviously is that there are no odors or anything detrimental to the health interest of the locality, and that seems to be the history.

Mrs. Charles: The only day he came

there the factory was stopped. Their factory has started now. People cannot stand the noise.

Mayor Ellenstein: Did you see this Inspector?

Mrs. Charles: Yes.

Mayor Ellenstein: Did you tell him that the machines were stopped when he was there?

Mrs. Charles: Sure, I told him. There was no noise that time.

Commissioner Franklin: But he has been the Inspector there for six years.

Mrs. Charles: Mr. Franklin, you take my word, that place was not working for a long time. I got people there they complain every day. They cannot put their clothes out. Their clothes comes all spots, black and yellow and any kind of color. They are just ruining me. We got two shacks in the front. Let them put the extension on the front, not on the back. I pay more than \$1,000 taxes, and we work hard to pay taxes.

Mr. Masini: This factory was there when these people moved in. Being sympathetic is one thing, but being just is another thing. The Health report, we were willing to stand by it. I would like to point out, here is a company trying to aid the unemployment situation by putting them to work, and there is a factory district, and I do not see why this opposition is even giving this argument. I think on the facts submitted the matter should come to consideration now.

Mayor Ellenstein: She charged the day this Inspector came there the machines were not in operation.

Mr. Masini: We deny that. The report there is for six years. Was it

shut off every time he was there? How did they know when the Inspector was coming? It does not ring true. If she told that to the Inspector, I am sure the Inspector would have been on the lookout for just that.

Mayor Ellenstein: What is the objection to joining the building on the front?

Mr. Masini: It is impracticable, it is impossible. In the first place, there would be no way of going to and fro from the building in the back. There is no outlet or ingress or egress. In the second place, they have to tear down those buildings, they have to move all their equipment, they have got to change the whole structure of the factory just to satisfy an argument which is not in reason. How much difference is it going to make if the building is in the front. If that plant is going to go, it is going to go thirty more feet.

Mayor Ellenstein: What is the depth of the building?

Mr. Masini: The depth is only about twenty-five feet. How much difference would that make? It is ridiculous to say if this is in front it is going to make such a vast difference. Here is a woman that lives next door.

Mrs. Caviato: I live next door.

Mr. Masini: How long have you been living there?

Mrs. Caviato: I am living there 13 years.

Mayor Ellenstein: Did you ever have any ink spots blown on your clothes?

Mrs. Caviato: Indeed not.

Mayor Ellenstein: Any unusual noise?

Mrs. Caviato: Absolutely no noise.

Mayor Ellenstein: Your family?

Mrs. Caviato: One of my daughters is here.

Mayor Ellenstein: How many children have you?

Mrs. Caviato: I have four and she has three.

Mayor Ellenstein: You both live in there?

Mrs. Caviato: Both live in there.

Mayor Ellenstein: Does this lady live next door?

Mrs. Charles: I don't know this lady at all. She don't live on Prospect Street.

Mr. Masini: They live on Union Street. I did not say Prospect Street.

Mr. Wright: I live at 104 Union Street, several doors below the plant.

Mr. Masini: How long have you lived there?

Mr. Wright: Twenty-eight years Born in that house.

Mr. Masini: Do you know this woman (indicating Mrs. Caviato)?

Mr. Wright: I know her thirteen or fourteen years.

Mr. Masini: Does she live there.

Mr. Wright: She still lives there.

Commissioner Franklin: I move we concur in the recommendation of the Board of Adjustment. The Health Inspector's report is certainly apparent. The Health Department inspection, after they report there are no odors or noise

Mr. Morano: I represent the Pompeii B. & L. Assn. We own 83 Prospect Street. It is not what they have now, it is what they are going to build, and the accumulation of those odors.

Mayor Ellenstein: Your objection is to the odors. These people say there won't be any increase of odors because they are not going to increase their output.

Commissioner Franklin: The Health Department and the Department of Public Safety in the performance of their usual functions will see that a nuisance is not created there. If the combustibles are stored dangerously, the Department of Public Safety will abate the nuisance, as will the Health Department if there are any obnoxious odors emitting from the place. They will do that regardless of the permit. They would see that they control it so there would not be any odors emitting from there.

Mayor Ellenstein: Do you understand? I think that ought to satisfy your clients if it is on condition that there is no additional noise or no additional objectionable odors.

Mr. Schotland: I think that is most satisfactory and their fears will be stilled.

Mayor Ellenstein: That is it exactly. Your lawyer, who represents you, agrees that certainly is fair. I will entertain that motion on that condition.

Commissioner Franklin: I move you that we concur in the recommendation of the Board of Adjustment and that the permit be issued with that distinct specification that there will be no odors or no noises or no dangerous combustibles stored other than what is now there.

Commissioner Duffy: I second the motion.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

The City Clerk presented An Ordinance to prevent the distribution, sale, or circulation or uttering or exposing to view or having in possession with intent to distribute, sell or circulate or with intent to utter or expose to view or to sell, distribute, or circulate any obscene or indecent picture, pamphlet or book and providing penalties for the violation thereof, and stated that today was the time fixed for hearing on the same.

The Board then entered upon said hearing.

Mayor Ellenstein: Is there any person who desires to be heard on this ordinance?

Mr. Dominick Orgo: Mr. Mayor, I think we have an ordinance like that.

Mayor Ellenstein: What makes you think so?

Mr. Orgo: I remember it.

Mayor Ellenstein: Evidently the Law Department disagrees with you.

They made a search of it. So you probably are mistaken.

Is there any other person who desires to be heard on this ordinance?

Reverend Father Matthew J. Toohey, 250 Lafayette Street: Mr. Mayor and honorable Commissioners, I wish to lend my hearty endorsement to this ordinance, and I want to read here a letter from Dr. William Hiram

Foulkes, of the Old First Presbyterian Church.

(Father Toohey read Dr. Foulkes' letter).

I think that the ordinance is a little wider in scope than any other that you had before, and I think it is more inclusive than any other. We are very anxious to get an ordinance put through licensing circulating libraries. It is these that we are after. I think that the City and the County at large is flooded with indecent literature today.

I have had myself first-hand evidence of it. And I assure you that Father Flanagan, who is Moderator of the Essex County Division of the Holy Name Societies, with a membership of over 50,000 lends his hearty endorsement. The thing we are most interested in is the enforcement of the ordinance if it is passed, and we assure you that Committees will be appointed in all the societies throughout the County and City, and they will constitute themselves a vigilance committee.

Mayor Ellenstein: Is there any other person who desires to be heard?

WHEREAS, on an appeal to the Board of Adjustment from the ruling of the Zoning Enforcement Officer the said Board, after having considered the same, recommended in writing to the Board of Commissioners of the City of Newark that the following structure or use be allowed:

Application of First Colonial Road Corporation, owner, for the construction of a five-story apartment house beyond the required set

back line; premises 479-485 Elizabeth Avenue;

AND the matter having been considered by this Board;

IT IS RESOLVED, by the Board of Commissioners of the City of Newark, that said recommendations of the Board of Adjustment be and the same are hereby approved.

Mayor Ellenstein: Is there any person who desires to be heard in opposition to this application?

Mr. Nathan Kussy, 790 Broad Street: I am here on behalf of Longworth B. & L. Ass'n, owner of a house on the adjoining property, No. 12 Custer Avenue. Before I state my grounds of opposition I would ask permission to have two of the gentlemen who are here, one representing the building and loan and one a real estate man, express their conclusions, and then I will offer my arguments.

Mr. Henry A. Guenther: I am President of the Longworth B. & L. Ass'n, owner of property at 12 Custer Avenue. This property originally had a mortgage of \$17,000 on it.

Mayor Ellenstein: Is that adjoining, on Custer Avenue?

Mr. Guenther: Immediately. This property they are digging now. It will hide the viewpoint of this property from any part of Elizabeth Avenue. Here is a piece of property on our books, with over \$17,000 on it. We have been negotiating a sale of this for \$40,000, half cash and half mortgage, and last week we received word that because of the contemplated erection of this house the sale was not to go through.

We also had a lease pending, which expires August 1, with the present tenant, a Mr. Schwartz, at \$85 a month. He informed us if the apart-

ment house was going to be erected he was going to move out.

This is a delightful one-family house. We installed last year a refrigerator in order to meet the competition of those high class houses in that neighborhood. We oppose it most strenuously. It means that we will have to rent for \$25 or \$30 a month if this apartment is erected.

Mr. Leslie Blau: I appraised this property on Custer Avenue on the 4th day of May last. In making my appraisal I took into consideration that there was adjoining on the street a piece of vacant land that was zoned for apartment house use, and for that reason I reduced my valuation somewhat. I had no idea that this apartment house was going to be built. Now, the case of this apartment house is a complete illustration of the ravages and obsolescence on a one-family residence section. We are not opposed to the erection of an apartment house. It is in that zone and you are entitled to have it built there, but we are opposed strenuously to the erection of a wall alongside of our property which will come out some thirty-three feet. It will entirely obscure and cut off light, and air, and cut off sunshine, and as long as the present building ordinance requires a set-back of some sixteen feet we see no reason why you should permit this building to be built beyond that.

The question of renting our property is a very difficult problem. Mr. Gunther has explained the loss of a tenant, the loss of a purchaser, and that is clearly due to the building of this house. I can conceive that the property might be ruined to the extent of seventy per cent. I have computed that the erection of this wall will depreciate this one-family residence adjoining at least forty per cent. and for that reason we oppose the erection of this wall to the thirty-two foot line.

Mayor Ellenstein: Your contention is that it should go back to where the building ordinance requires it, a fifteen foot set-back?

Mr. Blau: Yes.

Mayor Ellenstein: In principle I don't think that you are opposing it. If Newark is going to be built up it must be in a vertical direction. We have very little vacant land throughout the city.

Mr. Blau: We are not opposed to the apartment house. We simply oppose the extension of that wall thirty-three feet back to the line rather than setting it back where it ought to be.

Mayor Ellenstein: The controversy arises on the fact as to whether it should go in fifteen feet as required by the building ordinance?

Mr. Blau: That is correct.

Mr. Kussy: Supplementing what has been said, I would state that when this house was purchased the property along that line was restricted. The purchaser had in mind the fact that it was restricted to one-family houses, providing for a set-back of thirty-three feet. It seems to me an arbitrary abuse of the power that is vested in the Adjustment Board when it simply ignores entirely the conditions which have prevailed heretofore and which led owners and building and loan associations to invest in that property, to decrease that despite the building ordinance, the zoning ordinance.

This is a case where it should require the apartment house to be erected up to the building line. It is an arbitrary abuse of power, and the act which created an Adjustment Board provided for a relaxation of the provisions in the ordinance only when injustice would be done if it were enforced. It provides that the Board

shall have power to authorize, in specific cases, such variance from the ordinance as may not be contrary to the public interests where, owing to special conditions, a literal enforcement of the ordinance will result in unnecessary hardship.

A literal enforcement of the ordinance will not result in unnecessary hardship, because the individuals who contemplate the construction of an apartment house still have the work in the initial stage. It will result in unnecessary hardship to individuals who have invested their savings in that property and the building and loan, who will be obliged to take over property, and that loss will be increased by the erection of an apartment house. We have no redress. That loss will be increased.

At the present time, on the property that we represent, we have some view of Weequahic Park, which is a valuable asset, and that view will be partly cut off if the apartment house is built back fifteen feet, and it will be wholly cut off if it extends to the building line so that it seems to me, in a fair and liberal interpretation of the act, that the action of the Adjustment Board is unwarranted, and I trust that the Commissioners will have regard for the conditions in which the building and loan is placed at the present time and not impose unnecessary hardships.

Mayor Ellenstein: Is there any other person who desires to be heard? Is a representative of the applicant here?

Mr. William Dubin: I appear in behalf of the First Colonial Road Corporation, a New York corporation, the owner of the premises in question, who desire to erect a five-story apartment building, consisting of one hundred and fifty rooms, with an approximate value of \$300,000, and which will bring in a revenue to the City of Newark

of between five and six thousand dollars per annum.

This is the situation at the present time: We have a lot here that has been idle since Newark was a farm. This Company is willing to make this tremendous investment for this project, and is willing to invest a million dollars in the erection of similar projects in the City of Newark at a time when it is most needed. This firm is a very reputable firm. The owner, before coming to the City of Newark, first went to the business manager of the Union. Not only is he getting all union labor, but we are buying every piece of material in the City of Newark.

Elizabeth Avenue is a highway, a thoroughfare. Thousands of vehicles pass up and down. Part of it is business. What do you suppose the owner can build? When he speaks of a thirty-two foot restriction that was a deed restriction. We have 103 feet front and 135 feet deep. If we cannot come out to the line how can we put up any proposition that will bring any kind of revenue consistent with the size of the plot?

For seven years there has not been a single apartment house built in the City of Newark. Here comes a stranger to the City of Newark who has confidence and faith to erect this big building. Here is a building that is thirty-three feet in. Suppose it set fifteen feet in, would it make any difference? Is there a covenant that the City of Newark would always remain a village? Don't we expect and anticipate that Newark will grow and become a great metropolis? There is a scarcity of modern apartments in Newark. Look into Hillside and you will see the overflow of citizens of Newark because they cannot find houses to live in. If the small property owner expects that his taxes should go down then we must have additional ratables. Why is New

York's tax rate two dollars? Because they get the skyscrapers, office buildings and apartment houses.

Look at it from the viewpoint of the man who owned this lot for close to forty years. You expect him to pay taxes and he gets nothing, no revenue, from the lot. You cannot erect any business on it because it is restricted. We are willing to erect this building; the wall of our building from the line of the building will be twenty feet. It will be a special, white brick. We are erecting a \$300,000 proposition. Don't you suppose that from this point of view we are also interested in seeing that the building looks attractive, in order to attract tenants? At that point we are ten feet away. He has air, light, and every possible consideration is being given to the owner of the premises. If he makes this objection, it is based on a whim or prejudice; not on facts.

We cannot afford to change the plan, because the income would not be sufficient, and I don't see why there should be opposition. We should encourage rather than discourage buildings of this kind.

Mr. David Cronheim, 39 Branford Place: This property on Elizabeth Avenue is assessed by the City at \$28,000. In order to have any builder receive sufficient income he must erect a large apartment and use as much of the land as possible. These builders have had plans prepared to erect a five-story building. Their westerly line, which adjoins this property, will be at least 15 feet from the property line of the objectors.

This wall will be constructed of white faced brick, and, in my opinion, this apartment house, being erected 15 feet from the easterly line of the objector's property, will in no way decrease the value of this one-family house.

When Weequahic Park tract was laid out they had in mind that the City would grow and that apartment houses would eventually be built, and they put in deed restrictions, which have since expired. They had the vision to see that the main arteries would change, and we have prevented outside capital from coming into the City and erecting apartment houses. We are doing an injustice to the taxpayers of Newark.

Mayor Ellenstein: Is there anybody else who desires to be heard in favor?

Mr. Kussy: The argument advanced by those in favor of these building operations is one which is very plausible in its appeal to the cupidity of a Board of a City, and not to its sense of justice. The appeal is entirely along those lines. Their desire is to show that it is essential that the building be erected because it would mean an increase in ratables. They have told us of the employment of men over a certain limited period, and it is a generalization, always on the assumption that you are seeking to bar the erection of apartment houses in the City. Nothing of that sort is contemplated. We cannot bar the erection of these apartment houses. We have no right to do so, but we have a right to ask that the Commissioners, in passing on that matter, consider not only the arguments advanced by those willing to spend large sums for the erection of apartment houses but also those arguments which may be advanced by those of humble means or who possess some modest dwelling. Both have rights and those rights should be recognized. You are not affording substantial justice when, in granting the application you ignore the consideration of the rights of those who have invested in the adjoining property.

We are not opposed to the erection of the apartment house. We are satisfied to have the ordinance apply, and ask that it be applied as it is in force,

that there should be a set-back of about 16 feet. If you ignore that, if you shut off entirely the light and view of the park, you will so depreciate the value of this property that the shareholders of the building and loan will suffer a substantial loss, and we here are asking for the protection of the shareholder. If that scheme is carried out, we shall be unable to rent this property, and faced with further loss. All these circumstances should outweigh the mere possibility of any temporary gain at the loss of an individual property owner will be very dearly purchased.

I appeal to your sense of justice and fairness to insist that a set-back be required.

Mayor Ellenstein: Mr. Kussy, may I ask if your objection is on the question of a clear view of the park?

Mr. Kussy: That is only one of the objections.

Mayor Ellenstein: What other objections are there?

Mr. Kussy: The other objection is that when you have a one-family house which is set back it makes a big difference whether the house adjoining you stands like an uninterrupted wall down to the very front of the building line or whether there is also a green space in front of it, a set-back, which in itself, is some item of beauty.

Mayor Ellenstein: What I am interested in, particularly so in the recent past, everytime that there is an opportunity to get an apartment house in the City every adjoining property owner opposes it. I can very readily understand that. However, there is this situation; you lay a great deal of stress on the fact that you are protecting the interest of the shareholders. This is commendable, knowing you personally, as I do. How

many shareholders have you in the building and loan?

Mr. Kussy: Eleven hundred.

Mayor Ellenstein: Distributed among those eleven hundred the loss would be very little. If there was an individual that owned that property I would say, sitting as an individual, that I would go and vote against a man even though his views were fantastic. There is only a bare likelihood that there will be a substantial damage, and when you stop to consider that it is distributed among eleven hundred shareholders the loss would be very little, and it should be further considered that we have an opportunity to bring about \$300,000 of ratables here and provide an apartment for people who cannot find proper facilities in the City. It is a known fact that you cannot today rent any quarters in so-called first class apartment houses, at least, we are driving them out of the City of Newark and we are sending them to East Orange, sending them to Hillside and any place but the City of Newark, for the simple reason that every property owner comes in and says, "You build it down the street." On Chancellor Avenue, as I understand it, there is an opportunity to increase ratables, \$750,000, by a first class apartment house, and the property owners in that locality objected. Where are we going to put apartment houses? There is not any vacant land in the City of Newark. If we are going to increase our population and advance the commercial and financial interests and industry and the welfare of the City, we want to find proper housing facilities for those industries; so that I say, in my mind, particularly in a case like this, if everything that you said was so, that a substantial damage would be done to the property, it will be distributed over eleven hundred shareholders. If I were a shareholder I would say to you, Mr. Kussy, as a shareholder, while you make it

seem an injury it certainly is not commensurate with the general good that it will do the entire city.

Mr. Kussy: This is a merged organization and the profits and losses of this property will be apportioned among the shareholders of one of the merged associations, which has 450 shareholders.

Mayor Ellenstein: Distributing it among 450 would not amount to much.

Mr. Blau: There is no reason why an apartment house cannot be erected on fifteen feet less ground. I can show you fifty apartment houses that are erected on ground that is smaller than this, and with less stories in height, that are proving a profitable investment to the investor. Their yield will be sufficient without doing damage to anybody beyond the line of this property.

Mayor Ellenstein: Could we reach some compromise between the sixteen feet, as to whether it goes to the building line. As I understand it, Mr. Blau, as a real estate man, is in favor of having an apartment house.

Mr. John D. Weiss: I am one of the officers of this corporation. These people say we should go back fifteen feet in order not to obstruct their property. We go back fifteen feet and their property is just as obstructed as if we stayed where we are. They can't in any way decrease the damage by pulling the building back.

Mayor Ellenstein: Isn't it a fact, Mr. Blau, in the history of these cases, as I understand it, on the opposite corner of Elizabeth Avenue there is an apartment house?

Mr. Blau: Yes.

Mayor Ellenstein: Wouldn't your building and loan property be more valuable as an apartment site?

Wouldn't there be a tendency to use that for an apartment house?

Mr. Blau: We only have 60 by 100. It is highly improbable that an apartment house zone would go in that direction. It would make a difference. This is fifteen or sixteen feet deep. It is just like building a wall around us.

Commissioner Minisi: You could consolidate the use of these properties and build an apartment house.

Mayor Ellenstein: You will agree we have got to find some place in the City for apartment house sites.

Mr. Blau: Absolutely.

Mayor Ellenstein: We are limited either to Branch Brook Park or Weequahic Park. I take it that the people along Branch Brook Park would object strenuously. Unless they have this fifteen feet they are not going through with this project.

Mr. Cronheim: There is nothing to prevent us from building this apartment right on their line, fifteen feet back, instead of setting it fifteen feet away.

Mr. Blau: That is purely a selfish procedure.

Mr. Weiss: As an officer of this corporation may I say that we have now made plans for three different projects in Newark which total \$1,000,000. That happens to be true and we will file these plans in the Building Department for three different projects totalling \$1,000,000.

Mayor Ellenstein: I don't think we ought to set up barriers when we have an opportunity to get a permanent ratable.

Mr. Kussy: I don't think you are warranted in assuming, from the implied threat of these parties, that they

will not put up this building unless their course is followed, and I don't think it is to be accepted at its full value. They have the property and they can put a building which will pay them, and I think if the Board gives consideration to the particular question as to whether or not an apartment house can be erected, even allowing that set-back, which will be remunerative, I think you will conclude that it is not essential that they build to the line.

Mayor Ellenstein: I don't see why you can't convince Mr. Blau, particularly. The reason I single him out is because he has experience.

Mr. Blau: If you will hold this up for a week I will sit down with Mr. Cronheim and work it out with him.

Mayor Ellenstein: The matter is of so much importance I think it ought to be decided before the full Board, and I think it ought to be deferred for a week.

Mr. Cronheim: We are going to abandon it. It is no idle threat. If this Board turns this down, we are willing to have it turned down.

Mayor Ellenstein: Don't you want to have it deferred?

Mr. Cronheim: Time is of the essence.

Mayor Ellenstein: You understand that if it is turned down by this Board you cannot renew the application for six months?

Mr. Cronheim: I know that.

Mayor Ellenstein: I thought I was throwing safeguards around you so that you can have the full Board decide it.

Suppose they decide to bring it back fifteen feet and then come back to your building line?

Mr. Blau: That won't hurt us. If you set it off fifteen or seventeen feet alongside of our property you are doing just as much damage.

Mayor Ellenstein: Suppose that you had a prospective purchaser of your property for an apartment house and he found this building plumb up against your line, would your property be as valuable as a fifteen foot set-back?

Mr. Blau: No, sir.

Mr. Kussy: We think that the Board should not pass on that until it has satisfied itself on the question whether an apartment house should be built after having that set-back. I don't think that the action, in ignoring or setting side this provision of zoning ordinance is one, that should be lightly considered. I think if it can be shown that these people can put up an apartment house which will pay, then the right of this adjoining owner should be considered; otherwise you overlook the very spirit of the act.

Mr. Cronheim: There is no apartment house erected on Elizabeth Avenue with a set-back; any corner. We believe in the fairness of the Commission sitting here. We are willing to take a chance.

Mayor Ellenstein: I will entertain a motion by a member of the Board.

Commissioner Minisi: I move that we concur in the recommendation of the Zoning Board.

Mayor Ellenstein: Is there a second to that motion, that the action of the Zoning Board be concurred in?

(No response).

Commissioner Franklin: I move that consideration of this matter by

this Board be deferred for one week, until the full Board is here.

Commissioner Minisi: I second the motion.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Franklin, Minisi, Mayor Ellenstein.

Naye: Commissioner Parnell.

Mayor Ellenstein. Is there any person who desires to be heard in opposition to this application?

Winnemann, 45 Branford Place, representing six property owners appeared and opposed the application; Mr. Melville Berlow, 744 Broad Street, representing owner of 324-330 Peshine Avenue and Mr. Max Fischbein, representing the National Commercial Mortgage Company, appeared and objected to the application.

WHEREAS, on an appeal to the Board of Adjustment from the ruling of the Zoning Enforcement Officer the said Board, after having considered the same, recommended in writing to the Board of Commissioners of the City of Newark that the following structure or use be allowed:

Application of First Colonial Road Corporation, owner, for the construction of a five-story apartment house beyond the required set

Acting Mayor Minisi: Does anyone wish to be heard in opposition to this zoning matter?

Messrs. Nathan Kussy, Henry Guenther and Leslie Blau, representing Longworth Building and Loan Association, owner of property adjoining the structure to be erected, appeared and reiterated their statements against the erection of the apartment on the building line.

Acting Mayor Minisi: Does anyone else wish to be heard in opposition?

(No response).

Acting Mayor Minisi: We will hear the proponents.

Mr. William Dubin appeared and reviewed his argument of last week in favor of the project.

Mr. David Cronheim: I happen to be a shareholder of the building and loan which is opposing this project, and I as a shareholder of that association state further, and as a real estate man, that the erection of this apartment as these men contemplate erecting it, will in no way depreciate the value of this one family house dwelling. But if they do erect the building as they can under the Zoning Ordinance, 15 feet from Custer Avenue but directly on the boundary line

of this one-family house, then that one-family house will be depreciated.

Commissioner Duffy: I move that we concur in the recommendation of the Board of Adjustment.

The Board of Commissioners of
The City of Newark, N. J.

H. S. REICHENSTEIN
City Clerk.

Newark, N. J., June 24, 1936.

A regular meeting of the Board of Commissioners of the City of Newark, N. J., was held on the above date, in the Commissioners' Chamber, City Hall, Newark, at 11 A. M. Standard Time, 12 o'clock noon, Daylight Saving Time.

Present: Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

The minutes of meeting of June 17th were read and approved.

The City Clerk presented An Ordinance to amend an ordinance entitled: "An Ordinance to license and regulate the business of peddling of ice cream and ice cream products in the City of Newark, County of Essex, fixing the license fee therefor, to prevent such peddlers from conducting their business without a license and to provide penalties for the violation of the ordinance," adopted May 13, 1936, and stated that today was the time fixed for hearing on the same.

The Board then entered upon said hearing.

Mayor Ellenstein: Is there any person who desires to be heard on this ordinance?

Mr. Vincent Belfatto, 45 Branford Place: I represent about forty itinerant peddlers and about 15 manufacturers. This ordinance requires them to pack their ice cream, instead of selling it in bulk. This ordinance was made effective as to a \$100 mandatory fee, which it has been very hard for my people to raise. To put this additional pressure upon them to pack

their ice cream means they will have to get additional equipment, hire additional help. It would work a terrific hardship on these men to pack their ice cream in the middle of the season. Besides working a hardship it would be disastrous to us, in view of the fact we have been compelled to put up \$100 for the privilege of using the city streets to peddle our ice cream.

Mayor Ellenstein: Where did that section of the ordinance originate?

Commissioner Franklin: It is a health regulation. These amendments were recommended by Dr. Craster. I believe they all originated in the Health Department.

Mayor Ellenstein: Why can't your people pack them in boxes?

Mr. Belfatto: Because that will require additional equipment, besides being penalized \$100 as we have at the present time. This is the middle of our season. We only operate for about three months. I don't think anyone has ever died from eating our ice cream. It is to the advantage of the other group to pack their ice cream and to our disadvantage. I do not think there is any objection from the storekeepers. We are trying to cooperate as much as possible with them.

Commissioner Franklin: This is not a storekeeper objection, this is a Health Department measure. In other words, nobody has died from your ice cream, but a lowering of the standards leads to other things, and your health rate will not be so high if you permit all these things. It is not the ice cream itself, it is the

outside elements that get to it as you carry it through the streets and as you transfer it from hand to hand, that is the contention of the Health Department.

Mr. Belfatto: I do not wish to be argumentative. I cannot see personally any difference between a child going into a store and buying ice cream and taking it outside with him. It is subject to the elements just as much as it would be in a wagon.

Commissioner Franklin: If you buy ice cream in a store they use containers.

Mr. Belfatto: They use ice cream cones too.

Commissioner Franklin: You do not argue with the theory or the purpose, your argument is that you sell this ice cream for one, two and three cents.

Mr. Belfatto: Mostly that price.

Commissioner Franklin: The health element cannot be disregarded because your profit is cut down. That is the argument of the Health Department. Last year we had an ordinance which we worked out with these people, whereby they used a certain type of container that was very inexpensive, and it met the requirements of the Health Department. Even under the terms of this ordinance they will be able to do the same thing.

Mr. Belfatto: I don not believe they will. They cannot sell from any open receptacle, if I understand correctly.

Mayor Ellenstein: I depends on whether it is a closed container or not. That is a matter of interpretation for the Health Department, and I assume that the Health Department would would give some latitude under this ordinance as they did last summer. Is that right, that the same latitude

given last summer to comply with the health regulations, will be given even under this ordinance?

Commissioner Franklin: Yes.

Mayor Ellenstein: I think that ought to satisfy your people. If you have any difficulty on it, I am sure, Director Franklin will be glad to straighten it out.

Is there any other person who desires to be heard on this ordinance?

Mr. Peter Lifson, 114 Market Street: I originally was the sponsor of this ordinance. The amendment was introduced by Dr. Craster. I think it works an unfair hardship on these people whom Mr. Belfatto represents. It is going to catch them unawares. They were not prepared for anything of this sort, and the majority of them would be driven out of business. I would not want to see that. I feel in order to remedy the situation, the amendment which deals with the packing of the ice cream might pass, but not become effective until May, 1937, so that these people would have an opportunity to prepare themselves for the proper method of packing.

Mayor Ellenstein: Without the ordinance, under the regulations of the Health Department, they are compelled to protect the health of the consumer of the ice cream. Director Franklin says the same latitude that was given them last summer will be given them under this ordinance, so there cannot be any objection to it.

Is there any other person who desires to be heard on this ordinance?

Mr. Frank Pepe, 67 Congress Street: Mr. Linfonte and that gentleman there, last week were to get together on the \$100 license fee to see what we could do about it. I sell ice cream. I haven't got 100 to pay. I

was stopped Sunday to sell ice cream. I haven't got it and I don't know what to do.

Mayor Ellenstein: Of course this has no bearing on the price of the license fee. It just deals with the Health regulation as to how the ice cream will be sold. If you or anyone else feels that \$100 is a hardship, you appear at the City Commission conference next Wednesday or any other Wednesday thereafter at eleven o'clock.

Is there any other person who desires to be heard on this ordinance?

(No response).

Mr. J. B. Sugrue: I appear for Lieutenant Forsythe. We have no objection to this adjournment, although I cannot speak for the other property owners.

Mayor Ellenstein: Is there any objection to granting the adjournment for two weeks?

Mr. Forsythe: I would like to know the reason for the adjournment.

Mr D'Alia: Well, the attempt I

am going to make is to try and get their consent so that we might dispose of this thing without objection.

I understand they feel a little bit peeved that we did not go to them in the first place. We are going to try to satisfy them so they won't object to the application when it comes on again.

Mayor Ellenstein: That seems to be fair enough, doesn't it? Have you heard the statement Judge D'Aloia made? Usually the courtesy is extended almost to everyone appearing here when they ask for an adjournment, particularly so when their efforts are directed toward reconciling those who are opposed to it. So if there is no objection I will entertain a motion that the matter be adjourned for two weeks, and it will be adjourned without notice, and I want you ladies and gentlemen to understand.

Mr. Forsythe: At what time?

Mayor Ellenstein: At twelve o'clock, or as near twelve as we can make it.

BOARD OF EDUCATION
31 Green Street

Newark, N. J., July 1, 1936.

Board of Commissioners of
the City of Newark.

Gentlemen:

I enclose herewith a certified copy of a resolution adopted by the Board of Education of 1936-1937 at the organization held Wednesday morning, July 1, 1936, appointing the members of the Board of School Estimate.

Yours truly,
Alfred H. Krick, Secretary.

"RESOLVED, that Samuel Roesler, President, and Frank Cozzoline, Vice President, be and they hereby are appointed members of the Board of School Estimate, and that the Secretary be directed to notify the Board of Commissioners of the City of Newark of this action of the Board."

I HEREBY CERTIFY that the foregoing is a true copy of a resolution adopted by the Board of Education at its meeting held July 1, 1936.

IN TESTIMONY WHEREOF, I have hereunto set my hand and affixed the seal of the Board of

Education of Newark in the County of Essex this 1st day of July, 1936.

Alfred H. Krick, Secretary.

Ordered filed.

The City Clerk presented the application of Sam Sbarro (Carlo Sbarro, owner) for the construction of a retail ice depot; premises 232 South Eleventh Street; such use to be limited to the period ending two years from date.

Mayor Ellenstein: Is there anybody who desires to be heard on this matter?

J. Victor D'Aloia, 744 Broad Street: We are going to withdraw this application for an ice depot and renew the application for a garage.

I would like to have these objectors on record to show that they have no objection to the building of a garage.

Mayor Ellenstein: Of course, that is all right, if they want to record themselves as such, but there is not anything binding.

Mr. D'Aloia: I know that, but Mr. Sugrue, who has negotiated with them, said they are willing to consent to the building of a garage.

Mayor Ellenstein: You are withdrawing your application now?

Mr. D'Aloia: Yes. We are trying to get the objectors on record who will be in favor of a garage and not an ice depot.

Mayor Ellenstein: It has been the policy of this Board to comply with the wishes of the majority of the property owners, and if these objectors who object to the ice depot are in favor of the garage you probably will have the majority, without any difficulty.

If you want to record them for the purpose of the record, the people in that area who do not object to a garage, it is all right.

Mr. Sugrue: As an evidence of their good faith we would like to have them recorded to show that there is no objection by these property owners to the erection of the gaarge.

The following names were recorded as not objecting to the erection of a garage at the above mentioned premises, although opposed to the erection of an ice depot:

Eleventh Street Realty Corporation, 229 So. 11th Street (Luke Forsythe, Pres.); Anton Vondrau, 231 So. 11th Street; Steve Sedlar, 237 South 11th Street; Anton Mitches, 235 So. 11th Street; Joseph Mirek, 227 South 11th Street; Carl Mass, 225 Southe 11th Street; Vito Crecca, 233 South 11th Street; Horace Day, 222 South 11th Street; Anna Stumpf, 219-223 South 11th Street.

Commissioner Franklin offered the following resolution:

WHEREAS, on an appeal to the Board of Adjustment from the ruling of the Zoning Enforcement Officer the said Board, after having considered the same, recommended in writing to the Board of Commissioners of the City of Newark that the following structure or use be allowed:

Application of Barnet Shaiman, owner, for the establishment of a retail store in an existing apartment house in a Third Residence District; premises 189-193 West Bigelow Street

AND the matter having been considered by this Board;

IT IS RESOLVED, by the Board of Commissioners of the City of Newark, that said recommendations

of the Board of Adjustment be and the same are hereby approved.

Mayor Ellenstein: Is there any person who desires to be heard in opposition to this application?

Maurice Zucker, Esq., 24 Branford Place:

I am in opposition. I am asking for an adjournment of two weeks. My partner is handling this. He is on his vacation, and he will be back then.

Mayor Ellenstein: Is there a representative of the applicant here?

(No response.)

Commissioner Minisi: I move that the application for an adjournment be granted.

WHEREAS, The City of Newark, a Municipal Corporation of the State of New Jersey, is the holder of a certain certificate of tax sale for unpaid municipal liens, which certificate is dated July 22, 1930, and Numbered 10492 and recorded in the Essex County Register's Office in Book K-70 of Mortgages for said County, on page 198; wherein it appears that certain lands in the City of Newark, in the County of Essex and State of New Jersey, known and designated as Number 56 Jones Street, Block 238, Lot 30 on the Assessment Maps of The City of Newark, owned by John D. Goldberg, William Stalford, Elias Goldberg and Adolph Bernstein, were sold by the City on June 10, 1930, at a tax sale of land for delinquent taxes, assessments and other municipal charges on real property in the City of Newark, by John Howe, Director of Revenue and Finance, Acting Comptroller, for the unpaid 1928 taxes and the Jones Street opening and paving assessments; and

WHEREAS, more than two years have elapsed since the sale of said lands to the said City of Newark, and said lands not having been re-

deemed from the said tax sale by the owners thereof, nor by any person or persons having an interest therein, the said City of Newark filed a bill in the Court of Chancery of the State of New Jersey to foreclose the said certificate of tax sale, which bill is filed in Docket 111-190, and

WHEREAS, our Ledger in the Comptroller's Office shows that, in addition to the said sale above mentioned, the aforesaid lands were also sold by the City of Newark at a previous sale for delinquent taxes, assessments and other municipal charges upon real property in the City of Newark held on June 27, 1929, to Charles H. Wiltsie of Rochester, New York, for an assessment levied against said lands for a house sewer connection, and the amount for which it was sold is \$179.15; that by reason of said sale, John Howe, Director of Revenue and Finance of the City of Newark, as Acting Comptroller, executed and delivered a certificate of tax sale for unpaid municipal liens to the said Charles H. Wiltsie, which certificate is Numbered 8445, and was recorded in the Essex County Register's Office in Book X-67 of Mortgages for said County, on page 488, and

WHEREAS, any interest the said Charles H. Wiltsie may have in said lands sold as aforesaid, as the holder of said certificate of tax sale, is subject to the lien of the said tax sale to the City of Newark, and subsequent to the taxes now due said City, and

WHEREAS, the said Charles H. Wiltsie, on May 9, 1935, died testate, in the City of Rochester, in the State of New York, and in and by his last Will and Testament appointed his daughter, Mary Emily Wiltsie Field, sole executrix of his estate, and by virtue of his estate having a lien upon the aforesaid lands, it was necessary to make the said Mary Emily Wiltsie Field, individually and as executrix,

a party defendant to said foreclosure suit instituted by the said City of Newark to foreclose its tax certificate as aforesaid, in order to cut off the interest the said estate has in the above lands as the holder of said tax certificate of tax sale, and

WHEREAS, the said Mary Emily Wiltsie Field is a non resident of the State of New Jersey, process cannot be served upon her in the usual way residents of our State are served; that in order to make proper service upon her, it will be necessary for the City of Newark to get an order issue by the Court of Chancery so that she may be served by publication at a cost of approximately \$20.00, and

WHEREAS, in order to eliminate the service of the said process upon her, by publication as aforesaid, and thus save the expense, she has consented, through her attorney, to accept a nominal sum of \$10.00 to assign said tax certificate from the said estate to the City of Newark, which sum of \$10.00 is far less than the costs to serve the aforesaid process upon her according to law and the rules of the Court of Chancery.

NOW, THEREFORE, BE IT RESOLVED, By the Board of Commissioners of the City of Newark, that said offer made by the said Mary Emily Wiltsie Field, executrix of the Last Will and Testament of Charles H. Wiltsie, deceased, to assign said certificate of tax sale held by said estate to the City of Newark for the consideration of \$10.00 is hereby accepted and the proper officers of the City of Newark are hereby authorized to pay to the said estate the sum of \$10.00 in exchange for an assignment, assigning said certificate of tax sale to the City of Newark as aforesaid.

the same, recommended in writing to the Board of Commissioners of the City of Newark that the following structure or use be allowed:

Application of Barnet Shaiman, owner, for the establishment of a retail store in an existing apartment house in a Third Residence District; premises 189-193 West Bigelow Street;

AND the matter having been considered by this Board;

IT IS RESOLVED, by the Board of Commissioners of the City of Newark, that said recommendations of the Board of Adjustment be and the same are hereby approved.

Mayor Ellenstein: Is there any person who desires to be heard in opposition to this application? Are all you people opposed to this? Are all these people within the two hundred foot zone?

A Voice: Yes.

The City Clerk: The applicant wants an adjournment.

Mr. Eisner: I represent the applicant. My reason is this: I had expected the support of several other people who have counsel and who favor this application here this morning. Unfortunately, they are not here. I do not want to have the Board put in the unpleasant position of being influenced by the greater numbers of opposition.

Mr. Goldberg: Mr. Mayor and Commissioners, we sternly oppose this adjournment, because you can see by the numbers of people present, we want to be heard. We want this matter to be disposed of at this time. Most of these ladies were good enough to come down and sit here since ten o'clock this morning.

Mayor Ellenstein: There being no motion, the Board apparently denies your request for a postponement.

Mr. Goldberg: I have here petitions largely signed by property owners and taxpayers in the City of Newark. My associate, Mr. Mintz, has a petition with some fifty. I believe we have a total of about eighty-three actually taking in the immediate vicinity.

Mayor Ellenstein: How many of these are within the two hundred foot zone?

Mr. Goldberg: The majority are.

Mayor Ellenstein: The objection of those even outside of the two hundred foot zone is also taken into consideration by the Board, but for the information of the Board, how many of those opposed within the two hundred foot zone have you opposed to it?

Mr. Goldberg: I would say about sixty-five or seventy per cent.

Mayor Ellenstein: That would be about thirty-five property owners.

Mr. Goldberg: I would say that is about right.

Mr. Eisner: If there were any better reason for justifying an adjournment, this is the reason. I have never known, nor have I had an opportunity to inspect these petitions. The admission of counsel here is that only sixty-five per cent of those names are people who probably have a right to object within the two hundred foot zone.

Mayor Ellenstein: There is no necessity for them to serve notice upon you. That is borne by the fact that these people came down here and spent hours waiting, and as exhibited by the representative of these ob-

jectors, sixty-five per cent of those on that petition live within two hundred feet. Now, they are directly affected. It had always been the policy of this Board to bow to the will of those who are the adjoining property owners, the majority of them, even though their objection is based upon a fantasy. So I can say to you, as far as I am personally concerned, that I think we are only wasting the time of these good people, and your own time, by proceeding further.

Mr. Eisner: My application is based on this, if your Honor please, the Board of Adjustment heard this matter and passed it by a four to one vote on the merits. At that time, Mr. Daniels representing a building and loan in the neighborhood, and several other people who were in that neighborhood, came in and said they had no objection. This is an application by an owner, with the approval of the first mortgagee, in a thirty-five family apartment house, to put in a beauty parlor and store in the first floor. It is created for that purpose.

Now, let me give you a picture of the neighborhood. This is on the northeast corner of West Bigelow Street and Ridgewood Avenue. Within fifty feet diagonally opposite, on the southwest corner, is a vegetable store, a candy store, a grocery store, and a store used for the refrigeration of eggs. Now, if it is not discrimination to permit them there with the kind of a store they operate and to deny the right to put a beauty parlor in, then there is no real discrimination.

Commissioner Duffy: I move you Mr. Mayor, non-concurrence in the action of the Board of Adjustment.

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

The Board of Commissioners of The City of Newark, N. J.

H. S. REICHENSTEIN
City Clerk.

Newark, N. J., July 31, 1936.

A Special Meeting of the Board of Commissioners of the City of Newark, N. J., was held on the above date, in the Mayor's Office, City Hall, Newark, at 10 A. M. Standard Time, 11 A. M. Daylight Saving Time.

Present: Commissioners Duffy, Franklin, Minisi, Mayor Ellenstein.

Absent: Commissioner Parnell.

The Clerk read the following communication as a call for the meeting:

THE CITY OF NEWARK,
NEW JERSEY

Meyer C. Ellenstein,
Mayor

July 30, 1936.

Mr. Harry S. Reichenstein,
City Clerk,
City Hall,
Newark, N. J.

Dear Sir:

I hereby call a special meeting of the Board of Commissioners to be held Friday morning, July 31st, 1936, at eleven A. M., for the purpose of considering bids for the leasing of the former Army Base property at Port Newark, and for the purpose of considering resolution directing the Corporation Counsel to file an appeal with Essex County Tax Board to increase the personal property tax assessment for 1936 of Public Service

Corporation of New Jersey in the sum of \$150,000,000.

Very truly yours,
M. Ellenstein,
Mayor.

Ordered filed.

Mayor Ellenstein: I think we ought to dispose of the increase of the personalty assessments first.

Commissioner Minisi offered the following resolution:

WHEREAS, it has been brought to the attention of the Board of Commissioners of the City of Newark, that there has been omitted from the personal property assessment of Public Service Corporation of New Jersey, for the year 1936, taxable assets of \$150,000,000.00;

NOW THEREFORE BE IT RESOLVED, That the Corporation Counsel of the City of Newark, be and he is hereby authorized and directed to file with the Essex County Board of Taxation as the authorized representative of the City of Newark, an appeal designed to revise and correct said assessment from \$5,500,000.00 to \$155,500,000.00

A. F. Minisi
M. Ellenstein
Michael P. Duffy
Pearce R. Franklin

Commissioner Minisi: Mr. Mayor, I am bringing up this matter which involves the question of increasing the personal property assessment of the Public Service Corporation. I am referring to the holding company which

owns the stock in these other subsidiary utility and underlying companies. We have been going at this thing very, very slowly. Judge Boettner, Mr. Tepper and I have been studying the matter for almost a month and we are absolutely convinced that the assessment of the Public Service Corporation should be very materially increased.

The law as I understand it, and Judge Boettner gave us this advice, provides that any holding company or any company owning stock must pay a personal property tax on that stock, unless the companies which have issued the stock are paying a personal property tax.

Mayor Ellenstein: A general property tax.

Commissioner Minisi: I mean a general property tax. The stock held by this company is all stock upon which the original issuing companies are paying a gross receipts tax—

Mayor Ellenstein: A franchise tax.

Commissioner Minisi: A franchise tax. And under the law we claim this property is not exempt.

Mayor Ellenstein: That is, the shares of stock of the company which pays the gross receipts or franchise tax is not exempt, that the law only applies to those companies that pay a general property tax.

Commissioner Minisi: That is right. We are asking that the Commission at this special meeting authorize the Law Department to proceed with the matter and bring it up for hearing with the Essex County Board of Taxation.

Mayor Ellenstein: So the petition will be filed. Under the law that petition must be filed before August 15.

Mr. Boettner: We expect to file it today.

Mayor Ellenstein: It must be filed before August 15, and this would include this \$150,000,000 in this year's ratables.

Mr. Boettner: Yes, asking the County Board of Taxation to put it in.

Mayor Ellenstein: I will tell you that I have been in conference with Director Minisi, and Judge Boettner and Mr. Tepper on several occasions in reference to this, and I feel like Judge Boettner and Director Minisi feel, that this is a taxable ratable and it ought to be included by petition, and should have been in the past.

Commissioner Minisi: It should have been brought in last year and it wasn't. The question might be asked, Mr. Mayor, why the arbitrary figure of \$150,000,000. I understand that we fixed it at that amount for this year for the purpose of testing out this matter, and we will not be put to the necessity of proving it by extra testimony. Is that right, Judge?

Mr. Boettner: Yes.

Mayor Ellenstein: I think it is admitted that the stock it holds is worth at least \$150,000,000, and we won't have to prove that.

Mr. Boettner: We won't have to prove that fact.

Mayor Ellenstein: It is just a question, then, of interpreting the law. It will be purely a legal question, and not a factual question, which will simplify the petition.

The roll being called, the resolution was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Mayor Ellenstein.

Mayor Ellenstein: The other business before the Commission is in reference to the lease of the Army Base. I want to report that we have two bids that are accompanied by a certified check, and I thought it was clearly stated and understood that any bid was to be accompanied by a check of at least \$25,000 which is certified. Obviously this one bid that came in this morning, there is no way that a proper analysis could be made of who the people are in back of it.

In order that a bid be considered, I am recommending to the Commission that none of the bids be considered until an opportunity be given to these people who have put in these informal bids to present the checks of \$25,000 to the Commission, and I would suggest to the Commission that that be deferred so that that check be put up Monday at nine o'clock, giving an opportunity to those who have already bid to present their certified check to accompany their proposal.

Mr. Dempsey informs me that the American-Hawaiian Line—or is it the United States Line?

Mr. Dempsey: I just called to the Mayor's attention that the American-Hawaiian Steamship Company has asked me to find out when the city expects to act on this lease. They have considerable tonnage down there, and their schedule of sailings are made out for months in advance. Naturally, they want to know within the next few days, what disposition is to be made of that property so they can maintain those schedules. Otherwise, they are fearful they will have to go to Brooklyn or New York. I do not want to give the impression that too much haste should be given this thing, but certainly I do not think too much time should elapse before action is taken.

Mayor Ellenstein: There is no rea-

son why the matter cannot be entirely disposed of by the next meeting.

Dr. Charles F. Kraemer: Mr. Mayor, I received a telephone call from Mr. Iskransen, which is the Danish-Swedish Steamship Line, who control the sugar market in New York, and he was intensely interested in the matter. And it only came to his ears yesterday. He just returned from a foreign trip, and he wanted to know what the facts were.

Mayor Ellenstein: Only came to his ear yesterday? I have a proposal from a man named Siegel who saw me, and Iskransen is one of the men interested. It was brought to my attention about ten days ago. So he must have known before yesterday.

Dr. Kraemer: Mr. Herman Iskransen.

Mayor Ellenstein: The man that is connected with the sugar—

Dr. Kraemer: Mr. Herman Iskransen just returned—

Mayor Ellenstein: There was a man by the name of Siegel who informed me yesterday, and has a bid which was not accompanied by a check, who said among those interested in it was Iskransen who was connected with the sugar exchange.

Dr. Kraemer: Well, this is Mr. Iskransen himself, and he controls and owns these lines, and I just want to make this statement—

Mayor Ellenstein: The point is, we cannot delay this indefinitely.

Dr. Kraemer: Not at all. But this is significant evidence: He says, "If I can make arrangements with the City of Newark, I will bring two passenger sailings from the City of New-

ark from those docks regularly every week." That was so significant when I heard of it—

Mayor Ellenstein: What have you to say about that, Mr. Dempsey?

Mr. Dempsey: I do not get the point of Dr. Kraemer's remarks. What is the purpose of that?

Dr. Kraemer: Iskransen is interested and wants to know when the time limit would be when he could confer with the city officials.

Mr. Dempsey: What is his organization interested in?

Dr. Kraemer: Sugar and passenger lines.

Mr. Dempsey: They do not have any interest in passenger service.

Dr. Kraemer: Yes, they have; the Danish-Swedish Lines.

Mr. Dempsey: I never heard of them.

Mayor Ellenstein: Well, you should put it all in the form of a proposal.

Dr. Kraemer: I told him the time was up at twelve o'clock today. He threw his hands up immediately and said he could not act so quickly.

Mayor Ellenstein: Then we can extend it to Monday at nine o'clock, but we cannot go on extending it indefinitely.

And from Mr. Dempsey's report on this Hawaiian Line, which was only built up in these last few years, and they plan their schedules months in advance, they want to know what the situation is, and so do the tenants down there, who may be seriously handicapped, and they want to know

the status, and we cannot assure them what their status is. If you will accept a tenant there and did not know what he was going to do with the property and what his policy was going to be, you would naturally seek accommodations elsewhere.

But I do want to make this clear, and I do not know how the Commission feels about it, but my personal views are if anyone submits a bid it must be accompanied by a certified check of \$25,000 or it will not receive any consideration.

Commissioner Minisi: I will so move you, Mr. Mayor.

Commissioner Franklin: I will second it.

Mayor Ellenstein: Motion made and seconded that unless each proposal is accompanied by a check for \$25,000, and such proposal and check be presented before ten o'clock on Monday morning, that those proposals be not considered as bonafide.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Mayor Ellenstein.

Dr. Kraemer: May I ask for a point of information another question? As you know, we have been working on two or three applications there—

Mayor Ellenstein: Well, I have no formal bid from you.

Dr. Kraemer: No, through other sources. The question arises whether the city is going to take the final and determined attitude that they are not going to make any repairs to the property when they turn it over to the bidder. Now, is that final?

Mayor Ellenstein: That is final.

Dr. Kraemer: Has that been stated to all the bidders?

Mayor Ellenstein: That has been stated to all the bidders, that the city has no money. The only thing that the city will undertake to do is maintain the channel to thirty feet.

Dr. Kraemer: As long as everybody has the same viewpoint, that is all right.

Mayor Ellenstein: There is this to say about it: There is the possibility and probability that we will be able, to put in a WPA project on the property. Obviously, if the successful lessee will pay the city's contribution they will then receive the benefits of the labor attaching through WPA. That is only a probability, and the city cannot give any assurance on that score.

A Voice: What is the city's contribution ?

Mayor Ellenstein: That varies. If it were on the docks it would be sixty or seventy per cent. On railroad tracks it would probably be an insignificant sum, because it is largely labor. It depends upon the amount of material, because the man-hour wages must be kept within the regulations of the WPA.

Now, if any of you gentlemen representing these proposers wish to say anything further we will be glad to hear you.

(Discussion off the record).

Mayor Ellenstein: I think you will all agree that if a proposal is not accompanied by a certified check that the city should not waste its time considering that.

Mr. Hendler: Mr. Mayor, would you want to indicate what percentage in excess of it you would want?

Mayor Ellenstein: What?

Mr. Hendler: What percentage of the profits the city wants plus the bid.

Mayor Ellenstein: If we can get it, ninety-five per cent. How can I indicate that? It would all depend on the bidder as to how much he can afford.

Mr. Hendler: Well, the city has some idea what it will get.

Mayor Ellenstein: What it can get. The bidder can determine how much he can afford to pay.

The City Clerk: That is all before the Commission.

Mayor Ellenstein: Is there anything else, gentlemen? Any other questions? Now, of course, you know the agreement between the city and the government, a copy of that is available to each one of you. I want that thoroughly understood so nobody has any unfair advantage over the other.

Mr. Hendler: Will this matter be passed on before Wednesday?

Mayor Ellenstein: If there is any possible way to work it out by Wednesday so a recommendation can be made to the Commission, it will be passed on Wednesday. It will be necessary to get these bids that are bona fide by Monday, and then sit down and make comparisons and make an analysis of those people who are presenting the bids. But what we do not want to do is to delay it from day to day as we have been doing in the past. This gives everybody an equal opportunity to present their bids with a certified check, and then a decision can be arrived at.

A Voice: And the Commission might make disposition on Wednesday?

Mayor Ellenstein: The Commission might make disposition on Wednesday, unless there is something further which requires further analysis.

The City Clerk: No further business before the Commission.

Commissioner Minisi: I move we adjourn.

The roll being called, the motion was declared adopted by the following votes:

WHEREAS, On an appeal to the Board of Adjustment from the ruling of the Zoning Enforcement Officer the said Board, after having considered the same, recommended in writing to the Board of Commissioners of the City of Newark that the following structure or use be allowed:

Application of John P. Thompson, owner, for the construction and operation of a gasoline station; premises 702-706 Broadway; on condition that station is constructed and operated in conformity with the rules of the Board of Adjustment; such use to be limited to the period ending eight years from date;

AND the matter having been considered by this Board;

IT IS RESOLVED, By the Board of Commissioners of the City of Newark, that said recommendations of the Board of Adjustment be and the same are hereby approved.

Mayor Ellenstein: Is there any person who desires to be heard in opposition to this application?

Mr. Jack M. Lillien,, 1060 Broad Street: I appear for Samuel S. Saiber, who represents several objectors. Mr. Saiber is on vacation, and I request a two weeks adjournment.

Mayor Ellenstein: How long has he been on his vacation?

Mr. Lillien: He left yesterday.

Mr. Samuel Roessler: I would like to be heard. I appeared for Mr. Thompson before the Zoning Board. There was opposition, as a result of a misstatement made by one of the property owners, the application was denied. I thereupon made application for a reopening and my application was granted. The matter was heard three weeks ago, at which time Mr

Herman Brams, who appeared on behalf of the property owners. I claimed at that time only one property owner who has a selfish interest because she owns or controls a gasoline station in the immediate vicinity, the matter was heard fully, the objectors were given an opportunity to state their objections, and the permit was then granted by the unanimous vote of four members of the Board. Mr. Nolan, the Chairman of the Board, being absent. It seems to me that this matter has been heard fully on two different occasions. If Mr. Saiber is on vacation, the senior counsel, Mr. Brams, could be here. I most respectfully urge that the matter be disposed of at this time.

Mr. George E. Smith, 9 Elliott Street: On behalf of ninety-nine of the property owners who were within that zoning and signed against this gasoline station, we are simply asking for a postponement. Mr. Brams, I understand is ill, and our lawyer unfortunately, is on his vacation. Four times this came up and four times the Board turned it down. Then it came up within thirty days, which was very unfair to us, we were unprepared, and it was granted.

Mayor Ellenstein: You ask for a postponement because Mr. Saiber is not here?

Mr. Smith: Yes, and because Mr. Reheiser and some of the principal objectors are on their vacations.

Mayor Ellenstein: Mr. Saiber does not represent you people?

Mr. Smith: Mr. Saiber represented the property owners outside of Mr. Fisher, and I think Mr. Brams represented him.

Mayor Ellenstein: You have a petition of the property owners in opposition?

Mr. Smith: On file we have ninety-nine per cent of them, all but one, Mr. Cook, who was determined he would not sign it, because he said there were too many gasoline stations there, and he was disgusted with the entire thing.

Commissioner Parnell: I move you, Mr. Mayor, that this matter be postponed for two weeks.

Commissioner Duffy: I will second that motion, Mr. Mayor.

WHEREAS, the responsibility of providing relief of various kinds insofar as it must be done out of public funds is the responsibility and function of Municipal Government; and

WHEREAS, The City of Newark, in the County of Essex, in the State of New Jersey, operating under the supervision of the Municipal Finance Commission of the State of New Jersey, finds itself unable to entirely

meet such responsibility because of its loss of revenue through the falling off of tax payments and the failure of other sources of income and the inability of the municipality to further reduce its operating expenses.

AND WHEREAS, funds have been made available by the State Legislature to the State Financial Assistance Commission to be used by it in supplementing the relief given by such municipalities as are financially unable to adequately provide such relief.

NOW, THEREFORE, BE IT RESOLVED By the Board of Commissioners of The City of Newark, in the County of Essex, in the State of New Jersey, that application is hereby made to the State Director of the Commission for continuous month-to-month financial aid to assist in the administration of their relief program; such assistance to be a reimbursement in part of expenditures in payment of relief commitments for the months of July through December 1936. The municipality agrees that the amount of the reimbursement shall be the total amount of such relief expenditures in each month (excluding those for administration) less such amount as the commission shall determine by their published "Uniform Formula for Calculating Apportionment of Financial Assistance Funds" to be the municipality's share.

AND FURTHER, the aforesaid municipality declares that it has been receiving assistance from the State Emergency Relief Administration some time during the first four months of the calendar year 1936 and that it has paid any indebtedness or balance due the said administration, that it conducts a humane but economical relief program, keeps a separate bank account for relief funds and pays out of that account only for relief, keeps accurate records of re-

lief commitments and expenditures, will render such reports as may be required and generally agree to the policies and regulations of the Commission. (Completed Questionnaire No. 2 must be attached to this resolution).

was declared adopted by the following votes:

Yeas: Commissioners Franklin, Minisi, Mayor Ellenstein.

Commissioner Minisi offered the following resolution:

WHEREAS, On June 23, 1927, there was due the City of Newark the sum of \$117.60, representing the amount due for principal, interest and cost for the Peck and First Avenues paving assessment levied against a small vacant parcel of land on the corner of Peck and First Avenues, known and designated as 124 Peck Avenue, Block 1965, Lot 1, consisting of a plot with a frontage of 4 feet on Peck Avenue running to a depth of 20.10 feet on First Avenue to a point as shown on the diagram hereto annexed; and

WHEREAS, on the said 23rd day of June, 1927, the said sum of \$117.60 due the City as aforesaid, not having been paid on said date, a sale of land for delinquent taxes, assessments and other municipal charges on real property in the City of Newark, was held by John Howe, who was Director of Revenue and Finance, acting as Comptroller, and the said parcel of land was sold to the said City of Newark for the said sum of \$117.60, and after the said sale the said John Howe, Director of Revenue and Finance, acting as Comptroller, delivered to the City of Newark a certificate of tax sale for unpaid municipal liens dated August 15, 1927, and Numbered 5882; and

WHEREAS, the said sum of \$117.60 due on the said sale, together with the subsequent taxes for the years 1926 to 1933 both inclusive, plus cost and interest are due and unpaid and the total amount due the City upon the said certificate of tax sale and the subsequent taxes above mentioned amount to the sum of \$269.44 as

shown on the statement hereto annexed; and

WHEREAS, Joseph Solimine, the owner of the land and premises known and designated as Nos. 120-122 Peck Avenue, Block 1965, Lot 2, adjacent to the small parcel of land sold as above, as shown on said diagram hereto annexed; and

WHEREAS, the said Joseph Solimine is also the owner of said small parcel above mentioned, having title thereto by an unrecorded deed now in his possession; and

WHEREAS, the said Joseph Solimine has not redeemed the said small parcel of land from the said tax sale nor paid the subsequent taxes, plus cost and interest due thereon because he claims that the amount due the City is far in excess to the actual value of said land, basing his contention on an affidavit made by Frank Fabiano, a real estate broker of the City of Newark, that said land would not bring a sum in excess of \$50 at a forced sale, which affidavit is hereto also annexed; and

WHEREAS, the said Joseph Solimine has offered the City of Newark the sum of \$100 in full consideration of the amount due the City upon its certificate of tax sale and all the subsequent taxes, including principal, interest and cost, which certificate of tax sale and all subsequent taxes be cancelled of record; and

WHEREAS, John A. Linnett, Counsel of Ratables of the City of Newark, has investigated this matter and by his letter dated August 5, 1936, hereto annexed, has reported that inasmuch as the said small strip of land has no value whatsoever except to the owner of the adjacent property known and designated as Nos. 120-122 Peck Avenue, the offer of \$100 made by the said Joseph Solimine as aforesaid, be accepted;

NOW, THEREFORE, BE IT RESOLVED By the Board of Commissioners of the City of Newark, that the said offer of One Hundred (\$100) Dollars made by the said Joseph Solimine in full payment of the amount due upon the said tax certificate and the subsequent taxes as aforesaid, is hereby accepted, and the proper officers of the City of Newark are hereby authorized to cancel the above certificate together with all the subsequent taxes, including principal, interest and cost.

Mayor Ellenstein: Is there any person who desires to be heard in opposition to this application?

Mr. Louis B. Zavín, 1304 Liberty Avenue, Hillside.

Gentlemen, at this time I wish to present a petition signed by ninety-five per cent of the property owners and ninety-five per cent of the residents of the neighborhood, objecting to the proposed change of the Zoning Ordinance. Whitney Street, as you all know, is a street one block long running from South Orange Avenue to Dassing Avenue. It is built up with two-family and six-family residential houses—

Mayor Ellenstein: I think it might be well, since this is a question that is in controversy, that there be a larger representation of the Board of Commissioners present. Director Franklin will be here next Wednesday, and it might be well, in the interests of both the applicant and those who object, that we have a larger representation. So I suggest that the matter be adjourned for a week.

Mr. Zavín: That is satisfactory to us.

Mr. Edward J. Gilhooly: I have no objection to that.

Commissioner Minisi: I move that this matter be deferred for one week.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Minisi, Mayor Ellenstein.

(z) City may not engage in a rate competition with lessee, or enter into contracts for the handling of storage or cargo, loading or unloading of cargoes and passengers, at rates less than the uniform rates applicable to the Port of Newark area; lessee's charges will be no less than rates fixed by the City of Newark, with a proviso that the rates charged by the City of Newark will be no more than charges made in the Port of New York area for a similar service.

(aa) In the event premises shall be

partially damaged by fire, lease is to continue with a pro rata abatement to that portion of premises rendered unusable for lessee's business and the city undertakes out of insurance money received, to repair damage with dispatch and diligence; if damage is substantial and city does not within sixty (60) days give notice of its intention to rebuild the lease may terminate at the option of the lessee. In case the rent shall abate during period of repair as a result of fire, after completion of said repairs the rent shall be payable as if no damage had occurred. In case damage or destruction is total, the lease shall end and terminate and rent paid in advance apportioned as of the date of such termination.

(bb) In the event that the lessee is adjudicated insolvent or a bankrupt, or a permanent receiver is appointed for any cause, city may terminate the lease by serving notice, after which lessee's rights and privileges become null and void, or if lessee shall compound its debts or assign its estate, if any execution shall issue against the lessee's effects and said execution is not discharged within fifteen (15) days, the city may terminate the lease three (3) days after written notice of such intention. In the event premises become vacant or abandoned or rent shall be in arrears or unpaid or lessee shall be dispossessed or term of lessee ends prior to the expiration date fixed in the lease because of default by lessee, or because of other contingencies provided in lease, lessee authorizes lessor, at its option, to re-enter and relet the premises and apply the rents received from such reletting to payment of rents due under lease. Lessee is not entitled, however, to any surplus arising as a result of any such reletting, but, on the contrary, lessee shall remain liable for any deficiency.

(cc) In the event of fire, damage,

or condemnation, if parties cannot agree, each shall appoint an arbitrator and said arbitrators shall, after having been duly sworn to perform their duties, impartially select an umpire and the written determination of any two of said three persons shall be binding upon both parties. If city and lessee are unable to agree to an apportionment and distribution of any award, said arbitrators shall determine what apportionment shall be made and to whom. In the event either party does not appoint its respective arbitrator, or if said arbitrators fail to appoint an umpire or if the two arbitrators cannot agree upon an umpire, said arbitrators and/or umpire shall be appointed by the chancellor or chief justice of the State of New Jersey, or justice of the Supreme Court presiding in the Essex Circuit.

(dd) Nothing contained in lease to be construed as constituting lessee owner of any personal property upon demised premises at the time of the delivery of possession by city to lessee, nor shall anything contained in lease constitute a conveyance of the lessor's fee to the lessee.

(ee) In the event lessee does not operate demised premises to the best of its ability or if the terms of the lease work erroneously to either party, the lease may be terminated by either party at any time after the first eighteen (18) months of the lease, upon six months' written notice.

(ff) Lessee represents and warrants that it did not employ, authorize or commission any person, firm or corporation to act in its behalf for commission or any other kind of a fee in effectuating lease between city and lessee and that Ralph E. Lum, Esquire, lessee's attorney, was and is the lessee's only representative.

(gg) Lessee admits knowledge of claim presented by Leo Flaster, a real estate broker, for alleged commissions in connection with the making of the lease, but expressly warrants and represents that said Leo Flaster was not authorized, commissioned or in any way connected with the lessee in presenting its proposal for the making of the lease to the City of Newark.

(hh) All notices required to be sent to the lessee be served at demised premises upon person in charge; and to the lessor, at City Hall, Newark, upon the Director of the Department of Public Affairs.

(ii) Lessee shall be entitled at all times to peacefully and quietly enjoy premises upon the payment of rent and performance of covenants and conditions prescribed by the lease, taking by eminent domain or condemnation excepted.

(jj) Terms and conditions of lease to be binding upon respective parties, and their successors and assigns.

(kk) Lessee agrees to keep sidewalks and roadways upon demised premises free and passable at all times.

3. All ordinances and parts of ordinances inconsistent herewith are hereby repealed and this ordinance shall take effect immediately upon final passage and publication in accordance with law.

Together with all buildings, utilities, equipment necessary to operate the terminal and in such use and improvements upon said premises on September 1, 1936; also to include rail connections between army base property lines and Central of New Jersey and Pennsylvania Railroad lines north of Port street, being the same premises and personal property described in the agreement entered into between the United States of America by M. D. Wheeler, lieutenant colonel, Q. M. C., U. S. A., acting under authority of the Secretary of War pursuant to the provisions of an act of Congress approved June 20, 1936 (Public No. 730, Seventy-fourth Congress), party of the first part (hereinafter referred to as the government) and the City of Newark, a municipal corporation of the State of New Jersey, party of the second part (hereinafter referred to as the purchaser).

To have and to hold said demised premises unto said terminal for and during (15) years, commencing on the first day of September, 1936, and ending on the thirty-first day of August, 1951, at 10 o'clock in the forenoon of said date said terminal paying the rent therefor and yielding possession thereof as hereinafter provided:

1. Terminal in consideration of the leasing of the premises aforesaid by said lessor does hereby covenant and agree to and with said lessor to pay said lessor as rent for said term

of fifteen (15) years, the clear annual sum equal to fifty per centum (50%) of the net profits earned during each fiscal year of said term of fifteen (15) years by the lessee; conditioned, however, that the lessee shall pay and the said lessee does hereby agree to pay the clear minimum annual amount of one hundred thousand (\$100,000) dollars as the guaranteed minimum annual rent notwithstanding that the fifty per centum (50%) of the net profits referred to above and agreed to be paid by the lessee to the lessor in any year does not equal the said annual amount of one hundred thousand (\$100,000) dollars, the understanding and agreement between the parties being that the lessee agrees to pay to the lessor as a minimum rent the clear annual sum of one hundred thousand (\$100,000) dollars per annum, irrespective of the net profits earned, and that the lessor shall be entitled to receive and the lessee agrees to pay the clear annual minimum rental reserved herein as rent, it being intended by and between the parties hereto that the lessee agrees to pay to the lessor said clear minimum rental of one hundred thousand (\$100,000) dollars per annum, in the manner provided hereinafter, together with, at the expiration of each fiscal year, the additional amount to which the lessor may be entitled, based upon fifty per centum (50%) of the net profits earned in any one year by the lessee, should the said fifty per centum (50%) of the net profits exceed the said clear annual minimum rental of one hundred thousand (\$100,000) dollars provided herein.

2. The lessee further covenants and agrees to pay the rent to be paid by it to the lessor in the following manner:

Upon the execution of this lease said lessee shall pay to the lessor the amount guaranteed by said lessee as

the minimum rent for the fiscal year commencing September , 1986, amounting to one hundred thousand dollars (\$100,000), receipt whereof is hereby acknowledged by the lessor, and thereafter during each year of the said term of fifteen (15) years aforesaid, the annual minimum rent reserved herein, in equal quarter-annual instalments of twenty-five thousand (\$25,000) dollars, in advance, on the first days of September, December, March and June of each year of said term of fifteen (15) years.

3. It is further expressly understood and agreed that at the end of each fiscal year the net profits earned by the lessee shall be determined and on or before the first day of October following the end of each fiscal year the lessee shall pay to the lessor the balance of said rent, based upon the said fifty per centum (50%) of the net profits herein reserved as annual rent to the lessor.

The statement of gross receipts and operating expenses and net profits for the twelve months period ending August 31, 1951, and the payment of additional rent due, if any, for the said twelve months period, shall be made on or before October 1, 1951, in spite of the fact that this lease may have then expired.

4. In addition to the rental aforesaid Terminal covenants and agrees to and with the lessor to pay all taxes which shall be levied against it or against its property, excepting only real estate and buildings thereon as demised in this lease, water rents, charges for the use of water assessed or levied against the demised premises by the City of Newark, the County of Essex or the State of New Jersey, or any other lawful authority having jurisdiction over the said premises, all sums of money which may from time to time represent the cost of premiums charged by respon-

sible insurance companies for casualty insurance and boiler explosion in a sum as hereinafter provided, and the cost of necessary repairs to maintain the property in the same condition as when possession thereof is delivered to Terminal, as and when the same charges shall become due and payable and all such payments shall be treated as a part of operating expense. It being mutually understood and agreed, however, that the lessor shall have the right, if such charges are not paid, to treat the failure to make payments of the same as a failure to make the payment of rental reserved and it shall be entitled to all rights to it accruing in the event of a failure to pay rental as hereinabove reserved to be paid. It being expressly understood and agreed and it is the intention of the lessor and lessee that the said cash rents hereby and herein agreed to be paid are intended to be net cash rentals and are to be received and enjoyed as net rentals to the said lessor free and relieved from and over and above all expenses.

Provided always, however, and it is mutually understood and agreed by and between the parties hereto that, if the tenant shall breach any of the covenants herein provided by it to be kept and performed, excepting only the payment of rental and shall fail to fully perform and comply therewith within thirty (30) days after the receipt of written notice from the lessor, then, and in such event, Terminal shall, at the option of the lessor, forfeit this lease and the term hereby granted and all rights hereunder and the lessor may re-enter and recover immediate possession of said premises and shall also have an action for all damages arising from any such breach or breaches. Failure of the lessor to exact a forfeiture for any breach or breaches thereof by Terminal shall not be deemed or construed as a waiver of any right of the

lessor to exact a forfeiture for any subsequent breach or breaches by Terminal. All rent is payable by Terminal, as aforesaid, without demand and no demand therefore or notice in respect to the nonpayment thereof. shall be required as a condition of the lessor's right of termination for the non-payment thereof. If the default by Terminal, concerning which the lessor shall give notice as hereinabove provided, shall involve the doing of any work that cannot be completed within thirty (30) days thereafter, and if Terminal shall begin such work within thirty (30) days and shall thereafter prosecute said work to completion with diligence, then, in such event, said default shall be deemed to have been waived.

It being further understood and agreed by and between the parties hereto that any reentry on the part of the lessor as provided for above shall not cancel the obligation of the lessee to pay the rentals herein provided, anything to the contrary in any wise notwithstanding.

5. Definitions, "Gross receipts," within the meaning of this lease, shall include the gross yearly income received by Terminal from the premises demised, including any rent received from any of its subtenants or concessionaires or from the conduct of any business by Terminal on the demised premises, and operating expenses within the meaning of this lease shall include all charges and expense incurred, sustained or paid by Terminal in respect to the operation of its business upon or in connection with the demised premises, including wages, executive salaries not to exceed forty thousand (\$40,000) dollars per annum, costs of replacement, alterations or repairs to the premises with the written consent of the Director of Public Affairs of the City of Newark, made and paid for by Terminal, taxes of every nature except-

ing real property taxes, insurance premiums, excepting premiums on fire insurance for coverage not exceeding five hundred thousand (\$500,000) dollars, which shall be borne and paid for by the lessee as herein agreed, premiums for bonds, license fees, bad debts and all other proper charges incidental to the reasonable conduct of its business.

"Net profits" with the meaning of this lease shall mean the difference between operating expenses as herein defined.

6. The said lessee covenants and agrees to and with the city, its successors and assigns by these presents that the said lessee shall and will yearly and every year during the said term hereby granted well and truly pay or cause to be paid unto the said city, its successors and assigns the said yearly net rentals herein reserved on the days and in the manner limited and prescribed for the payment thereof without any deduction, fraud or other delay, according to the true intent and meaning of these presents, and that on the last day of said term or other sooner termination of the lease hereby granted, the said lessee shall and will peaceably and quietly leave, surrender and yield up to the said city, its successors and assigns, all and singular, the said demised premises, together with the buildings thereon and the fixtures appurtenant thereto, except as hereinafter provided, which said rental shall be paid at the office of the City Treasurer of the City of Newark or such other place as the municipal authority of the City of Newark may in writing designate.

7. It is further understood and agreed that the lessee shall furnish to the lessor within thirty (30) days of the end of each three months of the demised term, statements in writing to be delivered to the director of

the Department of Public Affairs and to the city auditor showing the gross receipts to the lessee from the operation of the demised premises for such period from all sources as well as the operating expenses incurred during such period, said statement shall contain a statement of gross receipts, operating costs and net profits.

The lessee agrees to keep in its main office full and accurate books, records and accounts of its business, to which said books, records and accounts the lessor or its duly authorized representatives shall at all reasonable times during the regular business hours have the right of access with the privilege of examining and auditing the same. In any such examination and audit the lessee hereby agrees to co-operate with and aid the said lessor.

It is understood and agreed that the acceptance of any rent tendered by the lessee shall be without prejudice to the lessor's right to such further sum as upon such audit of the lessee's books made by the lessor as hereinabove provided for may be found to be due to the lessor.

It is further understood and agreed that the lessee shall employ such person as the lessor shall designate, who shall inspect and examine the books of the lessee and said lessee agrees to pay said employee as and for his compensation an amount not to exceed four thousand (\$4,000) dollars per annum, which said amount shall be charged to the operating expenses.

8. The lessee covenants and agrees that it will use said premises for a general warehouse and terminal business and for the operation of public terminal facilities. Such warehouse and terminal, however, and the manner in which the lessee shall conduct the operation thereof, shall conform to all requirements of the federal,

state and municipal authorities in relation to the use thereof as may be required so as not to constitute an interference with the use and operation of the Newark Airport and as may hereafter be further provided.

9. The lessee shall have the right at its own expense, solely upon its own credit and without subjecting the demised premises to a lien of any nature in connection therewith, for labor done, materials supplied or otherwise to make such repairs and alterations in and upon the demised premises as shall be necessary to adapt said premises for its use; such repairs or alterations, however, shall in no wise weaken or damage the supporting structure or the supporting walls of said building and no such repairs or alterations shall be made or performed without the written consent and approval of the Director of Public Affairs of the City of Newark first had and received.

10. The lessee will at all times during the term of this lease, at its own cost, promptly comply with all laws and ordinances, orders, rules and regulations of the Federal Government and the State of New Jersey and the municipality of the City of Newark and of all governmental departments, bureaus, boards and offices having jurisdiction or authority in in such cases, particularly of the Department of Commerce, Bureau of Airways of the United States Government.

11. The lessee will throughout the said term keep the sidewalks and roadways upon the demised premises free from all obstructions and keep the roadways on the demised premises free and passable at all times.

12. The lessee agrees to indemnify and save the lessor harmless from any and all action or actions and causes of actions, suits and causes of

suits and claims and demands whatsoever arising from any injury to any person or persons or to the property of any person or persons, corporation or corporations, while in or upon the demised premises during said term, for which the lessor might be liable by reason of its being the owner of said demised premises, excepting, however, any claims arising from any injury caused by any acts of the lessor or of its agents or servants.

13. The lessee agrees to surrender and deliver up peaceable possession of the demised premises to the lessor in as good condition as said premises shall be in at the time of the entry of the lessee, wear and tear arising from reasonable use thereof, damages by the elements, and taking by eminent domain or other public authority, excepted.

14. The lessee further agrees that it, its successors and assigns, will, during the term of this lease, permit the lessor, or its agents, to enter the said demised premises at reasonable hours, to examine the same and during the last six months of the said term, to exhibit the demised premises at any time from nine o'clock in the morning until five o'clock in the afternoon (Sundays and holidays excepted) to any person or persons, and to put up notices, "To Let" or "For Sale," on the outside walls thereof, but no such sign shall obstruct any windows of the demised premises.

15. At the end or other termination of the term hereby demised for any cause whatsoever, all changes, repairs, alterations, improvements, additions, and/or replacements made by the lessee upon the demised premises (except trade fixtures which may be removed without damage to the premises), shall be and become the property of the lessor, and shall remain a part and be surrendered to the lessor with the demised premises

as a part thereof, without any liability on the part of the lessor to pay therefor. It is strictly understood and agreed that should this lease terminate by reason of the taking of possession by the United States Government, as provided for in a certain agreement between the United States Government and the lessor, then, and in such event, the lessee shall be indemnified to the extent of the value of all permanent improvements made on the demised premises by said lessee, less depreciation thereof, and the losses the lessee incurs as a result of commitments made to subtenants; but this shall not be construed that the lessee be entitled to any indemnification for anticipated profits beyond the time of the taking of the demised premises by the United States Government.

16. It is further mutually understood and agreed by and between the parties hereto that the lessee shall not have the privilege and will not assign or mortgage this lease, or sublet the premises, without the written consent of the lessor, but that the lessee shall have the right, however, to under-let such parts of the buildings upon the demised premises as is usual and customary in the operation of a warehouse and terminal, upon such terms and conditions as the lessee shall in its sole discretion deem advisable; provided, however, that the lessee shall not under-let any portion of the premises for the use of any business which shall be deemed by the lessor to be detrimental to or dangerous to public health.

17. It is mutually understood and agreed that the within lease is entered into upon the representation of the lessee that it will conduct a general warehouse, terminal and public terminal facilities upon the demised premises and will enter into contracts and arrangements for the docking of vessels and loading and unloading of

passengers and cargoes therefrom, the storage, handling and distribution of cargoes and freight, and the sending outward and the delivery of inward cargoes and freight, and to do all other acts and enter into all other contracts which are usual, incidental and customary with such a business, it being understood and agreed that the lessee shall have the sole right of determining the nature and kind of goods, wares and merchandise which shall be stored and handled in the business conducted on the demised premises as well as the terms and conditions upon which said goods, wares and merchandise will be stored or handled or received on the demised premises, and the determination of the lessee shall be binding upon all parties, it being understood and agreed, however, that in fixing rates, the lessee's charges will be no less than that fixed by the City of Newark, with the proviso, however, that the rates charged by the City of Newark will at no time be more than the charge made in the Port of New York area for a similar service; provided, however, that the lessee shall not conduct its business in such a manner that the operation thereof will constitute a public nuisance; and provided further, however, that the lessee shall not store on the demised premises, any goods of a hazardous nature as to public safety and health, although nothing contained herein shall limit the right of the lessee to receive and forward merchandise and goods of all kinds in transit, but no such goods shall be stored in any of the buildings on the premises unless the same shall be stored in a manner prescribed by the laws of the State of New Jersey and city ordinances, and only for the convenience of transshipment.

17a. It is expressly understood and agreed between the parties hereto that the lessee is to have all the rights to the use and operation of the

Atlantic Port Railroad, which the city has and is entitled to.

18. The lessee further covenants and agrees that it will keep the building or buildings now on or hereafter to be erected under the terms of this lease upon the demised premises at all times insured against loss by fire in the sum of five hundred thousand (\$500,000) dollars and said insurance shall be placed by the lessee in an incorporated or so-called stock insurance company in good standing authorized to do business in the State of New Jersey and satisfactory to the lessor. The amount of such insurance, however, shall not be less than the sum of five hundred thousand (\$500,000) dollars, already referred to herein as provided for by a certain agreement between the United States Government and the City of Newark. Such insurance shall be written to protect the interests and subject to the approval of the United States of America, the lessor and lessee as their respective interests may appear. The lessee covenants, as hereinabove provided, to pay the premium for said policies and to keep such policies or certificates of insurance thereof or any renewals of any such policies to be delivered to the lessor, together with the receipts from the insurance companies issuing said policies or the agents of the respective insurance companies evidencing the full payment of the premiums of said policies, and that said insurance policies shall not be modified or cancelled by any party having an insurable interest therein without the written consent of all the parties designated in such policies. In the event of any default by said Terminal concerning said insurance the lessor may, at its election, immediately effect said insurance and pay the premiums therefor, and in such event the premiums shall be added to and considered part of the rent which shall become due and payable by the Terminal at the next suc-

ceeding day at which any rent shall be due. Fire insurance premiums during the first seven years of the term shall not be included in operating expenses.

19. The lessee covenants during the demised term that it will keep the building or buildings now on or hereafter to be erected under the terms of this lease upon the demised premises at all times insured against loss or damage of whatsoever kind or nature by reason of the explosion of any steam boiler or engine in the said premises or by reason of any other explosion, or by reason of any tornado; also public liability insurance in the sum of at least \$50,000, \$100,000 limits, and employers' liability insurance. Such insurance shall be written to protect the interests of the lessor and the lessee as their respective interests may appear. The cost of all insurance provided for in this lease shall be paid for by the lessee or as hereinbefore provided for.

20. The lessor covenants and agrees that it will not enter into rate competition with the lessee nor will it enter into any contracts, arrangements or agreements for the handling or storage of cargo or the loading or unloading of cargo and passengers at any rate which shall be less than the uniform rates applicable to the Port of Newark area.

21. The lessor further agrees to keep the slips and/or water adjoining the premises hereby demised during the said term free from obstructions, deposits or other solid substances to a workable depth and to such an extent as may be necessary for the easy, convenient and proper navigation of vessels using the piers, and to that end the lessor will, at its own cost and expense, do all the dredging necessary or proper, maintaining a workable depth of not to exceed thirty (31) feet, it being further un-

derstood and agreed, however, that the lessor shall not be liable or held responsible for natural conditions affecting the same or resulting from weather conditions or storms. But the lessor agrees that it will use its best efforts in having the United States Coast Guard ice breakers help in keeping the slips open.

22. It is further mutually understood and agreed that if the demised premises or any part thereof shall be damaged by fire and that if the said damage or destruction by fire shall be partial that this lease shall continue, but that the rental herein reserved shall be abated pro rata to that portion of the demised premises which shall have been rendered unusable for the lessee's business and the lessor covenants and agrees to immediately cause, at its own expense, out of the insurance money received from the fire protection under the fire insurance policies mentioned with dispatch and diligence, but that if such damage or destruction by fire shall be substantial and if within sixty (60) days after such destruction the lessor does not give written notice to lessee of its intention to rebuild then at the end of the said sixty (60) day period this lease, at the option of the lessee, shall terminate and come to an end as if the date of such termination was the original date of the termination of this lease. In case the rent shall abate during the period of repair as a result of fire or damage as herein provided for after the completion of said damage or repairs, the rent shall be payable hereunder as if no damage or destruction has occurred. In case such damage or destruction shall be total then and in such an event this lease shall end and terminate and any rent paid in advance shall be apportioned as of the date of such termination.

23. It is further strictly understood and agreed by and between the parties

hereto that in the event that the lessee shall, during the term of this lease, be adjudicated insolvent or a bankrupt or a permanent receiver shall be appointed for it for any cause, then the lessor may, at its option, terminate this lease by serving notice to the lessee or its receiver or trustee or other officer of the court in charge of the assets and affairs of the lessee and upon the serving of said notice this lease and any rights and privileges of the lessee shall thereupon become null and void, or if the lessee shall compound its debts or assign its estate and effects for the payment thereof, if any execution shall issue against the lessee's effects and such execution shall not be cancelled or otherwise removed or discharged within fifteen (15) days, then and in such an event, this lease shall, at the option of the lessor, cease and terminate three (3) days after written notice of such intention shall be given to the lessee by the lessor and any rights or privileges of the lessee shall thereupon become null and void.

24. It is further expressly understood and agreed that the lessee shall not have the privilege or right to merge or consolidate with any other corporation, which would impair the financial responsibility of the lessee corporation.

25. It is further mutually understood and agreed that if there shall be during the term of this lease a partial or total taking of the demised premises by any public or other authority by virtue of eminent domain or condemnation proceedings that the lessor shall be first entitled to receive out of any award or compensation made for such taking the value of the lands, buildings and equipment owned by the lessor so taken and that out of the balance then remaining, if any, the lessee shall be entitled to receive from said award or compensation, the value of any building or buildings, including fixtures and equipment by it

erected and the value of its leasehold and if such taking shall be total then and in that event this lease shall cease and terminate; that if such taking be partial, then and in that event, this lease shall continue and the rental hereunder reserved shall be abated pro rata according to the portion of the premises so taken. It is strictly understood and agreed, however, that this provision shall not be construed to apply to any taking by the United States of America under the terms of its contract with the City of Newark in case of war or national emergency.

26. It is further agreed between the parties that if the demised premises shall be vacant or abandoned during the term mentioned herein or any of the rent hereby reserved shall be in arrears or unpaid or if the lessee shall be dispossessed or removed from said premises or if the term hereof shall end prior to the expiration date fixed herein because of any act or default of the lessee, or because of the happening of any contingency or events herein provided for, the lessee hereby authorizes the lessor, at the lessor's option, to re-enter the demised premises and to relet the same and to receive and apply the rents so received to the payment of the rents due hereunder. The lessee shall not be entitled, however, to any surplus arising as a result of any such reletting, but on the contrary, shall remain liable for any deficiency.

27. It is further mutually understood and agreed that in the event of damage by fire or taking by eminent domain or condemnation as provided herein, that in order to determine whether such destruction by fire or taking by eminent domain shall be partial or total, that the parties hereto, if they cannot agree, shall each appoint an arbitrator, and the said two arbitrators shall, so appointed, having been duly sworn to perform their duties in an impartial manner,

select a third person to act as an umpire, and the written determination of any two of the said three shall be binding upon the parties hereto, and the said arbitrators so appointed, shall, in the event of any condemnation, determine, if the parties to this lease are unable to agree to an apportionment and distribution of any award, what apportionment and award shall be made, and to whom, for the lands and buildings taken by such condemnation. It is understood and agreed, however, that should either party fail to appoint their respective arbitrators or if the two arbitrators appointed by the respective parties shall fail to appoint an umpire, or if in the event that the two arbitrators appointed by the respective parties shall fail to agree upon said third person, then and in such event or events, the Chancellor of the State of New Jersey or the Chief Justice of the State of New Jersey or such justice of the Supreme Court as may then preside at the Essex Circuit, shall choose said arbitrators and/or umpire.

28. It is further mutually understood and agreed that nothing contained in this lease shall be construed to constitute the lessee as the owner of any of the personal property delivered with the demised premises, nor shall anything in the within lease be considered to effect a partnership or joint venture between the parties hereto, nor shall anything herein contained constitute a conveyance of the fee by the lessor to the lessee, anything to the contrary herein in anywise notwithstanding.

29. It is mutually understood and agreed that if the lessee does not operate the demised premises to the best of its ability or if the terms of the within lease work onerously to either party hereto, this lease may be terminated by either party hereto at any time after the first eighteen (18)

months of the lease upon six months written notice. And the lessee, upon the last day of such six months' notice, shall peaceably yield possession in the manner provided for in the termination of this lease and the expiration of the term stated herein.

30. The said lessee does hereby further covenant and agree that no waiver of any of the conditions of this lease shall be deemed to be a waiver of any subsequent breach of such condition.

31. The lessee represents and warrants to the lessor that it has not employed, authorized or commissioned any person, firm or corporation to solicit or secure this contract upon any agreement for commission, percentage, brokerage or contingent fee, and that the transaction between the lessee and the lessor involving this lease is a direct transaction between the lessee and lessor, except for the representation of the lessee by Ralph E. Lum, Esquire, its duly constituted and authorized legal representative, and that the said lessee is aware of an alleged claim presented by Leo Flaster, a Newark real estate broker, to the City of Newark for alleged commissions in connection with the making of this lease, and that the said lessee warrants and represents that said Leo Flaster was no authorized, commissioned or in any way connected with the lessee in presenting its proposal or offer for the making of this lease to the City of Newark.

32. It is further covenanted and agreed that the word "Lessor" and "Lessee," "City" or "Terminal," "Owner" or "Tenant," whichever used, shall include the successors and assigns of the respective parties hereto.

33. It is expressly understood and agreed by and between the parties hereto that any and all notices referred to herein shall be deemed to have

been properly served upon the respective parties in the following manner: Notice to lessor shall be served at the City Hall upon the Director of Public Affairs; notices to the lessee shall be served at the demised premises and upon a representative of the company in charge thereof.

34. The lessor covenants and agrees that upon the payment of the rent herein reserved and the performance of the covenants and conditions herein provided to be kept and performed by Terminal, Terminal shall at all times during the term hereby demised peacefully and quietly have, hold and enjoy the demised premises without eviction or disturbance by any person or persons, corporation or corporations having a right to or lawfully claiming the same or any part thereof, taking by eminent domain or condemnation excepted.

35. The within lease and all of its terms and conditions shall be binding upon the respective parties thereto and their successors and assigns.

In witness whereof the party of the first part has caused this instrument to be signed by its Mayor and Director of the Department of Public Affairs, attested by the City Clerk and the corporate seal of said city to be

hereto affixed, the day of

Mayor Ellenstein: This matter, I think, has been heard in full, and it was referred to Director Duffy's Department for a report on whether a traffic hazard would be created or whether the location of a gasoline station, as I recall, would be injurious to the children attending school.

Deputy City Clerk Bross: I have the report here.

Police Department Report read by Mr. Bross.

Mr. Samuel Saiber urged that the application be denied.

Mr. Samuel Roessler urged the granting of the application.

Miss Mabel McKeon urged the granting of the application.

WHEREAS, on an appeal, to the Board of Adjustment from the ruling of the Zoning Enforcement Officer the said Board, after having considered the same, recommended in writing to the Board of Commissioners of the City of Newark that the following structure or use be allowed:

IT IS RESOLVED, by the Board of Commissioners of the City of Newark, that said recommendations of the Board of Adjustment be and the same are hereby approved.

Mayor Ellenstein: Is there any person who desires to be heard in opposition to this application?

Mr. Louis B. Zavini, 1304 Liberty Avenue, Hillside; Mrs. Helen Hulscher, 66 Whitney Street, opposed the granting of the application.

Mr. Edward J. Gilhooly, 11 Commerce Street, stated this proposed building will not contain machinery; it is purely for the storage of malt beverages, and will contain nothing of a noisy or unsightly nature, but will merely contain storage tanks for beer.

Mr. George Huck, 61 Whitney Street, stated he had no opposition against the building.

Mr. Andrew Gallan, 28 Gladstone Avenue, stated he contacted each property owner personally, and they have no objection to this plant being erected.

Commissioner Parnell: Mr. Mayor, this is a case of a corporation which comes to this Board for the purpose of getting a variation from an established ordinance, and its purpose in so doing is to put up a building with which it can make money and make more money. On the other hand we have a property owner who comes here practically representing herself, who is fighting for everything she has or that she has been able to acquire in the course of many years of effort. And we are asked to determine between those two conflicting groups. And for my part, I am not in a position to vote intelligently on it today because I am not familiar with all of the circumstances. So I would ask for permission to have this matter adjourned for possibly two weeks so that I at least can be given an opportunity to make an investigation and arrive at a proper determination. I so move you.

Mr. Gilhooly: Mr. Mayor, may I be heard for a minute, If I may be permitted to make this suggestion, if we are to be permitted to build, I would like the Commission to bear in mind the weather conditions which must be met. Furthermore, on October 1, there is going to be a sharp rise in the cost of steel and if we are not permitted to go ahead—

Mayor Ellenstein: Why not make that one week?

Commissioner Parnell: I will be willing to move then that you adjourn this matter for one week.

Commissioner Duffy: I second the motion.

The roll being called, the motion

was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

Mayor Ellenstein: Is there any person who desires to be heard in opposition to this application?

Mr. Rankin: There were, but the objections were withdrawn, Mr. Mayor. It is for the enlargement of a warehouse in a residential district. The building is to be 30 by 50 and will set back 50 feet from the street.

Mayor Ellenstein: You say the objections were withdrawn?

Mr. Rankin: The objections were withdrawn at the meeting after the plans had been seen.

Mayor Ellenstein: Is there any person who desires to be heard in opposition to this application?

Mr. Rankin: There were objections from the adjoining property.

Mayor Ellenstein: Are there any objectors to this application at 64-66 Mulberry Street? What is the disposition of the Board?

Commissioner Duffy: Who is the objector?

Mr. Rankin: The furniture store next door, the owner of 60-62. He was represented by Mr. Gifford at our meeting.

Mr. William Rayner: I am the applicant on that property. The reason for that man objecting was he rented one of those buildings for storage and that the bank did not give him notice

at the time to move. Of course, they did not know whether this permit was going to go through the Board or not, and he was a little peeved about it. His own property was offered to me twice as a garage and I refused it.

Commissioner Franklin: Did this matter come up once before?

Mr. Rayner: No, sir.

Commissioner Franklin: Didn't Mr. Gifford represent you in a matter right in this location before?

Mr. Rayner: No, sir. This man objected to the man next door and then O. K'd it. There are parking stations and gasoline stations all around there.

Commissioner Minisi: I move we concur in the recommendation of the Board of Adjustment.

Commissioner Duffy: I move we concur in the recommendation of the Board of Adjustment.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

WHEREAS, on an appeal to the Board of Adjustment from the ruling of the Zoning Enforcement Officer the said Board, after having considered the same, recommended in writing to the Board of Commissioners of the City of Newark that the following structure or use be allowed:

Application of Hoffman Beverage Company for the erection of a brewery stock house; premises 58-60 Whitney Street;

AND the matter having been considered by this Board;

IT IS RESOLVED, by the Board of Commissioners of the City of Newark, that said recommendations of the Board of Adjustment be and the same are hereby approved.

Mayor Ellenstein: I believe this ap-

plication was adjourned to this date to give the City Commissioners an opportunity to view the locality. Is there anything further that the objector or applicant wishes to add to what has been already said.

The City Clerk: There are a few communications that came in, Mr. Mayor.

(The City Clerk read a communication from the Whitney Street Association, one from the Polish Women's Alliance and a press release from the Whitney Street Association.)

Mayor Ellenstein: Is there anything else you want to add?

Mr. Louis B. Zavin: I have a few pictures I would like to have the Commissioners look at showing the condition of the trucks on Whitney Street.

Mayor Ellenstein: The condition now?

Mr. Zavin: The condition now. These were taken within the past week.

Mr. Gilhooly stated that he presented a petition, signed by 143 signatories who had no objection to the building, and that of the 21 who signed the petition opposing it nine were owners and the rest were tenants. He further said that the Hoffman Beverage Company was assessed in the sum of \$1,300,000 on their real estate holdings and \$900,000.00 on their personalty. And when it was called to the attention of the Board of Assessments and Tax Revision that the assessment against the real estate holdings were out of line because it was discovered that the brewery having a very limited capacity, could not be operated, the Board then said they would not take into consideration any item of obsolescence despite

the fact the brewery cannot be run to proper capacity where it could be run on a profitable basis; because they said, "You have additional lands on Whitney Street so that you can put up a building to store beer and complete the full complement of your building so you can make this an operating brewery.

Mr. Gilhooly urged the granting of the application.

Commissioner Parnell stated he had inspected the premises; that the extension of this building would create an air channel up there that would be very disturbing to Mrs. Hetman's home, and he was going to vote against the granting of this application.

Mr. Louis B. Zavín appeared for the protestors.

Mrs. Hetman protested the granting of this application.

Commissioner Parnell: I move this Board refuse to concur in the recommendation of the Board of Adjustment.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell, Mayor Ellenstein.

Mr. Gilhooly: In view of the attitude expressed by the Board of Assessment and Tax Revision, may I ask that this matter be continued for one week under reconsideration so that I can take the matter up with them so we can have a correlation of the two departments. We are entitled to some protection, and I think that this is a reasonable request that I ask this Board to defer taking final action—

Mayor Ellenstein: I think that your procedure should be to arrange for the members of this Board to meet with the tax Board, and perhaps, as you suggest, there ought to be a correlation and cooperation of the different agencies of the city government so that they do not work at cross purposes too much.

Mr. Gilhooly: I think the expression of your Honor is one of the things or ray of hope to work it out to the satisfaction of all concerned.

The following communication was received and read:

Mayor Ellenstein: Is there any person who desires to be heard in opposition to this application?

Mrs. C. C. Saunders, 66-68 Hartford Street.

My husband is the executor of that property up there.

Mayor Ellenstein: Which property?

Mrs. Saunders: 77 Whitney Street. We feel that putting a factory up in that site will undervalue the property and thus depreciate it.

Mayor Ellenstein: What is it, a one-family house?

Mrs. Saunders: It is a two-family house.

Mayor Ellenstein: What is your objection?

Mrs. Saunders: We feel that factory will depreciate the property and undervalue it, and as a rule you cannot rent property so very well in a factory section, especially a brewery factory. That is our objection, and I am speaking for my husband.

Mayor Ellenstein: Is there any other person who desires to be heard?

Mr. Jacob Bressman, 163 Quitman Street.

I am speaking for my father. That property, Mr. Mayor, is 57, 59 and 61. It belongs to my father.

At the last meeting there was quite a lot of people here objecting. They seem to have disappeared. My father feels that this will undervalue his property, it is not safe for the children, it is a residential section, and he does not feel it is right they should build a factory there.

Mayor Ellenstein: It is not a factory; this is just a storehouse.

Mr. Bressman: It is the same thing as a factory, this building 85 feet high. It is a factory building.

Mayor Ellenstein: It is only going to be used for storage purposes.

Mr. Bressman: Well, that I cannot say. I know what the application reads, and after all, it is a building that resembles a factory, and probably noisy, and my father owns two six-family houses right across the street and he feels he should object to this. At the last meeting there was quite a lot of landlords here, but it seems that the Hoffman people have got a lot of money, and they are not here today.

Mayor Ellenstein: Do you think it will be dangerous to children?

Mr. Bressman: Positively, it will be a factory, because there is a school there on Grove Street and Dassing, and most of the children pass that street, Mr. Mayor.

Mayor Ellenstein: How far is the school from there?

Mr. Bressman: The school is on Dassing and Grove.

Mayor Ellenstein: How far is that?

Mr. Bressman: It is only about a block and a half away, but most of the children are coming in from South Orange Avenue, that is the safest street.

Mayor Ellenstein: This is in Irvington, isn't it, that school?

Mr. Bressman: I don't know whether it is Irvington.

Mayor Ellenstein: How would the children from Newark go to an Irvington school?

Mr. Bressman: The property which I own there, all of the children go to that school. It is Newark, I think, on the corner of Dassing. What is the other street there? I think it is Speedway Avenue.

Mayor Ellenstein: You think most of the children pass Whitney Street? That is only a one block street.

Mayor Ellenstein: Is there any other person who desires to be heard?

Mr. Edward J. Gilhooly: Mr. Mayor and members of the Commission, I think I have set forth all of the meritorious features in connection with this application. Since this matter was considered by this Board, we have conferred with our neighbors and have outlined to them what our plans are. We sat down and talked the whole thing over. We can point out to this Commission there has never been an accident in that neighborhood with any of our trucks. We have a private parking space on South Orange Avenue, which is very valuable property for the use of all motor vehicles visiting the plant. We have arranged the driveways in such a way that there is a complete view of approaching vehicles by anybody on Whitney Street. In other words, the entrance will be curved in such a way that a person passing along Whitney Street can see any truck coming out, so there will be no trucks coming out on to the sidewalk to endanger the safety of anybody else.

The only school I know of is one on Grove Street, quite a distance from the premises in question. And as your Honor very pertinently pointed out, this is a one-way street that starts at South Orange Avenue, one block to Dassing Avenue. We feel that the building that is going to be put up there will be ornamental in character, and instead of being detrimental to the neighborhood will improve the appearance generally. At the present time there is a plant up there which is a commercial structure, and that should meet the argument advanced by Mrs. Saunders here. We are not adding to any structures, but by facing off this building on Whit-

ney Street it will tend to beautify the situation around there. At the present time there are boxes spread on Whitney Street and they will be removed. And the building will be of the same character as the other buildings up there, and will be a decided adjunct to that neighborhood. We feel we have laid before you sufficient facts to warrant your favorable consideration, and I am not going to take your time further.

Commissioner Parnell: That building is not exactly Gothic architecture, Mr. Gilhooly?

Mr. Gilhooly: Hardly. It would not be in keeping with the neighborhood.

Commissioner Parnell: You would call it Renaissance. Did you sit down with Mrs. Hetman and have a nice sociable time?

Mr. Gilhooly: Yes, we did. I had in mind before you raised that based on the observation you have made, we have gone a long way in trying to make her feel satisfied with what we have intended to do.

Commissioner Parnell: And you parted good friends?

Mr. Gilhooly: We did. And we have a petition on file in which she has come forward and asked this Board to grant the petition. We also have a petition signed by the Whitney Street Association, and also that lady who wrote this letter to the Commission on behalf of the Polish Alliance.

Commissioner Parnell: Well, if you have converted her you have converted me. I move the recommendation of the Board of Adjustment be concurred in.

Commissioner Minisi: I second the motion.

concur in the recommendation of the Board of Adjustment.

Yeas: Commissioners Franklin, Minisi, Parnell, Mayor Ellenstein.

The City Clerk: Mr. Krieger, representing the applicant, Louis Nezlick, 38-46 Avon Avenue, requests a suspension of the rules.

Mr. Rudolph Krieger: There was one objection in writing out of forty property owners. The man did not appear personally. It is a private parking station for the man's use for his own business.

Mayor Ellenstein: That is an apartment owner that objects? How will it seriously affect your client if it takes the usual course and comes up two weeks from today?

Mr. Krieger: We want to get it started. The parking station is being used by that objector's tenants as a parking place free of charge.

Commissioner Parnell: I move the rules be suspended.

Commissioner Minisi: I will second the motion.

Mayor Ellenstein: I think any objector ought to be given an opportunity to be heard. Our experience in the past has been when there has been an objector and he is not given the opportunity to be heard, he has a very just complaint. So I will vote no.

Commissioner Parnell: He did not object to the Board?

Mr. Rankin: He wrote a letter stating he was ill and could not appear.

Commissioner Franklin: Mr. Mayor, it might be a little out of order, but in view of the resolution we passed this morning increasing the food allowance, which costs, according to the estimate, about \$26,000 more a month, and in view of the fact of a new rule promulgated by the Finance Assistance Commission, through Mr. Mudd to the effect that we will be allowed \$1.75 a day for all relief client patients either treated in the City Hospital or treated in private hospitals, which might amount to a considerable sum, I think it would be well to ask for another conference with Senator Clee, Assemblyman Zink, and Mr. Mudd, to get, if possible, a commitment on those two propositions, and to take up with them the general subject of relief again.

So, I would move you that the City Clerk be directed to request another conference with those gentlemen for next Wednesday, at 2:30 P. M., in the Mayor's Office.

THE CITY OF NEWARK
Law Department
City Hall

October 27, 1936.

Board of Commissioners of
The City of Newark.

Addressed.

Gentlemen:

Among the zoning matters that will be presented to your Board on Wednesday, October 28th, will be a recommendation by the Board of Adjustment for a variation of the zoning law, to permit the erection of a store at No. 307 First Avenue. The name of the owner is Flora Di Donato.

There is pending at present a Chancery proceeding in which Sabastiano Caruso, et al., are seeking to restrain the owner from erecting this store, because of some restrictions in the deed to the property. A temporary restraint has been granted by Vice Chancellor Bigelow. Pending the final decision of the Court of Chancery on this matter, I think your Board should withhold any action that would affirm the recommendation of the Board of Adjustment.

Yours very truly,
T. M. Kane,
Assistant Corporation Counsel.

Ordered filed.

Mayor Ellenstein: Is the representative of the applicant here?

Mr. Frank P. Padalino, 24 Branford Place: Yes. There is the court's

opinion that was made after the restraint (indicating a paper).

The City Clerk: This is a communication under date of September 22, 1936, over the signature of John O. Bigelow, Vice Chancellor, addressed to Algernon T. Sweeney and Frank P. Padalino, in the matter of Caruso vs. Di Donato, 115/581, as follows:

"I have advised an order restraining the defendant from erecting a store building on her property pendente lite but not restraining her application to the Board of Adjustment. Such application is in no sense a violation of her covenant.

"I decided to restrain the erection of the store in order to preserve the status quo because it seems for the benefit of all parties more than to allow defendant to go ahead and then if complaints prevail on final hearing, compel her to take down her store.

"Mr. Tripodi and the Cavallos may be admitted as complainant. Mr. Mattia should be dismissed as a complainant since his name appears to have been used by mistake and Mrs. Kirsch should also be dismissed if, in fact, her property is not within the Oneida tract. The bill should be amended accordingly. I suggest that it also be amended to show the extent to which Caruso's lot has been released from the restrictions and also to show existing violation of the restrictions, such as the store on lot 184 and setbacks on Twelfth Street. If counsel is careful to make the bill conform to easily ascertained facts, the hearing should be short.

"Let counsel speed the cause, and bring on the hearing not later than November or December. If there is

any unnecessary delay, I will vacate the restraint.

Yours very truly,

J. O. Bigelow."

Mr. Padalino: The court will only decide as to whether or not the restrictions have been violated. It will not decide as to whether the applicant may erect the store provided they comply with the Zoning Ordinance. The restrictions will be determined by the court as to whether there are restrictions throughout the whole tract.

Mr. Arnold Mancusi-Ungaro, 207 Market Street: The question here is not if the Court of Chancery has any right to restrain the Zoning Board. This is a large tract of land in the Eleventh Ward, from Roseville Avenue to Thirteenth Street, and from First Avenue to Second Avenue, that is restricted to residential purposes only. ~~The applicant in this petition wants to build a store on this restricted property, on First Avenue. The Court of Chancery has already given us a restraining order and we are waiting for the outcome of the case, and we are only asking that the City Commission withhold action until that case is decided.~~

Mr. Padalino: There are other violations and restrictions. There are other stores on the tract and the restrictions have been violated in practically every single house, and Mr. Ungaro's client owns several stores a hundred feet east of this particular lot. I might say that the record will disclose that there were no names mentioned outside of Mr. Ungaro appearing in person and making a broad statement that he represented twenty-five or thirty or forty objectors. In reality there are only twenty-five persons who live in the vicinity of two hundred feet, and we have twenty-five people who have consented

that they are willing to have the store. On the westerly side of this property, on Fourteenth Street, there are fifteen to twenty stores, on First Avenue. The court went very deeply into the subject.

Commissioner Minisi: Cannot we decide whether or not the restraining order will issue?

Mr. Kane: There has been a restraining order against the owner but not against the Commission.

Mayor Ellenstein: It will have the same effect. How will it help you? Supposing this Board would act on it, you could not proceed with it because of the restraining order.

Mr. Padalino: We could proceed after the case was decided by the Vice Chancellor. I have no doubt that it will be decided in our favor.

Mayor Ellenstein: The others are just as confident as you are.

~~Mr. Ungaro: Mr. Padalino said that there are no objections. I know of at least fifty-eight which were presented to the Zoning Board.~~

Mr. Padalino: It has not been presented to the Zoning Board. It is not on file.

Mr. Joseph Solomine, 744 Broad Street: I have lived up there for thirty years. I own a piece of property on Peck Avenue which would be affected by this action. The Zoning Board has already declared and fixed that property up to Tenth Street. When Mr. Macusco says that he has eighty per cent of the property owners he is mistaken. I have made a canvass and he has told these people that I intend to erect a chicken market, which is very unfair to the people there and unfair to me.

Mr. Ungaro: This is the first time I heard of a chicken market. All I did was to present an affidavit. That is why they all signed. They want to restrict it to a residential section.

Mr. Solomine: When the original ordinance was passed they included up to Tenth Street. Mr. Ungaro owning the next 100 feet, came before this Board and asked the Zoning Board to extend that 100 feet so that he could build stores. Now, after six years, after the neighborhood is built up one hundred per cent, someone comes along to extend it another fifty feet. He is the only one who objects.

Mr. Ungaro: That is not so.

Mr. Solomine: I have no interest. My lot is already in the Zoning Ordinance. In fairness to the other people, you have about eight places that have come to a standstill. These people think that they can build anything and get anything in that section to pay, but Mr. Ungaro knows that he wants to save the revenue of five or six stores that he has.

Commissioner Franklin: Suppose we granted this application, it says that Donato, who is the owner, and agent, "each and everyone of them are hereby enjoined and commanded to refrain from the erection of stores." You couldn't do anything if we granted this.

Mr. Padalino: That is right.

Mayor Ellenstein: What would be the advantage of the City Commission acting?

Mr. Solomine: Because the Vice Chancellor is in the same position. He wants to know what the Zoning Board says, because they would be in a better position to say whether there has been a change in the scheme.

Mayor Ellenstein: That is aside from the question which the City Commission will decide. I understand that it was to pass upon just what the nature of the property was and what the people in the locality felt in regard to it.

Mr. Padalino: That is right.

Commissioner Franklin: I would say, then, that on the merits there should be a deviation from the zoning rule; it certainly ought to be with an understanding that this application should not proceed until the court has lifted its restraint.

Mr. Padalino: We won't be able to do it anyhow.

Commissioner Franklin: Make it with that provision.

Mayor Ellenstein: It is not a restraint directed against the City Commission from taking action.

Mr. Padalino: I may add that if the applicant fails in the application there will be no need for the Chancery action.

Mr. Ungaro: No. He has to hold this until after the Chancery case. I ask that it be held until after the Chancery case.

Mr. Leo Forcella: I am a property owner on First Avenue and Eleventh Street. It is going to be a tough case for the City of Newark. There is not a case in the State of New Jersey where a decision was passed by the Commission, on reference now. If this case is passed by this Commission it goes to the Chancellor and then the Chancellor has to pass on it and then brought before you for further reference. This is the first time that any case has been brought before the City Commission where there is restrictions for a number of years

that has been broken by the City Commission or any other Commission. That is why Mr. Sweeny is going ahead and trying this case all the way through to the Supreme Court. They have reference to different cities in the State of New Jersey.

Commissioner Minisi: What is Mr. Padalino's theory? That there has been an abandonment of the restrictions by the owner?

Mr. Padalino: There has been an abandonment of the community scheme, in so far as there has been a violation of the setback, of the roofs and porches. Stores have been erected in this vicinity and on that tract, too, on Second Avenue and Peck Avenue. The Vice Chancellor is particularly interested to know how the store was erected on Second Avenue and Peck Avenue and what effect it had on those other restrictions.

There are several releases on file in the director's office where the original grantor released the property owner from the violation of the restriction, because they had violated the restriction.

Mayor Ellenstein: When is this going to final hearing?

Mr. Padalino: It will probably be heard sometime in January or February, but the court insists that it be heard as speedily as possible.

Mr. Ungaro: They bought this, knowing that there was a covenant.

Mayor Ellenstein: They say that there has been an abandonment.

Mr. Ungaro: There is no such thing.

Mayor Ellenstein: If there has not been, then you will prevail and all of this action by the City Commission will lose its effect.

Mr. Ungaro: If you put it in the business zone how are you going to change that?

Mayor Ellenstein: It is already in the business zone.

Mr. Ungaro: It is not. It is all residential.

Mr. Padalino: He knows what it is. He asked for that himself. He appeared before the Commission; when the Zoning Ordinance was amended in 1930 it only extended to North Tenth Street and First Avenue, and Mr. Ungaro came down and requested that it be extended another hundred feet to Eleventh Street to include his land, and that is the time he built the stores.

Mr. Ungaro: That is not true. I did not request it.

Mayor Ellenstein: How long will it take you to get the record?

Mr. Russell Rankin: About five minutes.

(Upon the obtaining of certain records the hearing continued.)

Mr. Rankin: On this matter I found that when the present Zoning Ordinance was passed in January, 1930, the west side of North Tenth Street, beginning at First Avenue and running toward Bloomfield Avenue was placed in a business zone, and the north side of First Avenue, between North Tenth and North Eleventh, was placed in a business zone.

Mayor Ellenstein: When was that?

Mr. Rankin: January, 1930, so that these stores are in a business zone at the present time and were evidently erected there, because there is no record of any appeal on this property before, to the Board.

Commissioner Franklin: I think that these applications do not conflict. The matter is apparently before the Court of Chancery on a violation of restrictions. If the violation of restrictions are proved before the court they cannot proceed, in spite of our granting them a permit. If the court does not uphold the violation of the restrictions, then, if we act favorably they cannot proceed. If the court says that they have violated the restrictions then our action is null and void, because we are going to attach a condition precedent, before they proceed.

Mayor Ellenstein: I take it that it is your contention that the matter ought to be deferred.

Commissioner Franklin: No. Hear it on the merits, that regardless of the violation of restrictions that store should not be excepted from the zone, and then it goes out of the window.

Mayor Ellenstein: Is that your impression?

Commissioner Minisi: My impression is that the important factor is whether or not there has been an abandonment. If there has been no abandonment then these people have no right to inflict upon the other owners in that neighborhood a store. That is a question that is going to be decided by the Court of Chancery, and it is my opinion that we can very well leave it in the hands of the Court of Chancery and decide this here today, with the realization that if we act favorably on it and there has been an abandonment, then they can proceed with the store. If there has been no abandonment then whatever we do here will not adversely affect the other properties.

Mayor Ellenstein: It will be null and void.

Commissioner Minisi: And if there has been an abandonment these people should not be denied the privilege of putting up a store.

Mr. Ungaro: Why do they want to rush it? They want to have an advantage in the Court of Chancery.

Mayor Ellenstein: They claim that you will have an advantage:

Commissioner Franklin: The application, if granted, will have right on the face of it, that nothing is to be done until the Court of Chancery passes on the situation.

Mayor Ellenstein: Make that as a condition, if this application is concurred in, that it be concurred in with the condition that a decision is made by the Court of Chancery permitting the store or removing the restrictions.

Mr. Padalino: That is right.

Mayor Ellenstein: I will entertain a motion that the action of the Adjustment Board be concurred in on condition that the decision, on matters now pending before the Chancery Court, be that there was an abandonment of the covenant.

Commissioner Minisi: I so move you.

Commissioner Franklin: I second the motion.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Franklin, Minisi, Mayor Ellenstein.

Commissioner Franklin offered the following resolutions:

WHEREAS, on an appeal to the Board of Adjustment from the ruling

of the Zoning Enforcement Officer the said Board, after having considered the same, recommended in writing to the Board of Commissioners of the City of Newark that the following structure or use be allowed:

That the decision, on matters now pending before the Chancery Court, be that there was an abandonment of the covenant.

AND the matter having been considered by this Board;

Mayor Ellenstein: Is there any person who desires to be heard in opposition to this application?

(No response.)

Commissioner Minisi: I move that we concur in the recommendation of the Zoning Board.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Franklin, Minisi, Mayor Ellenstein.

WHEREAS, on an appeal to the Board of Adjustment from the ruling of the Zoning Enforcement Officer the said Board, after having considered the same, recommended in writing to the Board of Commissioners of the City of Newark that the following structure or use be allowed:

Application of Republic Investment Co., owner, for the construction of a 3-story store and apartment building beyond the required set back line; premises 741-745 Clinton Avenue; on condition that the building is set back ten feet from the Clinton Avenue Street line:

AND the matter having been considered by this Board;

IT IS RESOLVED, by the Board of Commissioners of the City of Newark, that said recommendations of the Board of Adjustment be and the same are hereby approved.

Mayor Ellenstein: Who represents the applicant?

Mr. Simon Englander, 790 Broad Street: I do.

Mayor Ellenstein: Didn't you make a statement that a number of objectors had withdrawn their objections?

Mr. Englander: There have been some who have withdrawn.

Miss Beatrice Parvin, 744 Broad Street: Could we know who?

Mr. Englander: No.

Mayor Ellenstein: Why shouldn't we know who?

Mr. Englander: I can't give you my entire case.

Mayor Ellenstein: In the course of the hearing you will reveal it?

Mr. Englander: Yes, if it becomes necessary.

Mr. Louis Mintz, 24 Commerce Street: May I object to that? This matter was before the Commission six weeks ago, at which time, with a full Commission present, it was unan-

imously rejected, and during the six weeks we do not know of any change that has occurred.

Mayor Ellenstein: You don't, but Mr. Englander appeared before the Commission and stated that a number of the objectors had withdrawn their objections, and that is a courtesy that the Commission has always extended. He was asked that question, and he stated that a number of objectors had withdrawn their objections.

Mr. Mintz: We felt that the proper procedure would require them to go forward on the merits of the case, so that we may respond instead of proceeding on objections.

Mayor Ellenstein: That would not make very much difference. If there are any objectors who have not yet withdrawn their objections I am still of the opinion myself, personally, that the application ought to be denied, and I don't think that we ought to quibble as to whether or not you are going to present your side or Mr. Englander is going to present his side. Let us go into the merits of it, rather than to quibble about the procedure.

Miss Parvin: I represent the Clinton Hill Baptist Church. I thought that since we had gone into the merits so thoroughly last time, and with the objectors still here, if Mr. Englander could show no substantial variance that would dispose of it. I don't know why we should waste our time.

Mayor Ellenstein: What objectors do you know of that appeared here last time who are absent today, Mr. Englander?

Mr. Englander: I will reveal them, if you want me to, one whom I consider most important. There are others who do not care to be involved in a fight in that district, when they

know there is opposition to it, but the one most affected, and who has withdrawn, is the adjoining property owner, with 120 feet frontage immediately next door.

Mayor Ellenstein: Who is that?

Mr. Englander: Mrs. Diss.

Mayor Ellenstein: Was she an objector last time?

Mr. Englander: She was here and represented by counsel.

Miss Parvin: Aside from that it remains as it was. We are all here who were here last time.

Mayor Ellenstein: My own opinion is that it is going to be a highly controversial matter. I think, in all fairness, that we ought to have a larger representation of the Board of Commissioners, and, possibly, a full Board, in order to do justice to both sides.

Miss Parvin: We are agreeable to an adjournment.

Mr. Englander: Of course, I understand that the objectors would be agreeable to any conditions that would harass the applicant. The situation is as I represented last week, the steam shovel has been there and has started operation, and as a result of this request to dispose of it this week we undertook to pay an additional consideration to permit the steam shovel to remain there, on condition that they would go ahead today.

Mr. Raymond Ozia, 732 Clinton Avenue: I happen to live diagonally across the street from there, and we will dispute that the steam shovel has been there. They merely levelled off the ground, and the steam shovel this morning was not there.

Mr. Englander: The steam shovel was there and has remained there for

several days. The digging has been stopped. There are some holes there and they have been there for several days. They were there this morning and the shovel only went away on our consideration to pay a certain amount of money.

Mayor Ellenstein: The question right now is, is a hole there or is a hole not there?

Mr. Englander: The hole is there. It is an eyesore to the city.

Mayor Ellenstein: It is highly controversial, and in fairness to both sides—

Mr. Englander: If that be so, you might just as well deny the application. We cannot go ahead at any other time. We must proceed with the building, and I say, in fairness to us, the matter should proceed on its merits, and there are many meritorious arguments.

Mayor Ellenstein: Have you the same number of objectors?

Miss Parvin: I think we have one more. Mr. Greenberg is another objector who was not here last time, so that evens us up.

Mr. Frederick P. Greenberg: I was talking to a man this morning who said he was up on this particular block. He said he did have a steam shovel.

Mr. Mintz: The statement has been made about harassing. The purpose of that steam shovel was to harass the objectors.

Mr. Morris Gordon, 24 Commerce Street: I am interested in this particular building because I financed it. I told the digger not to continue digging. We shall try to reopen the application because I think it is out-

rageous to have a building set back 52 feet from the curb when it is zoned for business, and this very objector, Mr. Mintz, represents a company who owns a building right on the curb adjoining this one. I think it is a nerve, just because the other gentleman owns a building 50 feet across the way, he wants a Woolworth building there. It is a shame.

Mayor Ellenstein: That does not answer the question. It is a highly controversial matter.

Mr. Englander: Why is it controversial? It is zoned for business.

Mayor Ellenstein: Of course, you heard all of these arguments at the last meeting?

Mr. Englander: I wasn't here, and I don't think that the arguments were stated as they should have been. It is a business zone, and the Zoning Board recommended it. How can we permit such an irregularity on that block? Fifty-two feet in from the curb, when it is zoned for business? What place have they to oppose?

Mayor Ellenstein: With a larger representation of the Commission you will be able to ask those questions. A week is not going to prejudice your client.

Mr. Englander: Mr. Mayor, do you appreciate that the winter is approaching? We want to enclose the building. If we don't start this week it means that we cannot start at all. The applicant is placed in the position of insisting that it be disposed of today. We realize that you would have no more than three, were all of the Commissioners present, we are taking that chance and we are willing to run the risk right now on the merits.

Mayor Ellenstein: How do the other Commissioners feel?

Commissioner Franklin: I feel as you do, that it is highly controversial and that the full Board should be here.

Mr. Oscar Stempler, 24 Commerce Street: I am the builder of this project and all of my contracts are out, and, regardless of what this Commission does, I am proceeding tomorrow. I am not proceeding on the six feet set back. I will set back thirty-two feet in accordance with the Zoning Ordinance. I think, however, it is an injustice. There are going to be stores and apartments there. They are doing everything in their power to harass us. Delaying it a week means a boost in price of fifteen percent on a project that runs anywhere from a hundred thousand dollars. It is a lot of money.

Mr. Englander: I think we should know who the objectors are. The principal objector is the church, which is a block away, and it is only within this distance of three feet of the grass plot on this corner. The other chief objector was a man who is the adjoining property owner. Let us get into the merits and see who is right in this.

Mr. Mintz: The Commission had all this when the five members were present, and it is just a matter of rehashing it.

Commissioner Franklin: I move that further action be deferred for one week.

Commissioner Minisi: I second the motion.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Franklin, Minisi, Mayor Ellenstein.

The following communication was received and read:

The roll being called, the resolution was declared adopted by the following votes:

Yeas: Commissioners Franklin, Minisi, Mayor Ellenstein.

The City Clerk presented the application of Republic Investment Co., owner, for the construction of a 3-story store and apartment building beyond the required set back line; premises 741-745 Clinton Avenue; on condition that the building is set back ten feet from the Clinton Avenue street line; and stated that today was the time fixed for hearing on the same.

Mayor Ellenstein: Is there anybody who wants to be heard on this matter? Just what are the objections to bringing this property down to six feet? I am not entirely clear.

Mr. Frederick J. Greenberg, 17 Academy Street: I am speaking for Mrs. Herpers who lives at 750 Clinton Avenue. We have no malice towards the people who want to build the stores. There are stores on Clinton Avenue near Eighteenth Street, any number of them. They are vacant most of the time. If those stores are rented they cannot be rented except, perhaps, as delicatessen stores, news-stands, vegetable stands, barber shops, something like that. The stores certainly are not necessary in the neighborhood, and they will depreciate that property.

Mr. Mintz: You have a zoning ordinance which requires a specified setback and they ask you to make a certain exception. My thought is this, in granting that request, it is proper for this Board to take into consideration the type of building that is going up there.

It is zoned for business. We have no argument. The plans will show that you have a building that calls for four or five stores ranging in width from ten to fourteen feet and in depth

forty-five feet. It is common knowledge that stores of that type can only attract small types of business and would not help the neighborhood. We feel that it would be detrimental to the neighborhood. I am speaking on behalf of the owners of the apartment house on the other corner, which represents a total investment of better than half a million dollars.

If this building was a suitable type we would have absolutely no objection.

Mayor Ellenstein: This property owner is not asking that an exception be made in this case. He is asking that he be treated in the same manner that any other property owner is being treated on Clinton Avenue, because there isn't anybody else who has a thirty-five foot setback.

Miss Parvin: I represent The Clinton Avenue Baptist Church, and I can speak as well for the Clinton Avenue Presbyterian Church. We are in the two hundred foot area, and the street, for two blocks there, has remained inviolate. It is improved with one-family dwellings, set back. We set back our church. We have a lawn, and the church is in a nice neighborhood where they won't be crowded when they walk to church on Sunday mornings.

I agree with Mr. Greenberg that we do not want the building, but I am perfectly willing to have the building go up on this setback if it does not completely obscure these houses.

Mayor Ellenstein: It might be well for the Board to know from Mr. Rankin why this was changed.

Mr. Russell Rankin (Secretary, Board of Adjustment): When our present zoning ordinance was passed in 1930 the Zoning Board felt at that time it should apply to a business district so that in the event the City felt

it was necessary to widen the street the buildings would not be in the way. The ordinance was drawn so that set-backs would have to follow the existing buildings on the same side of the block. In this particular case it happens to be only thirty-five feet back. I don't know of a comparable situation on a business street at present. I don't know about the opposite side of the street but I think the average set back would be probably ten or twelve feet. That is, Clinton Avenue is a seventy-five foot street with a fifteen foot sidewalk.

Mayor Ellenstein: Is there anybody else?

Mr. William H. Bader, 67 Tillinghast Street: I haven't any objection to the man putting up a building on his property provided he sets back the same as the rest do.

Mayor Ellenstein: I am now negotiating with an industry and I am practically certain that within the next few weeks I will make a public announcement that we will have an industry here that will employ a thousand people, and if you and other people take the attitude that industries are not coming here they won't come here. On the other hand, if you take the attitude that we will bring industries here and make an effort in that direction we would be a lot better off.

Mr. Raymond Ozias, 732 Clinton Avenue: I represent five of the property owners on the southerly side of Clinton Avenue. We, as property owners, would not in any way oppose any project which would increase the value of our real estate, but we know, from similar types of buildings put up in other neighborhoods, that real estate values have gone down.

We don't need the stores. There are forty-five little stores two blocks

up. I counted them yesterday. All the delicatessen stores that you want, all the business you want. We have professional men in the neighborhood, doctors, dentists, undertakers, and they are carrying on their business in buildings properly set back. That is the only type of business in the neighborhood.

Mayor Ellenstein: You object to the character of the building?

Mr. Ozias: Yes.

Mayor Ellenstein: That appears to me to be a very reasonable objection, but I don't know of any type of business that would go in there thirty-five feet from the setback line and operate their business; they would be at a decided disadvantage.

Mr. William F. Nies, 9 Clinton Street: I would like to enter my objection, representing C. W. Heilman, 736 Clinton Avenue. We feel the same way about it as Mr. Ozias feels, and there is no use repeating it.

Mayor Ellenstein: If I were a property owner I would be reconciled to the fact, provided the nature of the business and the type of building were not going to injure my property. I would have to be reconciled to the fact that the property was going to be sixteen feet from the curb and not thirty-five feet back. You cannot get any business to go back there, particularly a dentist or doctor. We must agree with the conclusion that that section, for the last fifteen years, has changed tremendously.

Mr. Englander: Our contracts for construction of this building have been entered into and under seal, and it will be proceeded with whether under a thirty-five foot setback or six foot. It is going to be there. Our excavators have just completed the job of excavation. By this time the

steam shovel should be out. They were supposed to complete that by one or two o'clock to day. The digging is completed and we are ready to go on.

Permit me to assure you that this is a monumental building, Mr. Mayor, and that the front is being constructed with the latest type of architectural fixtures, black ornamental glass, brass finishings, and similar things. It will not be a cheap construction. They are going to have a building that will be better than any apartment building in the neighborhood. As to the setback; the street may have to be widened. In the first place, that is not within the contemplation of any living man here.

Mr. Murray E. Kempler, 327 Washington Street: I appeared here some time ago with the objectors, and Mrs. Diss, whom I represent, never realized the consequence of her objections. She has a motive for withdrawing her objections, and she asked me to come down here. One is somewhat of a selfish motive, but at the same time it is one which this Board ought to consider, and that is the question of setback.

Mayor Ellenstein: Mr. Rankin just tells me that he was going to advise the City Commission to introduce an ordinance making the setback the same, ten feet, instead of thirty-five feet.

Mr. Minitz: I want to reserve my rights on that. As I explained before, before you take action on the compromise I would like to have you defer that to later in the day. I would like to consult my client. It may be, if they come to that point, that I would be willing to have it out to the six foot line.

Mr. Englander: We are perfectly willing to change our plans to meet

the situation described by Mr. Rankin, and have it set back on the ten foot basis.

Director Franklin: I think that the position that the owner of this apartment house takes makes our position very plain. He says if we are going back ten feet he wants an opportunity to withdraw his objection, and if they set back only six feet it will make an irregular block, but he came here originally to object to this apartment house, to having it come out sixteen feet, and insisted on its going back thirty-five feet, so that the block would be considerably more irregular. Now that there is a possibility of compromising so that the distance be twenty-six feet instead of thirty-five feet, he complains that it will make an irregular block.

Mayor Ellenstein: Is it the opinion of Commissioners that you want to make a decision today?

Director Franklin: I am willing to make the decision. I think that my attitude is apparent.

Director Minisi: I will go along with you if we now agree on the contemplated setback that will be established by a new ordinance.

Director Franklin: It would require a motion that the set-back be twenty-six feet from the curb line.

Mr. Englander: I am willing to go along with that.

Director Minisi: How do the owners of the private dwellings feel? Wouldn't it be better to have the buildings twenty-six feet instead of sixteen feet?

Miss Parvin: Of course, I am congenitally opposed to the building itself, but it seems to me that the greater set back would be better if

we have to have it at all, but I hope that we don't. I have not given up hope yet.

Mayor Ellenstein: I think with the additional four foot setback it is likely to enhance the value of the properties in general. It must enhance the value of this lady's property which adjoins.

Miss Parvin: I think we ought to determine first of all whether the Commission would allow them their application. If it will I think we would rather have it set back, because our church is set back, and it will look hideous if it stood out. I don't want to hurt Mr. Mintz, but from an esthetic standpoint I think the Presbyterian Church, as well, would rather have it set back.

Mayor Ellenstein: As much as possible?

Miss Parvin: Yes.

Mayor Ellenstein: So that it won't be necessary to come before the Commission at all. Make it a twenty-six foot set back. All in favor of the motion that the action of the Adjustment Board be concurred in, with the proviso that there be an additional four foot set back, or twenty-six feet back from the curb, signify by saying aye.

Commissioner Minisi: I second the motion.

Yeas: Commissioners Duffy, Franklin, Minisi, Parnell.

Mr. Nicholas W. Kaiser, 786 Broad Street; I appeared before the Zoning Board in the application of Cook & Dunn Company for the change of zone 109-115 St. Francis Street. I appeared there four or five times. I represented all the objectors. After the final hearing the Zoning Board told me the matter would be referred to the City Commission in three weeks. The three weeks expired last Wednesday, and, of course, being Armistice Day, I was of the opinion that the matter would be carried until today.

I recently found out to my dismay that the thing had come before the Commission last Thursday and I did not know that there was a meeting held last Thursday.

Acting Mayor Minisi: At the pre-

vious meeting we provided that the meeting of last week, considering the fact that Wednesday was a holiday, that the meeting be held on Thursday.

Mr. Kaiser: I want to say if you did, and it was in the newspaper, it was something I overlooked.

Acting Mayor Minisi: It was publicized in the papers.

Mr. Kaiser: I understand it had been publicized. What I think the Commission owes to the property owners is a full and complete hearing. There were objections made before the Zoning Board. The Zoning Board gave it a full and complete hearing.

Acting Mayor Minisi: Your application now is to reopen this matter?

Mr. Kaiser: That is right.

Acting Mayor Minisi: I would suggest in the absence of the Mayor that you appear next Wednesday and renew your application.

Mr. Kaiser: I ask that the matter of the permit for the enlargement of this paint plant be held up pending the final disposition of the matter.

Acting Mayor Minisi: How many objectors have you?

Mr. Kaiser: I would say there are at least twelve, possibly twenty. They were all sworn before the Zoning Board and each one made a statement.

Commissioner Franklin: What is this, new construction?

Mr. Kaiser: It is the enlargement of a paint plant. It is not a heavy industrial area. The paint factory is on St. Francis Street and the objectors are on the street immediately in back, on Main Street.

Commissioner Franklin: Why not have Mr. Rankin notify the persons to whom the permit was granted that application has been made to reopen this application.

Acting Mayor Minisi: Have the people started work? It is quite possible that they started work under the approval of this Commission. We don't know.

Mr. Kaiser: I don't know how they could start work unless the Building Department gave them a permit first. They had not up to yesterday. I wasn't up there this morning, but up to yesterday the Building Department had not granted a permit.

Acting Mayor Minisi: Suppose you call Mr. Fiverson and get him down here, too.

On this Cook and Dunn application, Mr. Rankin, that came up last Thursday, and you did announce that there were objectors but that none of them appeared at the meeting of the City Commission. Now it appears that counsel for the objectors assumed that Wednesday being a legal holiday that the meeting would not be held until this week and did not know that the meeting was held the day after, Wednesday. Now he appears and says that the objectors are very much interested in this matter and they have not withdrawn their objection. What is the status of this matter?

Mr. Rankin: Mr. Kaiser was in my office yesterday. I suggested that he go to the Building Department and ask them whether the permit had been issued. The plans are in the Building Department.

Mr. Kaiser: I found up to yesterday that the permit had not been issued.

Acting Mayor Minisi: Did the objectors actually appear?

Mr. Rankin: Yes.

Acting Mayor Minisi: You appeared and represented them?

Mr. Kaiser: I appeared and represented them, yes.

Mr. Rankin: Six or seven I would say were at the meeting.

Mr. Kaiser: I think if you will look at your records there were about twelve sworn.

Acting Mayor Minisi: How many objectors have you altogether?

Mr. Kaiser: Well, I can't say exactly, but between twelve and fifteen were there.

Acting Mayor Minisi: All within two hundred feet?

Mr. Kaiser: All within two hundred feet. They are all directly in back of where this property is. They are all property owners that own their own properties that adjoin the paint factory which it is proposed to increase in size.

Acting Mayor Minisi: Then get the record from the Building Department. I will suggest that they withhold the issuance of a permit until next Wednesday; that is provided a permit has not been issued yet.

Mr. Kaiser: Do you want me to present all the objectors or shall I appear personally?

Acting Mayor Minisi: I would not bring them in at the next meeting. Your appearance at the next meeting will merely be to make application to reopen the matter. If the matter is reopened a hearing date will be fixed in the future. At that time it is your liberty to try the case as you feel.

The City Clerk: Mr. Fiverson is in court.

Commissioner Duffy: I will take care of it after we adjourn.

Acting Mayor Minisi: Can't we find out if the permit has been issued, Mr. Commissioner?

Commissioner Duffy: Yes.

Acting Mayor Minisi: Suppose you come in next Wednesday and Director Duffy will see that no permit is issued in connection with this application.

Commissioner Duffy: Yes.

Acting Mayor Minisi: Then you come in and renew your application.

Mr. Kaiser: Thank you.

Commissioner Minisi offered the following resolution:

Mayor Ellenstein: Is there any person who desires to be heard in opposition to this application?

Mr. Masini: Before the motion is entertained, I would like it if you will allow me to put in my case. It seems that some technicality was raised at the last hearing and this matter was brought before the local Justice of the Supreme Court. It was stated that in all these matters they must be taken under oath, and in order to make my case clear I would like to have my case put in under oath.

Mayor Ellenstein: Why is that necessary? What is your object?

Mr. Masini: My object now is to put my case in and then have it voted on so that I will have a record that the petitioner has put his case in and has sworn under oath.

Mayor Ellenstein: What difference does it make?

Mr. Masini: It makes no difference except that in the future it will make our permit more secure.

Mayor Ellenstein: I don't see that it will have any effect.

Mr. Masini: I agree with you but the Law Department saw fit in the future to require that. I think Mr. Rankin may be familiar with some

phase of that. We discussed it with Corporation Counsel Boettner.

Mr. Russell Rankin: A writ was obtained before the Supreme Court on the prior application involving these premises, on the ground that no testimony had been taken under oath. Whether that applies to the City Commission as well as the Board of Adjustment, I don't know.

Mr. Masini: I am not saying that it does. I now desire to make application on behalf of Lewis Roberts, Inc., 72-82 Union Street, for an addition for the manufacture of ink on the premises. I offer a letter from the persons who objected previously, in which they consent to the erection of the proposed building.

The City Clerk then read the letter as follows:

November 18, 1936.

Commissioners of the City of Newark,

We, the undersigned owners of property seventy-seven, seventy-nine and eighty-one Prospect Street, Newark, hereby consent to the granting of permits to Lewis Roberts (Inc.) for use and improvements to their property at seventy-two to eighty-two Union Street in accordance with their applications for same and plans filed.

The Board then entered upon said hearing.

Mayor Ellenstein: Does any citizen desire to be heard on this ordinance?

Mr. Cornelius Williams: I don't know whether or not this Commission has been able to get some company to give bids on the equipment. I read in the paper about the figures of the equipment. Now, I would like to know whether the City has asked the International Motor Company.

Mayor Ellenstein: That comes after. This only provides a means of raising the money.

Mr. Williams: Very well, Mr. Mayor, but I believe it is only necessary to raise the amount of money necessary to buy the equipment, if the equipment is actually needed.

Mayor Ellenstein: It is actually needed.

Mr. Williams: I am not questioning that.

Mayor Ellenstein: It will have to be submitted by public bid and the equipment will be advertised.

Mr. Williams: Do you think it will be out of place for the City to require bids and then they vote as to who should get the bid, then raise the money?

Mayor Ellenstein: You cannot do it that way, under the law. The law prescribes that the City raise the money and then bids are submitted.

Mayor Ellenstein: Is there anyone else who desires to be heard on this ordinance?

(No response).

The Board of Commissioners of The City of Newark Do Ordain as follows:

Amount

Purpose

Amount

(4) Clearing the land acquired for the widening of Raymond Boulevard, by the demolition of the former Federal Post Office Building\$ 10,000.00

It is hereby determined and stated that the estimated maximum amount of bonds and notes necessary to be raised for each of said purposes is identical with the amount of money necessary to be raised from all sources for such purpose.

Section 2. To finance said purposes, Bond Anticipation Notes of said City of an aggregate principal amount not exceeding Four Hundred and Ten Thousand Dollars (\$410,000) are hereby authorized to be issued in anticipation of the issuance of said bonds, pursuant to The Local Bond Act of the State of New Jersey. Said notes shall bear interest at a rate which shall not exceed six per centum (6%) per annum, and may be renewed from time to time, pursuant to and within the limitations prescribed by said Act. All matters with respect to said notes not determined by this ordinance shall be determined by subsequent resolutions to be hereafter adopted. Section 4. Not more than Twenty-Five Hundred Dollars (\$2,500.00) of the sum to be raised by the issuance of said bonds and notes may be used to finance interest on obligations issued to finance such purposes, whether temporary or permanent, or to finance engineering or inspection costs and legal expenses, or to finance the cost of the issuance of such obligations, as provided in Section 602 of said Local Bond Act.

Commissioner Minisi: Most of this money is being used in connection with WPA projects?

Mayor Ellenstein: All of it.

Commissioner Minisi: If we would not appropriate the money for these purposes, these projects would come to a standstill?

Mayor Ellenstein: That is right, and six thousand men will be put on relief and taken off those jobs. Every cent of it is for WPA projects. Six thousand men would go on relief and be thrown out of jobs, and we would not have the benefit of those street pavements, storm sewers, and all those improvements which are absolutely essential, and some of the money goes to the repavement of streets that have not been paved in sixty years.

Sealed proposals will be received by the Director of the Department of Revenue and Finance of The City of Newark, at his office, in the City Hall, Newark, New Jersey, on Tuesday, January 12th, 1937, at Eleven o'clock A. M., when they will be publicly opened, for the purchase of the following five issues of bonds of The City of Newark, viz.:

(1) \$250,000 Airport Bonds, dated January 15, 1937, bearing interest payable semi-annually on January 15th and July 15th, and maturing serially, \$25,000 of bonds on January 15th in each of the year's 1938 to 1947, inclusive;

(2) \$250,000 Street Cleaning Apparatus Bonds, dated January 15, 1937, bearing interest payable semi-annually on January 15th and July 15th, and maturing serially, \$50,000 of bonds on January 15th in each of the years 1938 to 1942, inclusive;

(3) \$410,000 General Improvement Bonds, dated January 15th, 1937, bearing interest payable semi-annually on January 15th and July 15th, and maturing serially, \$21,000 of bonds on

January 15th in each of the years 1938 to 1947, inclusive, and \$25,000 of bonds on January 15th in each of the years 1948 to 1955, inclusive;

(4) \$250,000 Water Bonds, dated January 15, 1937, bearing interest payable semi-annually on January 15th and July 15th, and maturing serially, \$5,000 of bonds on January 15th in each of the years 1938 to 1952, inclusive, and \$7,000 of bonds on January 15th in each of the years 1953 to 1977, inclusive; and

(5) \$1,400,000 Emergency Relief Bonds, dated January 15, 1937, bearing interest payable semi-annually on January 15th and July 15th, and maturing serially, 175,000 of bonds on January 15th in each of the years 1938 to 1945, inclusive.

The bonds are of the denomination of \$1,000 each, and are coupon bonds, registerable at the option of the holder as to principal only or both principal and interest. Principal and interest will be payable at The National State Bank of The City of Newark, in The City of Newark, New Jersey.

The bonds will bear interest at a rate which will not exceed four per centum (4%) per annum. In bidding for the bonds, bidders must consider the bonds as constituting a single issue of bonds. Bidders are invited to name the rate of interest which the bonds are to bear. The rate named must be a multiple of one-quarter of one per centum per annum, and must be the same for all the bonds bid for.

No proposals will be considered naming a rate higher than the lowest rate named in any legally acceptable proposal received by the Director of the Department of Revenue and Finance. If two or more proposals name the lowest interest rate, the bonds will be sold to the bidder offer-

ing to pay the sum of \$2,560,000, and to accept therefor the least amount of bonds, the bonds to be accepted being those first maturing, and if two or more of such bidders offer to accept the same least amount of bonds, the proposal of the bidder offering to pay therefor the highest additional price will be accepted. The price for which the bonds may be sold cannot exceed \$2,561,000.

The purchaser must pay accrued interest from the date of the bonds to the date of delivery. No interest will be paid upon the deposit made by the successful bidder. The right is reserved to reject all bids.

Proposals should be addressed to the undersigned Director of the Department of Revenue and Finance of The City of Newark, and enclosed in a sealed envelope marked on the outside "Proposal for Bonds." Bidders must at the time of making their bids, deposit a certified or cashier's or treasurer's check for \$51,200.00 drawn upon a bank or trust company for such amount, to the order of The City of Newark, New Jersey, to secure the City from any loss resulting from a failure of the bidder to comply with the terms of his bid. Checks of unsuccessful bidders will be returned upon the award of the bonds.

The successful bidders will be furnished with the opinion of Messrs. Reed, Hoyt & Washburn, of New York City, that the bonds are valid and binding obligations of The City of Newark.

Bidders, in submitting their bids, must use the bidding forms which will be furnished by the undersigned upon request.

By Order of the Board of Commissioners.

Dated, December 23, 1936.

A. F. Minisi,

That the Lessee will, at the time of the signing and delivery of said Lease, pay to the Lessor on account of the rent reserved, the sum of \$25,000, which said sum of \$25,000 is to be retained by the Lessor and applied against the rents to become due and payable under said lease for the first period thereof; it being understood and agreed that the Lessee shall not be called upon to make any other payments of rental to the Lessor until the 15th day of January, 1940, at which time the Lessee will pay on account of the quarter rent of \$2,362.50, reserved to be paid on the 15th day of January, 1940, the sum of \$987.50, as payment in full of said quarter.

E. That the Lessee, its successors and assigns, may use the demised premises for any purpose in connection with its business, as it may now or hereafter be conducted, including, but not limiting, the Lessee to the operation of a vegetable oil refinery and shipping and manufacturing plant, a margarine factory and edible food plant, a crushing plant for oil beans, seeds and nuts, a soap factory, and a pure lard production plant, receiving, transporting or shipping by land, water or air, and handling, treating, manufacturing, remanufacturing, fab-

ricating, storing, warehousing and selling of goods, wares and merchandise of all kinds whatsoever, as will not, as such business is conducted by the Lessee, give off deleterious or offensive odors, or shall not constitute a public nuisance, but the Lessee covenants and agrees, however, that it will not conduct a public terminal or public warehouse on the demised premises; except whenever the lessee shall be required to receive and store edible oils as tendered by the rules of the Produce Exchange of New York or any public exchange, board of trade or other like body, of which the Lessee is or may become a member during the term of said lease, which body does not grant licenses to public terminals or public warehouses for the storing of edible oils.

F. That the Lessee will, as part of the consideration for the making of said lease, at its own cost and expense, on the said premises, erect a refining and shortening manufacturing plant, and said Lessee agrees to commence the erection of said building within six months after the signing of said lease and will proceed with the work of completing said plant with reasonable and normal diligence; subject, however, to delays by strikes, acts of God or other causes beyond said Lessee's control;

Said plant and all other buildings, structures, tanks and other improvements hereinafter erected on said demised premises shall be erected according to plans and specifications of the Lessee.

G. That the Lessee shall comply with all laws and ordinances, orders, rules and regulations of the Federal Government, the State of New Jersey and the municipality of the City of Newark, and of all governmental departments, bureaus, boards and offices having jurisdiction and authority in such cases in erecting and main-

taining said manufacturing plant and any building or buildings or other improvements placed on the leased premises.

H. That said Lessee will maintain and keep the buildings and permanent improvements in good order and repair, at its own cost and expense, and if it should fail to maintain and keep said buildings and permanent improvements erected on the premises in good order and repair during the term of said lease, reasonable wear and tear, and damages by elements excepted, the Lessor, its successors and assigns, after giving 30 days' notice, by registered mail, to said Lessee, may do and perform all repairs which may be necessary in and about said buildings and permanent improvements and add the cost of said repairs to the rent due under said lease on the 1st day of the next succeeding rent period.

I. That the Lessee will, at its own expense, keep the building, buildings and permanent improvements on the demised premises at all times insured against loss by fire in an amount equal to 80% of the fair market value of said building, buildings and permanent improvements; exclusive of foundations and other parts not normally insured; said insurance to be placed in an incorporated or mutual company or companies of good standing authorized to do business in the State of New Jersey, in the names of the Lessor and Lessee, with loss payable to the Lessor and Lessee, as their respective interests may appear; all insurance moneys received under policies of fire insurance to be applied as provided in said lease; the Lessee to deliver the policy or policies of such insurance and renewal or renewals thereof to said Lessor, together with receipt of the insurance company or companies for full payment of the premiums thereon, and in case of default by the Lessee to so in-

sure, the Lessor, its successors and assigns, may make and effect said insurance and pay the premium or premiums therefor and the same shall be added to and be considered as part of the rents for said demised premises, and shall be added to the rent to become due on the 1st day of the succeeding quarterly period; it being understood and agreed that the Lessee may deliver to the Lessor duplicate originals of the fire insurance policies having the legal effect of originals, and that none of the parties insured by any such fire insurance policies shall obtain or attempt to obtain cancellation or modification or any such policy or policies without giving written notice to the other insured thereby.

J. That the Lessee, in case of the partial damage to the building or buildings on the demised premises by fire will repair the same, and in case of total destruction of the building or buildings on said demised premises by fire, said Lessee will, with due diligence, erect, construct and complete on said premises a building or buildings, according to Lessee's plans and specifications, of at least the same general character and size as the building or buildings in existence on the premises before the destruction and of equal value.

Upon such partial or total destruction, the Lessor will proceed with every reasonable assistance upon the part of the Lessee, and any mortgages of the leasehold, or any part thereof, to collect all insurance moneys and deposit the same in a depository in the City of Newark, subject to the control of the Lessor, Lessee and any such mortgagee or mortgagees. Said insurance moneys shall constitute a fund for and shall be applied to the liquidation pro tanto of the cost of repairing, restoring, or rebuilding the said structure or structures, and said fund shall be disbursed on the basis

of the cost of construction, upon architects' certificates, as the work progresses, and at completion any balance which may remain shall be paid to the Lessee, the said Lessee hereby agreeing to pay any sum in cash in addition to the insurance money so received as may be necessary to repair, restore or rebuild the building or buildings of at least the same general character and size as the building or buildings in existence on said premises before destruction; the Lessee further agreeing that such repairing, rebuilding and restoring shall be in accordance with the then existing rules, regulations and ordinance of the City of Newark; it being mutually understood and agreed that if during the last 10 years of said lease any building or buildings or permanent improvements on the demised premises are totally destroyed by fire or any other catastrophe, or if any fire or other catastrophe renders the premises unuseable for the Lessee's purposes, then and in that event the Lessee, at its election may terminate said lease or repair or replace said buildings. In the event of the termination by the Lessee, all insurance moneys shall be divided between the Lessor and Lessee, the Lessee receiving 1/50th part of said moneys for each unexpired year of the term in said lease created. If the parties cannot agree whether such partial destruction by fire or other catastrophe renders the premises unsuitable for Lessee's use, then such fact shall be determined by arbitration.

K. The Lessee further agrees that no damage to or destruction of any building or buildings on the premises, by fire, shall entitle the Lessee to surrender possession of the demised premises or to terminate this lease, the laws of the State of New Jersey to the contrary notwithstanding; and neither party to said lease shall be released by reason of the damage or

destruction of the building or buildings on said demised premises from the obligations created or imposed by virtue of said lease, except as in said lease otherwise provided;

M. That notwithstanding the occurrence of any event not due to the act or default of the Lessor which may prevent the occupancy of the building or buildings on said demised premises, or the consumption of any period of time by reason of such repairing, restoring or rebuilding, shall the rents in said lease reserved, cease or abate, but the same will be paid promptly and continuously by the Lessee in the manner and form and at the time and times in said lease mentioned, and the Lessee also agrees to pay, without any abatement, and as though such occupancy had not been disturbed, all of the water rents, insurance premiums and other charges or impositions, except as in said lease otherwise provided.

N. That Lessee will not subject the Lessor's estate to any mechanics' liens or other liens for materials furnished and labor done in or on the premises, it being understood and agreed between the parties to said lease that permission given by the Lessor to erect buildings and other structures and to make repairs is not a consent by the Lessor to subject its estate to any such lien.

O. That Lessee shall have the right to mortgage and leasehold and in the event that any mortgage or mortgages shall be placed upon the building or buildings and permanent improvements, said mortgage or mortgages shall be subject to the prior rights of the Lessor.

P. That said building or buildings and all permanent improvements attached to the real estate, when erected by the Lessee upon the demised premises, shall be and become the property

of the Lessor, and at the end or expiration of said lease, said building, buildings and all permanent improvements which remain upon it shall be surrendered with said premises as part thereof.

Q. That on the last day of the term demised in said Lease, or the sooner termination of the estate thereby created, the Lessee shall peaceably and quietly, and without fraud, waste or delay, surrender and yield up to the Lessor, its successors and assigns, in good order and condition, reasonable wear and tear excepted, all and singular the said demised premises, as the same shall have been renewed from time to time, including all betterments and improvements to said demised premises made and renewed during said term, with the appurtenances, the Lessee hereby agreeing and covenanting that the property so surrendered shall include the building or buildings then on the premises and all structures, permanent improvements, and all replacements and betterments erected, made or placed upon said demised premises by the Lessee during the term of said lease; it being expressly understood and agreed by and between the parties to said lease that all buildings, permanent improvements and appurtenances, shall remain the property of the Lessor, and that the Lessor shall not ever be obligated to pay any sum of money whatever to the Lessee for or on account of said property or any of it.

R. That said Lessee will, during the term of the said lease, pay as so much additional rent, all water rents and charges for the use of water and water service connections, all sums of money which may from time to time represent the costs of premium charged by responsible insurance companies for fire insurance, as in said lease provided, costs of repairs and all other costs, charges and expenses to said property, both inside and outside,

the taxes, on tangible personal property contained and being in, on and about the premises; it being understood and agreed between the parties that said money rents in said lease agreed to be paid are intended to be net rentals, and are to be received and enjoyed by the Lessor as net rentals to said Lessor, free and relieved from and over and above all expenses, costs and charges of every nature and description that may be levied or imposed upon said premises, or be required or incurred in the upkeep, operation and maintenance of the demised premises, excepting taxes on the buildings and permanent improvements.

S. That provided always, however, if and so often as the yearly rent in said lease reserved, or any part thereof, or said other additional payments by way of rent, or any part thereof, shall be behind or unpaid on any day of payment whereon the same ought to be paid as aforesaid, and should such default continue for a period of 90 days after notice in writing by registered mail addressed to the Lessee and specifying the default complained of, or if said premises should be abandoned or become vacant during said term, or if and so often as default shall be made in any of the covenants, agreements, conditions or provisions in said lease contained on the part of and on behalf of said Lessee, its successors and assigns, to be paid, kept, performed and fulfilled, and if the Lessee shall not have commenced to remedy such default within said 90 days after notice in writing by registered mail addressed to the Lessee and specifying the default complained of, then and from thence forth in each case it shall and may be lawful for the said Lessor, its successors and assigns, after the expiration of said 90 days, to terminate the said lease and enter into and upon the demised premises and every part thereof and the same to have again, repossess and

enjoy in their first and former estate, anything in said lease contained to the contrary in anywise notwithstanding, but such reentry shall not cancel the obligations of the Lessee to pay the rentals provided for in said lease.

T. That said Lessee, for itself and its successors and assigns, shall and will yearly and every year during the term granted in said lease, well and truly pay or cause to be paid unto said Lessor, its successors and assigns, said yearly net rentals in said lease reserved, on the days and in the manner limited and prescribed for the payment thereof, without any deduction, fraud or other delay, according to the true intent and meaning of said lease.

U. That in the event that the premises in said lease demised shall be taken for public purposes by any power or authority in the State of New Jersey, or of the United States, having the right to take the same by condemnation or eminent domain (the Lessor expressly agreeing that it will not take any such proceedings), during any part of the term of said lease, said Lessee shall have no claim for any damage or loss against said Lessor, its successors and assigns, by reason of said taking.

V. That in the event of a total taking of the premises demised by condemnation or eminent domain, said lease shall terminate and the Lessor will refund to the Lessee any unearned rental which it shall have received and after deducting from the amount of any award received that portion allocated for the taking of the land, will pay to the Lessee 1/50th part of such balance of the award for each unexpired year of the term in said lease created.

It being understood and agreed that in the event of a partial taking of the demised premises at any time during

the term of said lease, by condemnation or eminent domain, the Lessor shall first be entitled to receive from any award or compensation made, the value of the lands so taken, and unless the Lessee elects to terminate said lease as therein provided, the Lessor will apply as much or any balance of the award then remaining as shall be necessary to restore, repair or replace any building or permanent improvements damaged by, such taking, and if any balance of any such award or compensation then remains, the same shall be divided between the Lessor and the Lessee, the Lessee to receive 1/50th part of such balance for each unexpired year of the term in said lease created, but if such portion taken shall, in the opinion of the Lessee, render the balance of the premises unsuitable for its use, then and in that event it may, at its election, terminate said lease and the term thereby created; it being mutually understood and agreed, however, that if, after deducting from the award or compensation the land value, there shall not remain sufficient moneys to repair, restore or replace buildings or permanent improvements, the Lessee will make up such deficiency; it being understood and agreed that if the parties cannot agree that such portion taken has rendered the balance of the premises unsuited for the tenant's use, this fact will be determined by arbitration, and, in the event of such determination, the Lessee shall be entitled to receive from any award made, after deducting therefrom that portion allocated to the land, 1/50th part of the balance remaining for each unexpired year of the term in said lease created. But if as a result of such partial taking the Lessee does not elect to terminate said lease, then the rental therein reserved shall abate proportionately as that part of the land taken bears to the land originally in said lease demised.

W. That said Lessor, for itself, its

successors and assigns, covenants and agrees that the Lessee, upon payment of said money rentals and other and additional payments by way of rent in said lease reserved, and upon performing the covenants and agreements therein contained on its part, said Lessee shall and may at all times during the said term peaceably and quietly have, hold and enjoy said demised premises, without any let, suit, trouble or hindrance of or from the Lessor, its successors and assigns, or any other person, persons, or corporation or corporations whomsoever.

X. That no failure or successive failures on the part of the Lessor, its successors or assigns, to enforce any covenant, agreement or condition herein contained, and no waiver or successive waivers thereof by the Lessor, its successors or assigns, shall operate as a discharge of such covenant, condition or agreement, or render the same invalid or impair the right of the Lessor, its successors and assigns, to enforce the same in the event of any subsequent breach or breaches thereof by the Lessee.

Y. That in the event that it, the Lessee, shall during the term of said lease, be adjudicated insolvent or a bankrupt, or if a permanent receiver shall be appointed for it for any cause, then the Lessor may, at its option, terminate said lease and any rights or privileges of the Lessee thereunder, by giving 30 days' notice to the Lessee, or its receiver or trustee, or other officer of the court in charge of the assets and affairs of the Lessee, and upon the expiration of said 30 days said lease and any rights or privileges of the Lessee shall thereupon become null and void; provided, however, that no petition filed under Section 77B of the Bankruptcy Act or similar legislation shall entitle the Lessor to terminate said lease.

Z. That said Lessee further covenants and agrees that if any suit shall be brought against said Lessor by reason of any act or negligence of said Lessee for any occurrence on or adjoining the demised premises during the term thereof, for which the Lessor would otherwise be responsible, upon reasonable notice to the Lessee, to defend the same, and said Lessee agrees to repay the cost and expense thereof, and if in such suit it shall be adjudged that said Lessor shall pay any sum of money or perform any act in relation to the demised premises, then and in that event said Lessee shall and will pay to said Lessor any sum of money that it shall be or become liable to pay by reason of such judgment, including the expenses of the defense of said suit, and in the event of the Lessee's failure to pay the same, on demand, then said Lessor may pay the same and the amount so to be paid shall be and become part of the rent of said demised premises and shall be added to the rent next to become due under said lease;

AA. That notice, as defined, by the within referred to lease, shall be either by personal service or written notice, upon either of the parties hereto, or such notice shall be deemed to have been given when deposited in a United States Postal Receiving Box, registered mail, postage prepaid, addressed to the Lessee, at the demised premises, or to the Lessor, attention Director of Public Affairs, City Hall, Newark, or at such other address as the parties may hereafter, in writing, designate.

BB. That the Lessee shall have the prior (but not exclusive) right to that part of Municipal Dock No. 9, fronting on the property leased, for the berthing, loading, unloading and mooring of vessels serving the Lessee upon the payment of charges in said lease specified, and that within 48 hours after notice, in writing, has

been given to Lessor by Lessee. Lessor will clear or cause to be completely cleared and keep clear of any boats, vessels, water craft, objects and obstructions of whatsoever kind, character or description, other than those serving the premises, the above referred to part of the dock so as to permit the exclusive use of said part of the dock by said Lessee during the complete loading or unloading, or both, of any vessel or vessels serving the premises. After the completion of such loading or unloading, it is agreed that the dock in said lease referred to shall be open and accessible to all other generally; it being understood and agreed that the dock is not leased to the Lessee but remains at all times under the jurisdiction and ownership of the Lessor and that the rights in said lease granted to the Lessee for the use of said dock and for the loading and unloading of cargo consigned to the Lessee, is to be exercised at all times subject to the rules and regulations of the Lessor governing the use of docks as now in effect or in the future may be put into effect by the authorities having jurisdiction over them.

CC. That the Lessee is to pay no dockage or wharfage charges for any and all fuel to be consumed on the premises for the operation of the plant or buildings erected on said premises during the term of said lease, and, furthermore, that the Lessee shall not pay any wharfage charges for any liquid products loaded or unloaded through pipe lines over or under Municipal Dock No. 9.

DD. That, except as provided in the preceding paragraphs, the Lessee shall pay dockage charges at the rate now or hereafter established by the City of Newark, but in no event shall the dockage rate exceed the sum of \$25 per boat, vessel or steamer per 24 hours.

EE. That the rates to be charged for dockage and wharfage shall be according to the prevailing charges at Port of Newark, provided, however, that at no time during the term of said lease shall that rate exceed those charged at the Port of New York; provided, further that when the dockage and wharfage charges chargeable against the Lessee shall exceed the sum or amount of \$5,000 and up to \$10,000 per year, there shall be allowed to the Lessee a discount of 50% of that portion that is in excess of \$5,000; and when the annual dockage and wharfage charges exceed \$10,000 per year, there shall be allowed to the Lessee a discount of 50% on that part of the charges between \$5,000 and \$10,000, and a discount of 75% on that portion of the charge in excess of \$10,000;

FF. That said Lessee will not let, sublet or underlet said premises or any part thereof, not assign nor sell said lease, without first obtaining the written consent of the Lessor, provided that said Lease may be assigned by the Lessee, or said Lessee may sublet or underlet said premises or any part thereof to any subsidiary corporation owned or controlled by said Lessee without obtaining such consent, but no assignment or sublease or underlease shall relieve the Lessee of any or its obligations thereunder; said subsidiary companies shall have no greater rights or privilege than the Lessee under the terms of said lease;

GG. That the Lessee shall have the privilege, without additional charge, of using the water of the channel for cooling and condensing purposes in its plant with the further understanding that this water is to be returned to the channel in substantially the same condition as it was when taken therefrom;

HH. That the Lessor, on its part

covenants and agrees as follows:

(a) That it will at its own expense, pave two proposed streets on the easterly and westerly sides of the premises in said lease demised, as indicated on the blueprint attached to said lease and made part thereof, with Bituminous Macadam, to a width of 25 feet on each street;

(e) That it will, at all times, during the term of this lease, furnish or cause to be furnished or secure by appropriate arrangement with all common carrier railroads serving the Port of Newark District, physical connections with the tracks of the Lessor for shipments to and from the leased premises; it being understood, however, that the tracks constructed by lessor within the limits of the leased premises are to be maintained and, if necessary, replaced by and at the expense of the Lessee, without any additional cost to the Lessor during the term of this lease;

That the Lessor warrants and agrees that it will undertake to start the work hereinabove referred to simultaneously with Lessee's starting construction of its plant and will proceed diligently to complete said work;

it being mutually understood and agreed that in the event of Lessor's failure to do said work, Lessee may then complete or do said work under the Lessor's supervision and approval, at Lessee's own expense, and said Lessee may deduct the cost of said work from the rents due or to become due under said lease.

II. Yeas: Commissioner Franklin, Minisi, Mayor Ellenstein.

Commissioner Parnell: I have not seen a copy of the ordinance. I vote no.

Commissioner Franklin moved that January 13th, 1937, at 12 o'clock noon, or as soon thereafter as said matter can be reached, and the Board's meeting room, second floor, City Hall,

Newark, N. J., be fixed as the time and place when and where said ordinance will be further considered for final passage, and that the City Clerk be and he is hereby directed to publish said ordinance and give public notice of its introduction and passage on first reading as provided by law.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Franklin, Minisi, Mayor Ellenstein.

Naye: Commissioner Parnell.

Mayor Ellenstein: Is there any other business?

Commissioner Minisi: Mr. Mayor, I move first that we take under consideration a matter which was not included in the notice which was sent calling this special meeting. I have reference to the settlement of the so-called Standard Oil Company assessment.

Commissioner Franklin: It is for discussion, not for action.

Mayor Ellenstein: It is both. Director Minisi is moving this matter which was not included in the call.

Commissioner Franklin: That is proper, is it?

Mayor Ellenstein: Yes.

Commissioner Franklin: I will second the motion.

The roll being called, the motion was declared adopted by the following votes:

Yeas: Commissioners Franklin, Minisi, Mayor Ellenstein.

Not Voting: Commissioner Parnell.

Commissioner Minisi: Now, Mr. Mayor, as you know and as the taxpayers of the City of Newark know, we levied—or rather, the City authorized me to apply to the County Tax Board for a proper assessment to be levied against the Standard Oil Company of New Jersey. An application was filed with the County Board and we applied for an assessment of \$300,000,000. The Standard Oil Company, naturally, objected to this assessment, and in a series of conferences which were held—I believe you attended one of them—I attended two or three of these conferences—The Standard Oil Company of New Jersey's position is, substantially, that they are not taxable in the State of New Jersey at all. And after some negotiations they agreed to compromise this matter; and failing to enter into an agreement which would be equitable as far as both sides were concerned, their determined position was one which would carry this case all the way up to the United States Supreme Court, involving litigation which would probably take five or six years, involving the City of Newark in the expenditure of large sums of money in pursuing its position in an endeavor to levy this assessment. And I can best compare it to the Dorrance tax appeal which was recently terminated, in which the State of New Jersey received a very substantial sum of money. Up to the time of the conclusion of that case there was not a person in the State of New Jersey who could definitely say that the State of New Jersey was going to win the case. It has cost the State of New Jersey many, many thousands of dollars. And as far as I am able to ascertain from the Law Department, neither they or any other lawyer can definitely say that the City's position is one of certainty. We do not know whether we can win this case. There is a possibility or a probability that at the termination of the litigation we might get nothing.

Bearing that in mind, and approaching the problem in a spirit of compromise, I requested the Standard Oil Company to communicate with me, over the signature of its Comptroller, and in compliance with that request I have a letter which I would like to read into the record. This is a copy. The original is up at the County Tax Board.

Now, the letter is dated December 30, 1936. It is on the letter-head of the Standard Oil Company, Inc., of New Jersey, Comptroller's Department, 80 Rockefeller Plaza, New York. The letter is addressed to me and reads as follows: "I am making the following statement concerning intangible personal property of the company as of October 1, 1935, as shown by its books. On said date the company had intangible personal property of the value of approximately \$34,000,000, none of which was within any of the classes of property described as exempt from taxation by the property tax laws of New Jersey. I am advised by competent counsel that all the intangible personal property of the company, except the foregoing is and was on the date last mentioned, of the description which is expressly exempt from taxation under such laws, as currently construed. The company does not concede that any of its property is taxable by the City of Newark. As you are aware, none of the company's property could be taxed by the City if the Company's contention were fully sustained. Very truly yours." and signed by the Comptroller, T. C. McCobb.

Now, in view of the fact that this case would involve litigation, and in view of the fact that on one can positively say that this litigation would terminate in a victory for the City of Newark and might terminate in a complete loss, it was my opinion that the matter should be compromised.

At first the Company offered various amounts, beginning with an offer, I believe, of \$5,000,000; and we gradually, through a series of conferences increased the offer to an assessment of \$50,000,000, which would bring to the City of Newark approximately \$2,000,000 in tax dollars.

The Tax Board of this City was called in session late yesterday afternoon. The matter was presented to them; the letter was placed in their possession; the Tax Board went into executive session and after discussing the matter, the Tax Board of this City decided that an equitable assessment was a proper assessment, in view of the uncertainty of the position taken by the City and based upon the tax laws as currently construed, it was advisable to compromise the matter and accept from the Standard Oil Company a check in payment of the taxes based upon an assessment of \$50,000,000, with the understanding that the Standard Oil Company of New Jersey, a Delaware corporation, which is taxed in the City of Newark approximately \$3,000,000, would retain its situs in the City. Failing to reach a compromise, the company also advised me that they would move this other company out, and we would not only be confronted with a very uncertain fight, but we would also lose another \$3,000,000 ratable.

Now, a question might be raised as to why we are doing this at this time instead of prolonging it. There has not been any element of hate in considering this matter. As you know, a series of conferences having taken place over a period of many weeks, and we were mindful of the law of the State of New Jersey which compels the City of Newark to place in its budget a reserve based upon the failure to collect taxes during this current year—

Mayor Ellenstein: This is uncollected taxes.

Commissioner Minisi: Uncollected taxes. Now, if the County Board ruled in favor of the City and placed this \$50,000,000 assessment or any other assessment which in their mind might be fair, we would carry this thing into next year as an uncollected item, and we would be compelled immediately to pay our county and state tax, and we would be compelled to carry in our next year's budget a reserve based upon the failure to collect this amount this year. And it is my opinion that considering all these elements, that we should compromise this matter and ratify the position taken by the city tax board and place an assessment of \$50,000,000 upon the intangible personal property of the Standard Oil Company of New Jersey.

Mayor Ellenstein: I might say, too, to the Board of Commissioners, that in the conference held at which Director Minisi, a representative of the Newark Law Department and a representative of the Standard Oil were present, that these matters were discussed; and primarily, the city took the position, informally, of course, endeavoring to get the Standard Oil Company to move back to Newark, and even compromising at a lesser figure than \$50,000,000, realizing that in so doing we would have in our ratables for next year a sum that would be equivalent to the \$2,000,000, and at the same time insure industry now located in New Jersey of the policy of the Tax Board and the City Commission to compromise where assessments are made that are in controversy. And I was particularly impressed with the fact that while the claims of the Standard Oil Company might be subject to scrutiny, that there isn't any evidence before the Newark Tax Board or the City Commission refuting these statements made by the representatives of the

Standard Oil Company, such as the Comptroller and some other representative by the name of McDowell, as I recall.

Commissioner Minisi: And Mr. Josiah Stryker.

Mayor Ellenstein: And Mr. Stryker, who was the legal representative. The reason that the Standard Oil Company cannot come back to Newark for next year is because their taxing situs was changed as of October 1 last, which is the date upon which the tax is predicated, and that would of necessity have obligated them to pay two taxes, one in Linden and one in Newark.

I concur in the recommendation of the Tax Board and that made by Director Minisi; and it appears to me that will serve the best interests of the City to accept the \$2,000,000 rather than to engage in litigation in which there is a grave doubt as to whether the City of Newark can sustain its position.

Commissioner Minisi: I might also add, Mr. Mayor, that before reaching a final determining position, I called Mr. Horace Corbin at his home. I intended to see him personally, but he was ill, he was not at the bank, and I could not call on him and he could not call on me, so I called him on the telephone. He is to some degree familiar with this problem. In fact, he came in to see me some time ago in connection with it. And when I told him that we were in a position to levy an assessment of \$50,000,000 against this Company, it was his opinion that it should be accepted. And I am also mindful of the fact that the statement made by the Comptroller of the Standard Oil Company to the effect that they have only \$34,000,000 in tangible property which is not in the class exempted by the laws of this State, is borne out not only by Mr.

Maxwell McDowell, the New York attorney for the company, but also by Mr. Josiah Stryker, who represents them locally, and that is his message and the position which he takes.

Now, at this time, I move you, Mr. Mayor, that we ratify the position taken by the Newark Tax Board and we advise the County Tax Board that the City Commission has agreed to compromise this matter upon a basis of levying a \$50,000,000 assessment against the Standard Oil Company of New Jersey.

Mayor Ellenstein: As I understand, the levy of \$50,000,000 includes interest charged as well.

Commissioner Minisi: Yes, they are paying interest charges on the amount of the tax.

Commissioner Franklin: I second the motion.

Mayor Ellenstein: You offer that in the form of this resolution?

Commissioner Minisi: Yes.

Mayor Ellenstein: The clerk will read the resolution:

WHEREAS, The Board of Assessment and Revision of Taxes of The City of Newark, at a meeting held on Wednesday, December 30, 1936, did consider and approve the assessment of the personal property of the Standard Oil Company (of New Jersey) for the year 1936 in the amount of Fifty Million (\$50,000,000) Dollars; and
